To illustrate the working of the trust, an appropriation of $1,200,000 per annum, for a period of 30 years, would enable it to own for the shareholders, through the purchase of guaranteed stocks and bonds at rates yielding 7 per cent revenue to the trust, and through the accretions thereon after paying interest on the scrip issued to the shareholders out of the trust fund, not less than $73,000,000. If the securities referred to could be purchased at rates yielding 8 per cent to the trust, then it would own at the end of the same period $84,000,000.

This computation is based upon the difference between the rates of interest paid on the money used in the purchase of the securities and the earnings of the securities themselves; but the fund will be largely increased by the purchase of these securities below par. If the average price of purchase was 15 per cent below par, then the fund on the 7 per cent basis would be increased to $84 000,000, and on the 8 per cent basis to $108,000,000.

The cost of these securities to the shareholders would have been $86,000,000, for which they would hold scrip, and upon which they would be paid interest every six months at the rate of 4 per cent per annum out of the trust fund. As the last year of the trust shows an accumulation equivalent to about $4,500,000, after the payment of interest on all scrip issued, it will be seen that with its continuance and its annual accretion, it will require a very limited term to accomplish the results stated.

The form of security which it is proposed to give to the shareholders is very similar to that which has been created by many of the English railways, as a representation of capital, and is known as a terminable debenture, and which is considered a satisfactory security.

It will be seen from a careful consideration of the plan proposed that its results to the shareholders would be to make their entire property more secure under its existing obligations; give greater security in the future for the payment of regular dividends, and place an appreciating value upon the entire capital stock of the company.

Your board would therefore recommend to the favorable action of the shareholders the resolution appended to this report.

Missouri, Kansas and Texas Railway.

On recommendation of the Committee on Stock List, the Governing Committee have admitted to quotation at the Stock Exchange the Missouri, Kansas and Texas Consolidate Mortgage bonds assented, as follows: $2,500,000 first additional consolidated mortgage, dated June 1, 1872, due June 1, 1905, numbered from 14,001 to 16,500, both inclusive, interest 7 per cent gold, payable Feb. 1 and Aug. 1; $1,182,000 second additional consolidated mortgage, (Fort Smith Branch,) dated Nov. 1, 1872, due Nov. 1, 1905, numbered 16,502, 16,504 to 16,516, 16 519 to 16,521, 16 523 to 16,550, 16,557 to 16,560, 16,598 to 16,595, 16,599, 16,601 to 16,605, 16,610 to 16,614, 16,616, 16,617, 16,626 to 16,630, 16,632 to 16 639, 16,642, 16,644, 16,645, 16,648 to 16,653, 16,656 to 16,661, 16,665 to 16,670, 16,677 to 16,700, 16,709 to 16,756, 16,760 to 16,776, 16,778 to 16,785, 16,787 to 17,291, 17,293 to 17,511, 17,518, 17,514, 17,517 to 17,547, 17,550 to 17,554, 17,556 to 17,618, 17,621 to 17,750, interest 7 per cent, gold, payable Feb. 1 and Aug. 1; $600,000 third additional consolidated mortgage, dated June 1, 1873, due Jur

1906, numbered from 17,300 to 17,900, both inclusive, interest at 7 per cent gold, Feb. 1 and Aug. 1.

Panama Railroad.

At the annual meeting of the stockholders of the Panama Railroad Company, held at their office in this city on the 1st inst., the old board of directors was re-elected, viz: John R. Marshall, Charles G Francklyn, Trenor W. Park, S. C. Thompson, John M. Burke, Charles E. Leverich, J. G. McCullough, Joseph Ogden, Andrew Boardman, Frederick Butterfield, H. H. Baxter, Thomas Maddock, and George A. Hoyt.

From the report which was presented we learn that the earnings of the road during the year ending December 31, 1877, were:

Freight from Aspinwall to Panama.		$763 580 38
Freight from Panama to Aspinwall.		712,768 44
Treasure		15,957 51
Mail		14,888 90
		$1,507,195 28
Passengers from Aspinwall to Panama	$99,961 35	
Passengers from Panama to Aspinwall	67,742 90	
		167,705 25
Interest and exchange		83,504 30
Lighterage		130,667 92
Water from Taboga and water at Aspinwall		32,625 93
Leases, rents, ballast, wharfage, light dues, telegraph, etc		66,433 18
		$1,988,130 81
Expenses, viz:		
Total expenses on the Isthmus, for lighterage, salaries, fuel, supplies, repairs, etc.	$401,461 68	
Charges account	19,021 78	
Drawback on Colombian produce	12 500 07	
Lost & damaged freight	6,562 65	
Freight on stores	2,863 98	
Office expenses in New York	14,569 14	
	$456,979 25	
Interest on bonds	209,468 19	
Subsidy to Colombian Government	250,000 00	
		916,447 44
Net earnings		$1,071,688 37

The report of B. Moxley, General Superintendent, dated at Aspinwall, March 5, 1878, was submitted by the directors, from which we make the following extracts:

The disturbing elements to which I alluded in my report to you of March 21st, 1877, having been removed, we have reaped the benefits accruing from united and harmonious action between the railroad and steamship companies, and you have every reason to be satisfied with the results, which are—first, a reduction in operating expenses; second, the greatly improved condition of your property; and third, an extraordinary increase of traffic (considering the generally depressed condition of all trade and commerce), which has been secured by adopting a vigorous, comprehensive, and settled policy.

The gross earnings for the year 1877, from all sources, including rental of property, lighterage, wharfage, sales of water and ballast, &c., &c., amounted to $1,988,130 81, and the expenses were $456,979 25, to which must be added, subsidy paid Colombian Government, $250,000, and interest on 7 per cent sterling bonds, $209,468 19, making a total of all expenditures, $916,447 44; leaving a net balance of profit amounting to $1,071,688 37 which is over 15 per cent on your capital stock.

In further explanation of the above figures, it is right to add that the cost of 500 tons new steel rails, and of laying same; the cost of 5,500 new lignum-vitæ cross ties; and of rebuilding a portion of your wharf property at Aspinwall, are included in operating expenses for the past year.

"Construction account" having been closed long ago, and as we have no such headings in our ledger as "contingent account," "renewals of rails," "new buildings," or other convenient receptacle for gross sums which it is not desired to show in operating expenses, there is nothing to deduct from or add to the above figures. Every addition or improvement to the property or plant is paid for in cash, and charged up at once as a current expense.

The number of tons of freight transported in 1877 amounted to 146,942 tons, against 126,014 in 1875, and 113,781 tons in 1876; being an increase in 1877 over 1876 of 33,161 tons.

The total number of passengers carried (exclusive of the native travel between local stations) in 1877 was 22,110, being a decrease of 830 passengers as compared with 1876, which is accounted for by the extra travel in 1876 to and from the Philadelphia Exposition.

The business with Central America shows a very marked improvement over any previous year. Coffee received from there foots up 238,817 bags, being an increase in 1877 over 1876 of 73,664 bags, or fully 40 per cent. Of sugar, a comparatively new trade, from the Central American Republics we carried 22,815 bags last year, against 6,012 bags in 1876.

India rubber, hides, deer and goat skins, and indigo, all show a considerable increase; while the only article that shows a falling off is cochineal, to the extent of 1,100 zeroons.

Of European and American manufactures—iron, machinery, &c.—we carried for Central America 12,315 tons in 1876, while last year the shipments across the Isthmus amounted to 17,891 tons, being an increase of 5,576 tons, or over 40 per cent.

Our business with the West Coast of South America, to which I alluded especially in my last report, also shows satisfactory results. Of cocoa from Ecuador, 118,221 bags were forwarded in 1877 by our route, against 93,796 bags in the year previous; while, at the same time, the crop of 1877 was, according to official reports, fully 25,000 quintals less than that of 1876.

Of European and American manufactures, &c., we delivered to the Pacific Steam Navigation Co. at Panama, last year, 17,208 tons, against only 13,668 tons in 1876.

Our freight traffic between New York and San Francisco (both ways) shows an increase over the previous year of 10,048 tons, while through passengers exhibit a slight decrease, as indicated above, though the loss is less than we had a right to expect when compared with the returns of other railroads throughout the world.

The track and road-bed are in excellent condition, and no difficulties or drawbacks were experienced during the last rainy season. Five hundred tons of new steels rails were laid last year, and one thousand tons more have just been received, which are already being distributed, and will be laid at once. When this is done, one-half of the entire road will be of steel.

In my last report I gave the total number of locomotives in good condition at 13. Since then, two more, that had been laid aside some years ago, have been carefully tested, and being found fit for several years' service, have been put in running order, increasing our number to 15. Of these, 8 are in constant use, 3 are held in reserve (2 at Aspinwall and 1 at Panama), to be ready in case of emergency, or when extra trains are needed, and 4 are in shop, undergoing ordinary repairs. We have ample power to move double our present traffic.

In my last report I pointed out the need that existed for our having 100 new box cars. These were contracted for: 30 of them are already in service, and 70 more are on their way out here.

Passenger coaches, baggage cars, platform, coal and dump cars, remain at the figures given last year and are ample for our present requirements. I would, however, recommend the purchase of six first class passenger coaches at an early date.

I am glad to report that the whaling business, which had almost disappeared from the Isthmus, is gradually finding its way back here, and the prospects now are that not only the Pacific but a large portion of the Arctic fleet will come to Panama to ship their catch and receive their stores. Great care has been taken with this traffic and both captains and owners express themselves well satisfied with the manner in which their business has been done here during the last year, and the facilities we afford them.

In conclusion, permit me to say that I can see no reason why the traffic across this road should not continue to increase as it has last year. The period has been one of unusual depression all over the world, the general trade of all countries has been bad, and the increase we exhibit in our operations simply proves that we are now getting that share of the traffic to which our extraordinary geographical position entitles us, and which, for a certain period, had been diverted to other channels, from causes which it is unnecessary now to allude to.

Treasurer's Statement, 31st December, 1877.

Assets:		
Cash in Bank		$42,823 46
Funds in England		47,120 00
Due from connecting lines		284,594 66
Bills receivable		300,781 25
Colombian Government—advance of subsidy		263,538 00
Due from sinking fund		56,267 30
Investment in Panama R. R. Co. stock, 900 shares		112,500 00
Petty cash		90 94
Interest due		4,088 33
		$1,111,798 94
Liabilities:		
Loans	$150,000 00	
Drawbacks on Colombian produce	3,500 00	
Isthmus drafts	7,149 06	
		160,649 06
Surplus		$951,149 88

Sinking Fund, 31st December, 1877.

The bonded indebtedness of the company consists of 2,989 seven per cent Sterling bonds of £200 each, equal to £597,800 (about $2,905,308), all due in 1897, to meet which the company have the following sinking fund:

195 Panama 7 per cent Sterling bonds, cost		$178,255 01
Panama stock, 1,500 shares, cost		154,690 37
Six Pacific Mail steamers		400,000 00
		$731,945 38
Due to Panama R. R. Co.		$56,267 30
Sinking fund		675,678 08
		$731,945 38

☞ The bill authorizing the State Treasurer to accept the scrip of the Philadelphia and Reading Railroad Co. for indebtedness to the State by the Tidewater Canal Company, passed both branches of the Maryland Legislature.

☞ The Columbus and Washington Railroad is located from Washington to Mt. Sterling and a portion of the right of way taken. Arrangements have been made to push the completion of the road with all possible speed.

☞ A surveying party left New Tacoma on the 21st ult. to examine the Cowlitz pass of the Cascades, to see if a practical route for the Northern Pacific Railroad could be discovered.

Pittsburg, New Castle and Lake Erie R. R.

The Pittsburg Chronicle says it is expected that within sixty days the Pittsburg, New Castle and Lake Erie Narrow Gauge Railroad will be open to travel from Allegheny to Grubbs' Tunnel, distance sixteen miles. Trains will be running to Zellenople two months later, when it is anticipated the tunnel will be finished. Workmen are engaged placing in position 12,000 ties, which have been delivered at various points along the line of the road. The contracts for rails, locomotives and cars have been given out, and it is expected that the first locomotive will be ready for duty on April 10. Most of the bridges along the road are almost completed. In a day or two, the contract for extending the road from Harmony to Wurdenburg will be awarded, and work will be commenced as soon as possible thereafter.

Ogdensburg and Lake Champlain R. R.

The Boston Journal says that the advance in the Ogdensburg and Lake Champlain stock appears to flow legitimately from the improved prospects of the road, and adds:

Arrangements have already been made with Western lines by which an active business will now begin, being three months earlier than last year. The Northern Transportation Company's line of steamers, which last year ran from Chicago, Milwaukee and Detroit to Kingston, this year run to Ogdensburg, which assumes a largely increased summer business. An arrangement has been concluded with the Vermont Central within a few days which will give the Ogdensburg an uninterrupted communication with the seaboard during the winter months when the lake is closed by the ice and freight comes from the West by the way of the Rome and Watertown Railroad, which connects with the Ogdensburg at Potsdam. It really looks now as if the suspended dividends on the common stock would be resumed at no distant date.

National and State Securities.

Our table of National and State Securities appears this week thoroughly revised from the official returns of the several governments represented therein, and is as complete in all its parts as scrutiny and experience could make it. There have been several important changes during the year 1877 which are duly noted. These changes will be found to be most conspicuous in the Southern States, in which partial or complete or attempted repudiation has been the order of the day. Louisiana has nearly completed the exchange of its accepted bonds into consols. Alabama and South Carolina have reduced and changed their issues, but to no purpose, since neither the original nor the new securities are receiving any dividends. Virginia is also among the defaulters, after excising 33⅓ per cent from the principal for which she received sound dollars in her more prosperous, but alas by-gone, years of honest dealings. And here, amid the wreck of public faith and honor, stand Georgia and Texas, the sole survivors of a proud and honored South, now fallen from its glorious pedestal of the past, never more destined to acquire the respect and confidence of the money world. But little has been changed in Northern securities. The New England States are gradually reducing their debts by means of taxation and sinking funds. New York, excluding the Canal debt, and that is now but a trifle as compared with the State wealth, will during the current year pay off the last penny of its general fund debt. Its war debt of 22 millions has already been satisfied. Pennsylvania follows suit, and is only nominally a debtor. Maryland has a large debt, but is able and willing to pay to the last dime. The Western States, or at least that section of them bounded by the lakes, the Ohio, and the Mississippi, and we may here include Kentucky, have merely fragmentary debts, not called for, and therefore unpaid, the great bulk of once formidable liabilities having been absorbed in the State trusts, irredeemable and non-negotiable. On the northwest edge of this favored section, however, the blot of repudiation again appears, and Minnesota stands forth in all the ignominy and shame universally attaching to repudiators. California represents American honor on the Pacific coast, and its bonds rule high in every market. As the exponent of the debtor side of our country we commend our new table to the investing public.

☞ The directors of the Southbridge and Brookfield (Mass.) Railroad, yet to be built, have adopted Mr. Gilman's original line following McKinstry brook out of Southbridge, and making nearly an air line to East Brookfield, saving three miles of distance. They also set on foot measures to induce the people of Spencer to run their proposed line to East Brookfield, rather than to Spencer depot. The friends of the enterprise see in this action renewed hope of the early construction of both lines.

☞ In the case at New Orleans of the State of Louisiana ex rel. the New Orleans Pacific Railway vs. Francis T. Nicholls, Governor, et al., Judge Rogers refused a mandamus to compel the issuance of State bonds to the railroad company to the extent of $2,000,000 under an act of the General Assembly.

☞ The New York board of aldermen, by an almost unanimous vote, has granted to the several railroad companies whose lines terminate at the port of New York permission to use steam upon the belt railroads, for the purpose of transferring freight, between the hours of 7 o'clock in the evening and half-past 4 in the morning.

☞ The New Brunswick Assembly has passed the bill for the construction of a railroad from a point on the International road to Cape Tormentine, where a connection could be made, with boats, to Prince Edward Island. It is believed that the route can be kept open during the winter by properly constructed boats.

☞ A dispatch from Winnipeg, Manitoba, says that track laying on the Canadian Pacific Railroad is progressing at the rate of three-quarters of a mile per day.

☞ The total shipments of coal from Cumberland, Md., for the year to March 30th were 182,241 tons.

☞ The narrow gauge railroad from Harrisburg to Rawley Springs, Vt., will be completed in time for the Spring travel.

☞ The Superintendent of Public Works announces that the Erie and Oswego canals will be open for navigation on Monday, the 15th inst.

☞ The ballasting of the Sarnia, Chatham and Erie Railway has been completed.

American Railroad Journal

Saturday, April 6, 1878.

Financial and Commercial Affairs.

A more urgent speculative inquiry has been reported for Money in the local market, which has enabled lenders to maintain a very firm and confident position relative to temporary aid, for which borrowers have been paying quite generally the full legal rate of 7 per cent, and, in instances, a commission of 1-64th of 1 per cent. The preparations for the first of April interest and dividend disbursements have served to lessen the available supply to an extent sufficient to influence the rates for accommodation, giving the advantage, for the moment to capitalists in all current negotiations. With the rise in call loan figures, less favor has been shown to discount applications, and commercial paper has met with a slower sale, affected, in part, by the further announcements of important failures and suspensions. Call loans were quoted here at from 5@7, the principal negotiations having been within the range of 6@7; and very choice to strictly prime mercantile credits were rated at 5@7 per cent per annum. The City bank exhibit of last week indicated an enlargement of the loan and discount average of $24,200, and in the item of circulation of $6,000. The average of deposits was further diminished $1,560,100. The legal tender reserve was cut down $180,800; and the specie average $919,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $15,598,400 against $16,308,575 the preceding week (the latter the highest aggregate reached thus far this year). The City bank exchanges in currency

reached $259,353,328, or a daily average of $59,892,221.

The outstanding amount of legal tender notes is $347,911,055. The National bank circulation is now $320,761,894 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,997,000.

The U. S. Sub-Treasury receipts in March were $57,197,276 (of which $8,790,669 from Customs;) payments, $57,094,634, (of which $6,015,452 were for coin interest.)

Business in Government Securities was of less important proportions, and mainly for home investment purposes, with prices quoted variable from day to day, but leaving off, on the whole, somewhat steadier. The offerings of the favorite issues have been lighter. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107⅛@107¼; do. coupon, 107⅛@107¼; do. 1865, new, registered, 104⅛@104⅜; do. coupon, 104⅛@104⅜; do. 1867, registered, 107¼@107½; do. coupon, 107¼@107⅜; do. 1868, registered, 109½@110; do. coupon, 109½@110; do. ten-forties, registered, 105⅜@105½; do. coupon, 105⅜@105½; do. five per cents, 1881, registered, 104⅛@104⅜; do. coupon, 104⅜@104⅝; do. 4½ per cents, 1891, registered, 103⅛@103¼; do. coupon, 103@103⅛; do. 4 per cents, 1907, reg., 100⅝@100¾; do. coupon, 100¾@100⅞; do. sixes, currency, 117½@117¾.

The reported subscriptions to the new four per cent Government loan reach about six millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,235,250, and $13,453,000 as security for public deposits.

The U. S. currency of all denominations, outstanding on the 1st inst., was $365,235,825.

The liquidation of the public debt of the United States in March reached $2,313,615; and since July 1, $20,434,709.

The income of the Government from internal revenues last week was about three millions, and from Customs last week about two millions.

The disbursements of the U. S. Treasury in March reached $11,044,388, including on account of civil and miscellaneous, $3,021,186; war, $1,748,258; navy, $1,180,775; interior (Indians and pensions), $5,099,173.

On Tuesday of this week, the cash balances in the National Treasury were of currency, $751,851; special fund for the redemption of fractional currency, $10,000,000; special deposit of legal tenders for the redemption of certificates of deposit, $25,215,000; coin, $138,357,608, including $57,883,400 in coin certificates.

A moderately active business has been reported in the better class of State bonds which have shown rather more firmness as to prices. Railway Mortgages have been quoted generally stronger and in good request, mainly on investment account. And in the line of Railway and Miscellaneous share property transactions have been again on a liberal scale, and as a rule, indicative of a buoyant market, speculation showing a decidedly more confident temper, favored, in good part, by the very encouraging traffic reports from the great trunk railways. The more stringent market for Money had little influence in checking the upward movement.

A comparatively steady market has been reported for Gold, the dealings in which were to a more important aggregate, quickened to some extent, by the increased export movement. The customs drain has been limited for the season. The extremes of the price during the week have been 101@101⅛, closing on Wednesday at 101⅛ as against 101⅛ on Wednesday of the preceding week. The specie outflow last week reached $1,932,318 (the first week's export of magnitude reported in a long time)—making the total exports of specie hence since January 1, $4,545,973 against $3,436,105 the same time in the preceding year. The imports of specie at this port last week were to the amount of $1,031,331 and since January 1st have been $5,206,325 as against $5,396,089 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,657,804 or an average of $276,301 per day.

Foreign Exchange has been in better supply and urgent demand, leaving off less firmly. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 87; sight bills on London at $4 88½@$4 89⅛ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $4,561,062 as against $8,028,983 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,765,151 of Dry Goods, and $2,795,911 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $6,316,755, against $3,901,319 same week in 1877; and since Jan. have been $88,453,525 against $60,809,396 same time last year.

A restricted business has been reported in Metals which have been quoted about steady as to values. Eglinton Pig Iron quoted at $21; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $33@$37. Old Rails $19@$19 50. Wrought Scrap $21 50@$22. Steel Rails, on the basis of $42@$44. (with further sales reported of 6,000 tons, mainly for Western delivery). Ingot Copper dull on the basis of 17 for early delivery.

A livelier movement has been reported in the leading kinds of Domestic produce, chiefly in Breadstuffs and Provisions at generally stronger, though irregular prices. The export call has been in more animation especially for prime to choice wheat (Spring and Winter). Cotton has attracted less attention from other than home trade sources, and has been again quoted weaker. Naval Stores have been in moderate demand at unaltered figures. Petroleum has been held more firmly, but not active. Foreign merchandise has been in generally moderate request, with the advantage as to prices quoted in favor of purchasers.

In the line of Ocean freights, a much more active business has been reported at generally stronger rates. The demand has been mainly from the Grain and Provisions interests. Liverpool steamer rates at the close for Grain, quoted at 8@8½d. Flour, at 3s. Provisions, 30s.@35s.; Leather, 50s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ½d. per lb. Liverpool, by sail. Cotton, 7-32d. Grain at 7½@8d.; Flour, 2s. 3d.; Measurement Goods, 15s.@17s. 6d. Tobacco 30s.; Oil Cake at 18s. 3d.@20s. Grain rates on charter hence for Cork and orders left off at 6s.@ 6s. 3d.; for the Continent Grain at 5s. 3d.@6s. and from Baltimore for Cork and orders, 6s. and from Philadelphia at 6s.; and from Portland at 6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 47s. 6d. @55s. Refined Petroleum hence for Cork and orders, 4s. @4s. 6d.; for the Continent, 3s.@3s. 6d, for the Baltic at 4s.@4s. 4½d, and Java at 32@35ct. and Japan, 45@50cts. and for French ports (crude) at 3s. 9d.@4s. Gibraltar and orders at 4s. 6d.@5s. 6d.; Cotton by sail from New Orleans to Liverpool 13-32@7-16d.; from Galveston, at 15-32d.; Ky. Tobacco from New York to Spain at 32s. 6d.@35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s, and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s.@5s. 6d.@6s. Lumber from Savannah or Brunswick to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 63s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool held at the close at 58ct. per 100lbs.

☞ The earnings of the Chicago, Milwaukee and St. Paul Railway for the fourth week of March, 1878, were $219,000, against $163,783 for the fourth week of March, 1877, an increase of $55,217. For the month of March, 1878, the earnings were $668,000; for the month of March, 1877, $468,510—increase $194,490. From January 1 to March 31, 1878, the earnings were $2,036,464, against $1,248,005 for the first three months of 1877—an increase of $788,459.

OFFICE OF THE PLUMAS NATIONAL QUARTZ MINING COMPANY OF CALIFORNIA,
54 Broad Street, New York, April 1, 1878.

A DIVIDEND of EIGHT (8) CENTS per SHARE on the capital stock of this company has this day been declared for the month of March, payable in GOLD COIN on and after the 10th inst., at the office of the Transfer Secretary, No. 77 Cedar street, New York, room 15.

Transfer books will be closed on the 5th and reopen on the 12th inst.

By order of the Board,

A. P. MARSHALL, Transfer Secretary.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,
JOHN P. JOHNSON,
JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

Chicago, Burlington and Quincy Railroad.

The gross earnings of the Chicago, Burlington and Quincy Railroad for the month of February, 1878, were $911,150 36, the expenses $569,454 56, and the net earnings $341,695 80. For the month of February, 1877, the earnings were $871,768 46, the expenses $538 176 78, and the net earnings $333,591 68—showing an increase in earnings of $39,881 90, in expenses of $31,277 78, and in net earnings of $8,104 12. From January 1 to February 28, 1878, the earnings were $1,956,617 80, the expenses $1,135,254 79, and the net earnings $821,362 41; for the corresponding period of 1877 the earnings were $1,748,603 11, the expenses $1,111,585 86, and the net earnings $637,067 25—showing an increase in earnings of $208,014 19, in expenses of $23,718 93, and the net earnings of $184,295 26.

☞ The Receiver, John King, Jr., of the Marietta and Cincinnati Railroad, gives notice that by order of the Court of Ross County, Ohio, he will pay the interest coupons due August 1, 1877, and all outstanding coupons due at previous dates of the first mortgage bonds of the said railroad, at his office, Camden Station, Baltimore, on the 30th of April, instant. The holders may reserve any claim for interest on these coupons, after maturity, though surrendering the coupons to the receiver.

☞ The gross earnings of the Kansas Pacific Railway for February, 1878, were $172,995 06, the expenses $138,962 79, and the net earnings $34,032 27. From November 21, 1876, to February 28, 1878 the earnings were $4,060,287 40, the expenses $2,415,180 33, and the net earnings $1,645,107 07.

☞ The Utah Northern Railroad was sold at auction, at Salt Lake City, on the 3d inst., to S. H. H. Clarke, Superintendent of the Union Pacific Railroad, for $100,000.

United States Treasury.

The following is a comparison of the condition of the Treasury April 1, 1877, and April 1, 1878:

Balances.	1877.	1878.
Currency	$8,184,863 58	$751,951 35
Special fund for the redemption of fractional currency	....	10,000,000 00
Special deposit of legal tenders for redemption of certificates of deposit.....	35.155,000 00	25 215,000 00
Coin	86,818,285 26	138,357,608 14
Coin certificates	48,279,400 00	57,883,400 00
Coin, less coin certificates ..	38,538,885 26	80,474,208 14
Outstand'g called bonds....	5,262,900 00	7,305,200 00
Outstand'g coin liabilities....	6,786,028 00	4,643,276 28
Outstanding legal tenders..	362,656,204 00	347,348,712 00
Outst'nd'g fractional currency	23,440,512 08	16,950,115 62
Outstanding silver coin	29,937,001 43	38,662,487 02
Total debt, less cash in Treasury	2,074,674,126 63	2,039,723,514 31
Reduct'n of debt for March...	14,107,016 41	2,313,612 77
Reduct'n of debt since July 1.	24,765,218 36	20,434,708 95
Market value of gold	105.00	101.25
Imports (twelve months ending Feb. 28 .	420,199,831 00	475,638,634 00
Exports (twelve months ending Feb. 28).	603,631,538 00	637,757,822 00

The reduction of the debt for March and since July 1, 1877, includes $9,558,600 Geneva Award bonds canceled.

Columbus and Northwestern Railway.

This enterprise is quietly but surely moving forward as fast as circumstances allow. The line has been surveyed from the junction of the Big and Little Monday creek (Craft's iron works), in Hocking county, to the Muskingum Valley railroad, near Berne station. Two lines have been run from Columbus to Urbana, and the line from Mechanicsburg east, across Madison county, located. The surveys have also been made across Shelby county, and work will probably be commenced in these counties (Madison and Shelby) during next month. Mr. Williams, Chief Engineer, has just returned from Ft. Wayne, Indiana, having passed over the entire route. Through Mercer and a part of Van Wert counties a road bed was graded and made ready for the ties a few years since, and the Columbus and Northwestern company have secured this, together with the right of way. Mr. Williams found it in good condition, and reports that a very small outlay will place it in a condition for the ties.

At Celina, Shanesville, Willshire and Decatur, Indiana, the people are enthusiastic, and at Fort Wayne the organization of the Indiana division of the road is in the hands of Messrs. McCullough, Williams, Morgan, and others, which gives assurance that that end of the line will be cared for.

From Berne station on the Muskingum Valley railroad, two routes have been examined to this city—one via Lancaster, and one east of Lancaster, running near Basil. A survey has been ordered by the Executive committee of the road to determine which is the shortest and best route, and as soon as this is determined we learn it is the intention of the company to put the road from here to the coal fields under contract.—*Columbus (Ohio) Jour.*

Watered Capital Stock.

A committee appointed by the Connecticut Legislature to investigate the stock of the railroad companies there and discover to what extent it has been "watered," have made a report, in which they say:

"Your committee find that the following named companies have issued so-called watered capital stock, for which no equivalent was paid in money by the stockholders, to the following amounts, to wit:

	Paid Cap'l.	Watered.
Danbury & Norwalk Co., 1870	$338,417	$261,588
Shore Line Railway Co., 1870	740,971	259,029
Naugatuck Railroad Co., 1868	1,227,375	594,525
N. Haven & Nor'ton Co., 1874	1,912,000	584,000
N. York & N. Haven Co., 1870	5,047,375	952,625
Hartford & N. Haven Co., 1870	3,482,900	1,517,100
Total....	$12,749,088	$4,129,862

"The committee find that the issue of this watered capital was concealed and covered up by reporting it first as 'paid in,' and afterward as 'actually paid in,' and by a revaluation of the roads and other corporate property."

The committee do not find any law expressly authorizing a railroad company to issue capital stock, except for "a bona fide investment of actual value," except under some general clauses of their charters authorizing an increase of capital "in such form and manner" as the stockholders may direct. Under these general provisions the watered stock was issued.

American Steamship Co.

At the seventh annual meeting of the American Steamship Company of Philadelphia, held on the 1st inst., Mr. Christian J. Hoffman presiding, Mr. Robert W. Smith, the Secretary, read the annual report, which showed that during the past year the four steamships of the company accomplished 34 round voyages. The gross receipts were $987,672, the operating expenses $780,689, and the net receipts $156,983. This was reduced to $14,283 by agency, office and terminal expenses, advertising, &c., which sum was devoted to the payment of the $90,875 interest on the company's mortgage debt, leaving a deficiency on the year's business of $76 092. The gross income for 1877 was $127,871 less than for 1876.

The report concluded by stating that in the spring of the past year the steamers were docked and thoroughly overhauled, including painting inside and out, upholstering of saloons and state rooms, and full sets of new propeller blades placed on three of them, at a cost of over $40,000. This item, as well as the cost of ordinary repairs on every voyage necessary to keep them at all times in thorough order and efficiency, is included in the ordinary operating expenses. The regularity of the arrivals and departures of the steamers and the satisfactory time of their passages has continued.

Mr. John C. Darrah offered the following, which was unanimously adopted:

Resolved, That the report of the Board of Directors for the year 1877 with the general account of the Treasurer, be, and the same is hereby, accepted and approved, and that it be referred to the incoming Board for publication for the use of the stockholders.

The following were elected as the officers of the company for the ensuing year:

Directors—Henry D. Welsh, President; Josiah Bacon, B. H. Bartel, John Price Wetherill, D. B. Cummins, N. Parker Shortridge, Strickland Kneass, William D. Winsor, G. B. Roberts, George N. Allen; Henry C. Butcher.

The Telegraph as an Aid to Commerce.

The following decision was rendered in the United States Supreme Court at Washington on the 25th ult:

No. 128, Pensacola Telegraph Company vs. Western Union Telegraph Company; appeal from the Circuit Court for the northern district of Florida. This is the contest between the Western Union Company and the Pensacola Company under the law of the State granting exclusive telegraph privileges to the latter company. The court holds that the business of telegraphing falls within the provision of the constitution giving to Congress the right to regulate commerce; that the telegraph has become indispensable to the business of the world, both as to private persons and governments, and that it cannot be thus limited or restricted by State law. The law in question is an attempt to regulate commerce on the part of the State, and as such, is clearly incompetent, since the action of Congress on the subject, by the act of July 24, 1866, with which it is in conflict, Affirmed. The Chief Justice delivered the opinion. Dissenting, Justices Field and Hunt.

Rutland Marble Co.

The $300,000 Rutland Marble Company's Seven per cent gold bonds have been added to the free list at the New York Stock Exchange. They are dated March 1, 1878, due March 1, 1898, interest payable March 1 and Sept. 1, Nos. 1 to 250, each $1,000, green, Nos. 251 to 850, each $500, blue. The capital stock is $1,000,000. The property is valued at $1,320,250, in addition to which they have assets $374,294. The new bonds are to provide for the floating debt and maturing obligations of the company. After they are issued the company's indebtedness will be as follows: Five annual notes of $53,875 each, maturing April 1, 1879, to April 1, 1883, $269,375; the bonds, $300,000; mortgage, $24,000; total $593,375.

Lubricant Tester.

The latest production from the Philadelphia Scale and Testing Machine Works of Riehle Bros. is a Lubricant Tester. It is an ingenious machine. Oils can be tested with a certainty not to be doubted. The pressure on journals of different sizes is weighed on one beam (graduated like an ordinary scale beam) when the friction is weighed on another. The number of revolutions is given by a counter and a thermometer showing heat of journal, thus the co-efficient of friction is given perfectly. It is said to be a great success.

☞ At the annual meeting of the stockholders of the Chicago, Burlington and Quincy Railroad Company, held in Chicago on the 27th ult., the following gentlemen were elected directors: J. M. Forbes, Sidney Bartlett, C. J. Paine and T. J. Coolidge, Boston; Peter Geddes, New York; J. N. A. Griswold, Newport; J. L. Gardner, Jr., New York (the latter in place of W. J. Rotch, of New Bedford); E. Cunningham, of Boston (in place of John N. Denison, of Boston); C. E. Perkins, of Burlington, Iowa; Robert Harris and J. M. Walker, of Chicago.

☞ John Allen has been appointed, by the Peoria Circuit Court, Receiver of the Peoria, Pekin and Jacksonville Railroad.

East Line and Red River Railroad.

The Texas Iron Age, Railway Guide and Land Journal, published at Austin, says that the directors of the East Line and Red River Railroad have contracted to build twenty miles more of road at once, which will take it to within twenty miles of Sulphur Springs, and make its entire length seventy miles, and then adds:

These twenty miles will be completed by the first of July. Work on this road was commenced on the 7th of June, 1876, and now inside of two years and two months seventy miles of road will be completed, and all of this through the energy and enterprise of the people of Jefferson and the stockholders of the road. This road is destined to be one of the most popular and best paying in the State. When it reaches Sulphur Springs it will strike the great wheat producing region and from there on will pass through one of the richest sections of the State. It can't fail to be a paying and popular road.

Public Debt of the United States.

By reference to the monthly report of the public debt for March, published on another page, it will be seen that the debt was decreased during the month $2,313,614 77. The total principal of the debt now outstanding is $2,191,757,200 38, on which there is due and unpaid of interest $22,290,773 42, giving a total of principal and interest of $2,214,047,973 80. There was at the same time cash in the Treasury, of coin, $138,357,608 14, of currency $751,851 35, currency held for redemption of fractional currency, $10,000,000, exclusive of $25,215,000 of special deposits for redemption of certificates, making the total of cash in the Treasury $174,324,459 49, reducing the debt, less cash in the Treasury on March 1, 1878, to $2,042,937,129 08, debt less cash in the Treasury on April 1, 1878, $2,039,723,514 31, showing a decrease during the past month of $2,313,614 77. Decrease of debt since June 30, 1877, $20,434,708 95. Bonds issued to Pacific Railroad Companies, interest payable in lawful money, principal outstanding, $64,623,512; interest accrued and not yet paid, $969,852 68; interest paid by United States, $37,896,334 50; interest repaid by transportation of mails, etc., $9,159,143 87; balance of interest paid by United States, $28,737,190 63. The payments made from the Treasury by warrants during the month were: on account of civil and miscellaneous, $3,021,186 11; War, $1,743,258 03; Navy, $1,180,771 56; Interior (Indians and Pensions), $5,099,172 68; total, $11,044,388 88. The above does not include payments made on account of the interest or principal of the public debt of the United States.

New System of Operating R. R. Switches.

The Baltimore and Potomac Railroad Company yesterday put into operation at Fulton Junction, Toncey and Buchanan's system of interlocking signals and switches, by which the switches are operated by a person stationed in a tower some two or three hundred yards off, and at the same time displays a signal to prevent a collision of trains which may be coming either way. For instance, when a train is coming down the Western Maryland Railroad, intending to cross over to the right-hand track going through the tunnel, the operator changes the switch for the coming train, and by the movement of the same lever displays a red signal on the Potomac road about a quarter of a mile from the mouth of the tunnel, and also near the mouth of the tunnel displays another red signal to prevent a train which may be coming through from a collision with the train which is crossing the tracks on the switch. The position of the switches is indicated by the arms on the signal post. When the arm is horizontal or stands at right angles with the signal post it means "stop;" when the arm droops or stands at an angle of forty-five degrees with the signal post it means the switch is set right for the approaching train. These signals indicate only the position of the switches, and are not to be confounded with the block signal on the tower, which indicates whether the tunnel is clear or blocked. By this system it is claimed that it is impossible for an accident to occur while the trains are using the switches.—*Balt. Sun, Apl.* 1.

Baltimore and Delta Railway.

Colonel Dandridge, Chief Engineer, states that he has reached the Big Gunpowder now with his preliminary survey from Belair to Towsontown. He reports the line especially favorable through lower Long Green and Summerfield valleys. Upon reaching the Gunpowder, from which point to Towsontown the line of the road is well known, he will return with his party to Belair to proceed with his preliminary survey from there to Delta. The road four or five miles east of Towsontown passes in full view of the city water-works dam on the Gunpowder, and only one-fourth of a mile from it.

Baltimore and Ohio Railroad.

Passenger fares over the Main Stem of the Baltimore and Ohio Railroad have been largely reduced to Martinsburg, West Virginia, and intermediate points and over the Washington County Branch railroad. The new rates are made on a basis of about three cents a mile. It is contemplated, as soon as the necessary arrangements can be made, to extend the reduction to other points along the Main Stem. The reduction was decided on by the officers of the road immediately after the recent settlement of matters in controversy with the State. The new arrangement was considered to justify the reduction, and it was ordered without solicitation of parties along the line of the railroad.

Syracuse, Binghamton and New York R. R.

The Governing Committee of the New York Stock Exchange, on recommendation of the Committee on Stock List, have admitted to the regular list the First Consolidated Mortgage Seven per cent bonds of the Syracuse, Binghamton and New York Railroad Co., guaranteed principal and interest by the Delaware, Lackawanna and Western Railroad Company. Of the $2,500,000 authorized, $1,750,000 have been issued, $250,000 reserved for payment of second mortgage bonds outstanding, and $480,000 reserved for permanent improvements only. The bonds are dated Oct. 2, 1876, due Oct. 1, 1906, numbered from 1 to 1,750, interest payable April 1 and Oct. 1. The road is 81 miles long. The capital stock is $2,004,000 and the bonded debt $2,119,525.

☞ At the annual meeting of the Chicago and Alton Railroad Company, held in Chicago on the 1st inst., John F. Slater of Norwich, Conn., John A. Stewart of New York, and George Strant of Peoria, Ills., were elected directors. As now constituted the board of directors is as follows: John Crerar, Lorenzo Blackstone, John J. Mitchell—term of service expires first Monday in April, 1879; T. B. Blackstone, John B. Drake, D. Willis James—term of service expires first Monday in April, 1880; John F. Slater, John A. Stewart, George Strant—term of service expires first Monday in April, 1881.

Chicago, Milwaukee and St. Paul Railway.

The earnings of the Chicago, Milwaukee and St. Paul Railway from January 1 to March 21, 1878, (a period of two months and three weeks) were $1,817,464, against $1,084,222 for the corresponding period of 1877, an increase of $733,242, or 67.62 per cent, viz:

	1877.	1878.	Increase.
From freight.....	$716,099	$1,312,173	$596,074
" passenger..	268,885	360,093	91,208
" mail & express	99,238	145,198	45,960
Totals	$1,084,222	$1,817,464	$733,242

The business of the road, therefore, for the expired portion of 1878 shows a total increase of two-thirds over that of 1877; while, of the separate sources of revenue, freight shows an increase of more than four-fifths, the passenger traffic one-third, and the mail and express a gain of nearly one-half.

☞ The Central Railroad Company of New Jersey, in its report to the New Jersey State Controller for 1877, gives the capital of the road at $20,600,000, funded debt $24,700,000, other indebtedness $6,331,115, a total of $51,631,115. The cost of the road, branches, stations and equipment is given at $20,083,711. During 1877 the gross receipts were $3,720,105, the expenses $2,171,037, and the net earnings $1,549,157.

☞ Charles R. Colwell has been elected President of the Philadelphia and Atlantic City Narrow Gauge Railway Co. The directors are: Charles R. Colwell, Samuel Richards, W. Dwight Bell, J. M. Hall, William Massey, J. E. Shaw, Jos. Lapsley Wilson, Thomas C. Garrett, L. C. Albertson, J. J. Gardner, J. G. Campbell, M. R. Morse, S. H. Grey. Treasurer, J. H. Burrell, Jr.

☞ At Utica, N. Y., on the 27th ult., in the case of the New York Central Railroad against John M. Bailey, ex United States Collector at Albany, the jury rendered a verdict of $199,432 68 for the railroad. The court granted a stay of proceedings for sixty days to enable the defendant to prepare a bill of exceptions.

☞ Henry M. Benedict, of this city, late President of the Gold Exchange Bank, and Simon B. Armour, of the firm of Armour, Plankinton & Co., of Kansas City, Mo., have been elected directors of the Hannibal and St. Joseph Railroad Company.

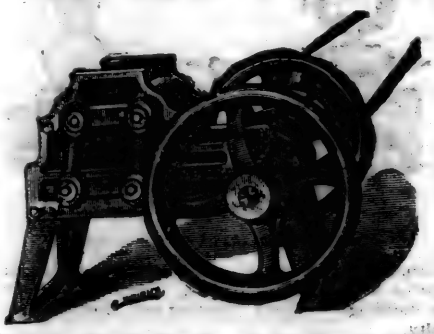
☞ The Plumas National Quartz Mining Company has declared a dividend of 8 cents gold per share, payable on the 10th inst. at the company's transfer office, 77 Cedar street. The transfers will close on the 5th and reopen on the 12th inst.

☞ An examination of the subscription books of the Ohio River Railway, revealed the fact that $775,650 had been subscribed—a sufficient amount to justify an organization.

☞ At Peoria, Ills., on the 1st inst., the Peoria, Pekin and Jacksonville Railway was placed in the hands of John Allen, receiver, by order of Judge Cochrane.

☞ The grading on the Columbus and Gallipolis Railroad between Vinton and Gallipolis, has been completed.

Columbus and Gallipolis Railroad.



The Gallipolis Journal says that negotiations have been completed for a change in the line of the Columbus and Gallipolis Railway, by means of which a connection will be made with the Columbus and Hocking Valley Railroad at Logan.

☞ At the instance of the Commissioners of Arapahoe County, Colorado, Judge Hallett, of the United States Court, has appointed D. M. Edgarton and G. W. Clayton receivers of the Denver Pacific Railway.

☞ The Dayton and Southeastern (Ohio) Railroad Company have decided to commence as soon as possible the construction of the road from Musselman to Chillicothe.

☞ The land sales of the Atchison, Topeka and Santa Fe Railroad for March, 1878, were $125,956 51; corresponding month in 1877, $27,050 07—increase for 1878, $98,906 44.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending the 23d ultimo, the total anthracite production, as reported by the several carrying companies, amounted to 128,876 tons, against 292,186 tons in corresponding week last year, a decrease of 163,310 tons. The total amount of anthracite mined for the coal year is 2,472,832 tons, against 3,018,130 tons for same period last year, a decrease of 545,298 tons. The quantity of bituminous coal sent to market for the week amounted to 28,199 tons, against 43,588 tons in corresponding week last year, a decrease of 15,389 tons. The total amount of bituminous mined for the year is 388,406 tons, against 574,883 tons for corresponding period last year, a decrease of 190,477 tons. The total tonnage of all kinds of coal for the week is 157,075 tons, against 335,774 tons in corresponding week last year, a decrease of 178,699 tons. The total tonnage of all kinds of coal for the coal year is 2,857,288 tons, against 3,593,013 to same date last year, a decrease of 735,775 tons. The receipts at Perth Amboy for the week ending on the 23d ultimo were 4,863 tons, the shipments 6,753 tons, leaving a stock on hand of 88,298 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of March was 84,636 tons, of which 64,055 tons were coal, and 20,581 tons coke. The total carried for the year is 941,924 tons, of which 731,747 tons were coal and 210,177 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, April* 1.

Pittsburg Southern Railway.

The Pittsburg Chronicle says that at a meeting of the Pittsburg, Castle Shannon and Washington Narrow Gauge Railway Company, held in that city on the 2d inst., the name of the compa y was changed to that of the Pittsburg Southern Railway Co., and then adds:

It will be remembered that some time since a proposition was made to the Little Saw Mill Run Railway Company to put down a third rail on their road, by which means the narrow gauge road would be able to reach the city without being compelled to construct an expensive tunnel. The proposition was accepted by the Economites, the owners of the Little Saw Mill Run Company, and at the meeting to-day the name was changed to the Pittsburg Southern Railway Company. It was also resolved to proceed at once to the construction of the track between Castle Shannon and Banksville, and when it is completed the road will have direct connections with Pittsburg, avoiding both the incline plane and the tunnel. It is expected that the company will also obtain the right of way over the Point bridge in order to reach this side of the river. The distance between this city and Castle Shannon will be three miles less than by the old road.

Manchester and Keene Railroad.

The contract for the construction of the Manchester and Keene Railroad, between Hancock and Keene, N. H., has been let to John H. Dame of Waltham, Mass., and Geo. Bounallie of Lewiston, Me. Mr. Dame is the former contractor, having built the road from Greenfield to Hancock, which is all completed with the exception of ballasting. This is to be done at once. Trains will run to Hancock by May 1. The distance from Hancock to Keene is 20 miles. The cost of building the road between the two places is about $700,000. Contractors Dame and Bounallie are commencing the work at the Keene end; the rest is to be sub-let at once. The road is to be finished the entire length on or before Dec. 1, 1878.

☞ The directors of the Second Avenue Railroad Company, elected on the 1st inst., are: Adolphus Hamilton, David Jones, Waldo Hutchins, Joseph Richardson, Solomon Mehrbach, J. Humfreville, Thomas J. McCahill, Peter Schneider, William S. Thorn and J. B. Fellows.

New York, Saturday, April 13, 1878.

Rapid Transit in Brooklyn.

An adjourned meeting of the Board of Rapid Transit Commissioners was held in Brooklyn on the 5th inst., Mr. Felix Campbell, President, in the chair. The other four Commissioners, Messrs. John Y. Cuyler, N. H. Clement, C. P. Lowery and Julius W. Adams, were present.

Mr. Clement handed in certified copies of the oaths of office, the bonds, the petition and the certificates under which the Commissioners were acting, all of which papers were ordered on file.

A general conversation ensued as to the best means of drawing attention to the fact that the commission is now ready to entertain the views of the public as to the best course of procedure for the construction of a steam railway from the ferries to the boundaries of the city of Brooklyn.

Mr. Cuyler said he supposed that the persons who had signed the petition had some plans which they were prepared to lay before the commission and to suggest a route,

President Campbell suggested the following resolution which, on motion of Mr. Clement, was adopted:

Resolved, That this commission hereby determine that there is necessity for the construction of a steam railway or steam railways in the City of Brooklyn for the transmission of passengers, mails, and freight.

During a discussion upon the multiplicity of plans, patents and schemes which it was suggested would be presented before the commission, the President remarked that there was no fear of any plan being offered for the construction of either an underground or a surface railway. He said the rapidity with which the elevated system grew in popularity in New York was astonishing.

The following resolution, presented by Mr. Cuyler, was also adopted:

Resolved, That the Board of Commissioners of Rapid Transit for the City of Brooklyn, being duly organized, is now ready to receive applications and propositions from capitalists and others interested in rapid transit. All matters relating thereto are to be submitted in writing to said Board of Commissioners on or before April 18th.

The meeting then adjourned, subject to the call of the president and secretary.

Camden and Atlantic Railroad.

Mr. T. F. Wurts, consulting engineer, who has just returned from a five weeks' trip spent in the examination of a number of railroad lines in the West, expressed his satisfaction in again riding over our own road, and has said to us that he knows of no railroad more perfect in its management, both for the interest of its owners and convenience of its patrons, than the Camden and Atlantic. He states that the average travel on all the railroads within his knowledge is much less—and on no one railroad is greater than on this favorite line. He says its former passenger tariff was considerably below the average rates of other roads, and its present rates are far lower than any other known line of equal accommodations. No inconvenience is experienced or dissatisfaction expressed by its travelers. The journey over its route from Philadelphia to Atlantic City, being free from the usual discomfort of railway travel, is simply a pleasure trip. Defective tracks and weak bridges are too frequent on many reputed first-class roads, but here all is substantial and as absolutely safe as the best railway practice can make it. All trains are run on such exact time that one can safely set his watch by them. Every detail connected with the runnings of trains, and on which the safety and comfort of passengers depends, shows a wise forethought, resulting in perfect system.

This is not a hasty conclusion but is a conviction resulting from a careful observation of the running of the Camden and Atlantic Railroad for more than a year, compared with a knowledge of the running of railroads in more than one half of the United States. Mr. Wurts classes the Camden and Atlantic with the Pennsylvania Railroad, which, with its solid build, grand equipment, perfect organization, and judicious management leads the railroads of America and probably the world.—*Atlantic Review.*

Columbus and Toledo Railroad.

The Columbus and Toledo Railroad is equipped with 9 locomotives, 10 passenger, 4 baggage, 50 stock, 134 box, 66 flat, 337 coal cars and 6 cabooses. The cost of building the road for 118.3 miles was $3,338,507 54, being $28,244 per mile. The real estate in Toledo and other places along the line is included in this amount. The joint improvement made on the 5½ miles of the Toledo and Woodville railroad cost the company $328,397 65. Grain elevators have been erected at Elmwood, Rednor, Prospect, Fowler, Upper Sandusky and Pemberville. Arrangements for access to these have been made at other places along the line. The report states that the local business of the road is rapidly improving. The net earnings for the past year were $119,000, and the expenses nearly 64 per cent of the gross earnings. Following are the numbers of passengers carried each way during the past year, and also the amount of freight: Passengers carried north, 75,314; south, 75,608; difference in favor of the south, 294. Earnings from passengers north, $58,160 78; south, $56,850 63; difference in favor of north, $1,310 15. The greatest number of passengers traveled south, by 294, and the greatest earnings were from those going north, by $1,310 15. The total distance traveled by passengers was 4,095,555 miles; average distance 27 miles; average rate per mile, 2.8 cents; average amount received per passenger, 76 cents; pounds of freight north, 230,296,804; pounds of freight south, 125,180,871; difference in favor of north, 105,115,933; earnings from freight north, $128,657 16; earnings from freight south, $74,122 56; difference in favor of north, $49,534 60. Total tons of

freight one mile, 19,953,318; average distance each ton of freight was carried, 1.12¼ miles; average rate per ton per mile, 0.99 cents; average amount received for each ton of freight carried, $1 11.

St. Louis and San Francisco Railway.

The following is a comparative statement of the gross earnings, expenses and net earnings for the years ending December 31, 1876 and 1877:

Gross Earnings.	1876.	1877.
From passengers....	$239,257 98	$208,242 57
" freight.....	965,775 03	1,023,909 89
" express	24,196 89	27,024 56
" mail	32,365 08	27,096 47
" rent.....	3,546 00	2,590 75
" miscellaneous.	107,518 40	13,079 52
	$1,372,658 88	$1,323,943 76
Expenses:		
Conducting transp..	$111,899 27	$119,039 43
Motive power.....	154,871 35	148,968 82
Maintenance of way.	308,896 35	213,138 39
Maintenance of cars.	49,231 97	60,049 14
General expenses...	72,712 57	43,621 53
	$697,611 51	$584,816 91
Net earnings....	$675,047 37	$739,126 85

Showing a decrease in gross earnings of $48,715 12, a decrease in expenses of $112,794 60, and an increase in net earnings of $64,079 48. The report says:

As no report has heretofore been made, it is deemed proper to furnish you with a statement of our management of your property, from the date of the organization of this company, on the 7th day of September, 1876, and its general condition.

ORGANIZATION AND CAPITAL STOCK.

The company was organized under chapter 37, Article 7, of Wagner's Statutes of Missouri, with a capital stock of $25,000,000.

The stock is divided into three classes, viz:

Common stock.....	$10,500,000
Preferred stock.....	10,000,000
First preferred stock.....	4,500,000

The railroad of this company extends from the town of Pacific (37 miles west of the city of St. Louis,) in a south westerly direction, to Seneca, on the western boundary line of the State of Missouri, a distance of 293 miles.

It was formerly owned by the South Pacific Railroad Company, which placed a mortgage on the same, to secure a series of six per cent gold bonds, known as the 1st Mortgage Railroad Land Grant Construction Bond of the South Pacific Railroad Company of Missouri, of which there is now outstanding $7,194,500.

On the 26th day of October, 1870, that company sold the said railroad, and certain lands that had been granted to it, to the Atlantic and Pacific Railroad Company, subject to said mortgage, and the last mentioned company placed another mortgage on the same, which constituted a second lien, to secure two classes of bonds of $3,000,000 each. One class was known as Land Mortgage Bonds and the other as Second Mortgage Bonds; each class was secured by an equal lien on the property acquired from the South Pacific Railroad Company, and the Land Mortgage Bonds were additionally secured by a first mortgage on about 504,000 acres of land that had been granted by Congress to the last mentioned company.

There was outstanding at the date of the organization of this company:

$2,418,500 of the land mortgage bonds:
$1,967,000 of the second mortgage bonds;
$559,000 of the income bonds.

The Atlantic and Pacific Railroad Company having suffered a default in the payment of the interest on these bonds, the mortgage to secure the same was foreclosed by a decree of the Circuit Court of the United States for the Eastern District of Missouri, and sold, by virtue of said decree, to Wm. F. Buckley, on the 7th day of September, 1876, and by him conveyed to this company on the 2d doy of November following.

By this purchase, this company became the owner of the valuable franchises of the South Pacific and Atlantic and Pacific Railroad Companies, and about 655 000 acres of land covered by the South Pacific mortgage, and, approximately, 806,000 acres of land known as the Atlantic and Pacific Land Grant.

SCHEME OF ORGANIZATION.

After the organization of this company, it created $5,700,000 of bonds bearing date November 1st, 1876, payable thirty years after date, and secured by a mortgage on all the property and franchises of the company; they are divided into three classes, known as series A, B, and C. There are $500,000 in amount of the A Bonds, $2,800,000 of the B Bonds, and $2,400,000 of the C Bonds. The B Bonds bear interest at six per cent per annum from date, payable semi-annually in gold. The B and C Bonds bear interest from date, payable semi-annually in gold, as follows:

2 years.....	2 per cent.
3 years.....	3 "
1 year	4 "
1 year	5 "
From and after November 1st, 1883...	6 "

The bonds of series "A" were to be used to procure money with which to pay certain certificates of the receivers issued during the pendency of the foreclosure proceedings, liens established by the court, taxes, expenses of organization, etc.

The bonds of series "B" were to be exchanged, dollar for dollar, for the Atlantic and Pacific land mortgage bonds, and the bonds of series "C" for the 2d mortgage bonds of the Atlantic and Pacific Company, and Atlantic and Pacific income bonds, which were issued in funding coupons on the above named road.

Of these bonds there have been issued under the scheme of organization with which you are familiar:

Of series "A," at par, for cash.....	$318,000
" " "B," in exchange, as above..	2,673,500
" " "C," in exchange, as above.	2,271,000
which, together with the issue of the South Pacific bonds of.....	7,194,500
make the total bonded indebtedness of this company.....	$12,452,000

Bearing (at the present rate) an annual interest of $549,340 gold.

There remains in the treasury of the company:

Of "A" bonds.....	$187,000
Of "B" bonds.....	126,500
Of "C" bonds.....	129,000

There have, under such scheme, been exchanged:

Of common stock for the common stock of the Atlantic and Pacific Company, in shares of $100 each.....	$7,719,200
Of preferred stock for the preferred stock of the Atlantic and Pacific company	3,507,100
Of 1st preferred stock for bond scrip, blue bonds, and unpaid coupons of the Atlantic and Pacific Railroad Company, and surrendered future interest on series "B" and "C" bonds of this company	3,704,700

And there remains unissued:

Of common stock.....	$2,780,800	
Of preferred stock	492,900	
Of 1st preferrd stock.....	795,300	
		4,069,000
		$25,000,000

The stocks and bonds of the Atlantic and Pacific Railroad Company, thus acquired, are the property of this company.

There are still outstanding and unexchanged:

Land bonds.....	$76,500 00
2d "	22,500 00
Income bonds.....	6,500 00
Blue or scrip bonds.....	3,600 06
Scrip for bonds.....	2,859 84
Preferred stock.....	492 900 00
Common stock.....	641,100 00

There remains due, under the decree of the court, to the holders of the above unexchanged bonds, viz:

On each $1,000 land bond.....		$55 37
On each $1,000 2d mortgage bond		46 15
Making on $76,500 land bond..	$4,251 10	
Making on $22,500 2d mortgage bonds.....	1,038 87	
Total		5,289 47

The following is an exhibit of net cash receipts from all sources, and the disbursements thereof, from date of organization to December 31st, 1877:

Receipts:		
"A" bonds sold.....		$301,882 22
Net earnings.....		951,096 42
Total net cash received.....		$1,252,978 64
Disbursements:		
Coupons, rentals, and miscellaneous		$575,762 45
To Receivers of Atlantic and Pacific.....	$261,160 45	
Redemption Atlantic & Pacific securities held by this company as assets	224,005 50	
		485,165 95
Old South Pacific coupons.....		802 50
		$1,061,730 90
On hand in New York..	$178,477 00	
On hand in St. Louis...	12,770 74	
		191,247 74
		$1,252,978 64

By the above exhibit, it will be seen that this company has expended from its net earnings $184,036 23 on account of obligations prior to its organization, which, it was intended, should have been met by sale of its "A" bonds.

OPERATION OF ROAD.

The receipts from earnings of the road since date of organization have been:

Sept. 6, 1876, to Dec. 31, 1876.....	$507,567 52
For 1877—Jan. 1 to Dec. 31,.....	1,323,943 76
Total.....	$1,831,511 28

The expenses for operation and maintenance for the same periods have been:

Sept. 6, 1876, to Dec. 31, 1876	$190,603 81	
For 1877—Jan. 1 to Dec. 31	584,816 91	
		775,420 72
Net.....		$1,056,090 56

Expended for improvements and extraordinary requirements:

Sept. 6, 1876, to Dec. 31, 1876	$33,769 96	
For 1877—Jan. 1 to Dec. 31	115,816 16	
		149,586 12
Net over all.....		$906,504 44

Since the organization of your company, a large reduction in salaries and wages has been made as show by the following:

Amount of pay-rolls 1876.....	$350,445 94
Amount of pay-rolls 1877	298,455 76
Decrease.....	$51,990 18

To which amount of $51,990 18 should be added the reduction in salaries of general officers, at present rate per annum, of $23,700; total annual saving, $75,690 18.

Of the total capital stock of the Atlantic and Pacific Railroad Company, of 197,608 shares, this company owns 172,264 shares, thus controlling the franchise and property of that company west of the State lines of Missouri and Arkansas to the Bay of San Francisco, Cal.

For the conduct of our business, of $1,823,943 74, during the year 1877, over 828 miles of road, we have been obliged to pay the Missouri Pacific Company the sum of $208,472 98, over 87 miles of road, this company furnishing its own rolling stock. Regarding such amount as excessive, every effort has been made (without avail), with the officers of the latter company, to reduce such payment to a reasonable sum, and, as a final resort, suits have been instituted to determine the amount we should pay as toll under the law.

No doubt is felt but we shall succeed in largely reducing the future payment, and obtain restitution of that already paid in excess.

A business contract has recently been concluded for ten years with the Missouri and Western Railway Company (a matter that has been in abeyance since the organization of this company) upon terms that are equitable, and which must prove advantageous to both companies.

A business contract for ten years has also been concluded with the Springfield and Western Missouri Railroad Company. This enterprise is now in process of construction from Springfield to Lamar, a distance of 60 miles, and its business will add largely to the revenue of this company, as the road will pass through extensive coal and mineral regions.

An agreement has been concluded with the Cherry Valley Railroad Company, which company are now constructing a railroad to reach their iron mines (thought to be the most important in Missouri), located about 12 miles southeast of Cuba, for the transportation of their ore. This road will tend to a restoration if not an increase of our revenue from a source that had become almost obsolete.

* * * * * * * *

There is a growing disposition of the sections of country on either side of our line of road to construct lateral branches from our road which will largely enhance our business. While a disposition should prevail to grant every facility in the fostering of such enterprises, it is deemed imprudent, in our present condition, to incur any liability in connection therewith.

In pursuance of a resolution of the board, proceedings have been instituted for acquirement of right of way between the city of St. Louis at the Union depot and the present initial point of our railroad at Pacific.

Practical surveys hitherto made indicate the probable maximum cost (embracing right of way) of constructing a road between such points at not exceeding $1,000 000.

For future business, if not for the business at present enjoyed, an independent road to St. Louis seems to be a necessity. The local business it would develop would doubtless maintain it, leaving the amount now annually paid the Missouri Pacific Railroad Company of $208,000 applicable to its construction. That independent terminal facilities at St. Louis thus afforded, freed from the surveillance, exactions and discriminations of the Missouri Pacific Company, would afford us an opportunity to seek and obtain a large increase of business with Kansas and Texas not now enjoyed by the company, no one familiar with the subject can doubt.

It is with pleasure that we inform you that your road has earned more than enough to pay all its interest obligations during the past year, and that we are prepared to redeem $50,000 of the South Pacific bonds from money derived from the sale of lands. We recommend that hereafter such funds be applied to such legitimate use as is provided in the deed of trust, and not be diverted to any other purpose.

The business of the road must prove more satisfactory for the year 1878 than for the previous year, because of large reductions in current expenses, and of the large sums paid during that year on liabilities previously created which were assumed by this company.

The road is 327 miles in length, extending from Pacific Mo., (37 miles from St. Louis) to Vinita, Indian Territory; with branch of 4 miles from Beaver to Beaver Valley—making the total length of road owned and operated 331 miles.

The company have 28 locomotives, 8 passenger coaches, 4 mail and smoking, 1 sleeping, 4 baggage, 1 directors', 261 box, 185 ore, 250 stock, 10 flat, 1 pile driving, 1 tank and 4 boarding cars and 17 cabooses.

Miles run by locomotives with passenger trains, 258,108; with freight trains, 546,816; with wood and working trains, 12,151—total, 817,075, against 780,966 in 1876, an increase of 36,109.

Mileage of passenger cars, 416,911; baggage and express cars, 477,286; freight cars, 7,168,379—total, 8,062,526, against 7,436,480 in 1876, an increase of 626,046.

Number of passengers carried eastward, 26,137; do. westward, 29,599—total, 55,736. Passengers carried one mile, 5,065,313. Rate per passenger per mile, 4.54 cents.

Tons of freight carried eastward, 187,198; do. westward, 67,188—total, 254,386. Tons moved one mile 39,824,417. Rate per ton per mile, 2.57 cents.

Earnings per mile of road, $4,048 76, expenses, $1,788 44—net earnings, $2,260 32.

The ratio of operating expenses to earnings in 1877 was 44.17; in 1876, 50.82.

The amount expended for construction and improvement of property was $61,505 44 in 1877; in 1876 it was $61,327 97.

The total expenditures, including operating expenses, construction and improvement, and taxes, were $673,572 76 in 1877, against $792,146 18 in 1876—a decrease of $118,573 62; and the ratio of total expenditures to earnings was in 1877 50.88, against 57.71 in 1876.

The total net earnings, after deducting expenditures as above were $650,371 20 in 1877, against $580,512 70 in 1876—showing an increase in net earnings of $69,858 50, notwithstanding the apparent decrease of $48,715 12 in gross earnings.

STATMENT OF INCOME ACCOUNT from Organization of Company, September 7, 1876, to December 31, 1877.

Earnings, viz:		
Freight		$1,391,177 68

President.—JAMES BAKER.

Directors.—James Baker, St. Louis; Joseph Seligman, Thomas T. Buckley, George F. Stone, William F. Buckley, J. P. Robinson, Calvin Littlefield, New York; Cornelius J. Bergen, Brooklyn; W. H. Coffin, W. D. Griswold, St. Louis; Francis B. Hayes, Uriel Crocker, George S. Curtis, Boston.

Secretary & Treasurer.—WILLIAM F. BUCKLEY.

General Superintendent.—C. W. ROGERS.

Auditor.—JAMES HANNA.

Freight and Passenger Agent.—D. WISHART.

Land Commissioner.—W. H. COFFIN.

☞ The first train ran over the new branch of the Manhattan Beach Railroad from the foot of Quay street, Greenpoint, to East New York on the 9th inst. The company now has two lines, one running from Bay Ridge to Manhattan Beach and another from Greenpoint by way of East New York to the same point. The length of the line from Greenpoint to East New York is six miles. A double track will be completed by the 1st of June, and a ferry will be established between New York and the depot at Greenpoint.

☞ The track of the Springfield, Jackson and Pomeroy Narrow Gauge Railway has been laid to Greenfield. There are now 81 miles of track complete. It is expected that an excursion train will be run from Springfield to Jackson on the 4th of of July next.

☞ The Bell's Gap Railroad will be extended from Lloydsville to Fallen Timber, Cambria County, Penn., during the coming summer. By this extension a large coal field will be opened to traffic.

Philadelphia and Reading Railroad.

In addition to extracts from the Report of the Managers given in previous issues of the JOURNAL, we give below several important tables referring to the last and previous years—including the "General Account," and the "Transportation and Income Account." Also, a statement of the cost, earnings, dividends, etc., since the completion of the road in 1842-'43:

	1876.	1877.	1876.	1877.	1876.	1877.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

Foreign Trade of the United States.

The figures of our foreign trade during the month of February form one of the most extraordinary statements ever issued by the Bureau of Statistics. The domestic exports, at gold valuation, reached the enormous value of $65,071,646, which is at the rate of $2,324,000 a day, or more than 848 millions a year. The amount now reported is, with one exception, the largest ever declared in a single month in the history of our commerce. In December, 1876, it was 71¼ millions, with two more week days in the month. In February of this year the imports of merchandise were valued at only $32,708,460, which was less than half the value of the exports. In eight months the excess of exports over imports has been more than 169 million dollars, an increase of 12⅛ millions over the corresponding amount last year, although the imports have, in the meantime, increased almost 25 millions.

Statement of the Public Debt of the United States, April 1, 1878.

DEBT BEARING COIN INTEREST.

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$388,276 80
Kansas Pacific bonds, 1862-64	6,303,000 00	94,545 00
Union Pacific bonds, 1862-64	27,236,512 00	408,547 68
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	24,000 00
Western Pacific bonds, 1862-4	1,970,560 00	29,558 40
Sioux City and Pacific bonds, 1862-64	1,628,320 00	24,424 80
Totals	$64,623,512 00	$969,352 68

Interest paid by United States, $37,896,284 50; interest repaid by transportation of mails, &c., $9,159,143 87; balance of interest paid by United States, $28,737,190 63.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

Erie Railway.

From the report for January of ex-Judge James C. Spencer, the Referee who audits the accounts of Receiver Jewett, of the Erie Railway Company, filed in the County Clerk's office on the 8th inst., it appears that the receipts for the month (including $466,618 70 on hand at its commencement) were $2 969,031 56, and the disbursements $2,519,902 80, leaving the balance of cash on hand Jan. 31 $449,129 26. Among the disbursements were $22,187 50 as interest on coupon bonds, $14,700 70 on account of the coal lands purchased, and $36,000 for locomotives. During the month $505,741 11 of Receiver's certificates of indebtedness were issued, and $709,707 04 of such certificates were paid, showing a decrease of $203,965 93. The aggregate amount of certificates outstanding Jan. 31, 1878, was $1,278,062 93.

☞ Messrs. Clarke, Reeves & Co., of the Phœnixville, (Pa.) Bridge Works have been awarded the contract for a combined bridge and viaduct to cross the Hudson river at Albany. This contract will require about 8000 tons of finished iron and keep the works active for some time. The above firm was also the contractor for 1¼ miles of the Gilbert Elevated Railway, on which they have been at work for the past six months.

American Railroad Journal.

Saturday, April 13, 1878.

Financial and Commercial Affairs.

Very full rates have been the rule in the Money market during the week in the line of call loans, which have been in most urgent request on speculative account. Lenders have been offering accommodation with less freedom, though meeting the wants of favorite customers quite promptly at the current quotations. In the way of discounts a comparatively limited business has been transacted, at about former figures. Of strictly choice grades of paper the offerings have been light for the season. Call loans were quoted here at from 6@7 as the basis of the principal negotiations, and very choice to strictly prime mercantile credits were rated at 5@7½ per cent per annum. The City bank exhibit of last week indicated a reduction in the loan and discount average of $941,800, and an increase in the item of circulation of $32,3 0. The average of deposits was further diminished $5,715,200. The legal tender reserve was cut down $2,788,400; and the specie average $2,146,900. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $12,091,900 against $15,598,400 the preceding week, and $16,808,575 the week ending March 30 (the latter the highest aggregate reached thus far this year). The City bank exchanges in currency reached $441,442,055, or a daily average of $73,572,676.

The outstanding amount of legal tender notes is $347,911,055. The National bank circulation is now $320,988,499 of currency notes and $1,432,120 of national gold bank notes. National Bank

notes received at the Treasury Department last week for redemption were to the amount of $2,036,000.

A fair degree of activity has been reported in Government Securities, chiefly for home investment purposes, at variable prices, though in the instance of the favorite issues, values have been, on the whole, very well supported. The market has been more or less affected by reports and rumors from Washington as to the probable action of the Treasury Department, relative to the further negotiation of refunding loans, with a view to the resumption of specie payments, and the position and outlook of Gold and Foreign Exchange. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107¼@107⅛; do. coupon, 107¼@107⅜; do. 1865, new, registered, 104⅜@104½; do. coupon, 104⅜@104½; do. 1867, registered, 107¼@107⅛; do. coupon, 107¼@107⅜; do. 1868, registered, 109¾@110; do. coupon, 109¾@110; do. ten-forties, registered, 105¼@105⅝; do. coupon, 105¼@105⅜; do. five per cents, 1881, registered, 103⅛@103⅜; do. coupon, 104⅜@104½; do. 4½ per cents, 1891, registered, 102⅞@103; do. coupon, 102⅞@103; do. 4 per cents, 1907, reg., 100⅜@100½; do. coupon, 100⅜@100⅝; do. sixes, currency, 118@118½.

The reported subscriptions to the new four per cent Government loan have been about six millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,015,850, and $13,453,000 as security for public deposits.

The income of the Government from internal revenues last week was about 2¼ millions, making the total since July 1, 1877, about 83¼ millions, as against about 89 millions same time in the preceding fiscal year; and from Customs last week about 2⅜ millions, making the total since July 1, 1877, about 101 millions, against about 102 millions same time in 1876-7.

More inquiry has been reported for the better class of State bonds, values of which have been ruling stronger. Railway Mortgages have been in generally very good request, almost wholly on investment account on a somewhat firmer basis as to prices. And in the line of Railway and Miscellaneous share property business, though of rather less important proportions, has shown considerable animation, and, on the whole, the speculative temper has been quite confident, as reflected in the substantial firmness and buoyancy of the favorites of the general list, though fluctuations have been frequent, and, in instances, quite sharp; influenced, in part, by the growing stringency in the loan and discount line; which has been credited, to some extent, to manipulations of the supply of legal tender notes at this point, by operators for a lower range of Stock Exchange values.

Gold has been weaker in price, and in less confident speculative demand. The customs drain has been very moderate, and the export call much lighter than through the preceding week. The more pacific tenor of the later cable advices was against the speculative movement. The extremes of the price during the week have been 100⅝@101⅛, closing on Wednesday at 100⅝ as against 101⅛ on Wednesday of the preceding week. The specie outflow last week only reached $501,963—making the total exports of specie hence since January 1, $5,047,936 against $3,529,105 the same time in the preceding year. The imports of specie at this port last week were to the amount of $701,992 and since January 1st have been $5,908,317 as against $5,824,887 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,837,560 or an average of $306,260 per day.

Foreign Exchange has been in less request and variable as to price, closing less firmly. Bankers' sixty day bills on London closed on Wednesday at $4 85¾@$4 86⅛; sight bills on London at $4 88⅛@$4 89¼ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $4,416,304 as against $6,252,558 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,472,814 of Dry Goods, and $2,943,490 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $6,496,993, against $5,995,142 same week in 1877; and since Jan. 1 have been $94,950,518 against $65,332,798 same time last year.

The dealings in most kinds of Metals have been to a fair aggregate, with prices generally quoted about steady. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $33@$37, (sales 6,000 tons for western delivery). Old Rails $19@$19 50. Wrought Scrap $21 50@$22. Steel Rails, on the basis of $42@$44. (with further sales reported of 3,500 tons, mainly for Western delivery). Ingot Copper for prompt delivery quiet on the basis of 17⅛@17¼ for early delivery. Recent contracts have been reported covering 4,000 tons for shipment, chiefly to France on the basis of 16 cts.

Less activity has been reported in Domestic produce, with Breadstuffs and Provisions showing less firmness. The export call has been on a restricted scale. Cotton has been in fair request, but has been quoted variable as to values, closing more steadily. Naval Stores have been attracting more attention at about previous figures. Petroleum has been depressed, on a slow movement. Foreign merchandise has been less sought after, and quoted generally weaker in price.

Ocean freights, have been less active, and toward the close quoted generally less firm. Accommodation for Breadstuffs, Provisions and Petroleum most sought after. Liverpool steamer rates at the close for Grain, quoted at 8d. Flour, at 2s. 9d.@3s. Provisions, 30s.@35s; Leather, 45s.@50s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ⅛d. per lb. Liverpool, by sail. Cotton, 7-32d.@¼d. Grain at 7@7d.; Flour, 2s. 3d.; Measurement Goods, 15s.@17s. 6d. Tobacco 30s.; Oil Cake at 18s. 3d.@20s. Grain rates on charter hence for Cork and orders left off at 6s.@6s. 3d.; for the Continent Grain at 5s. 3d.@6s. and from Baltimore for Cork and orders, 6s. 6d.@6s. 9d. and from Philadelphia at 6s.@6s. 6d.; and from Portland at 6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 47s. 6d.@50s. Refined Petroleum hence for Cork and orders, 4s. @4s. 6d.; for the Continent, 3s.@3s. 6d. for the Baltic at 4s.@4s. 6d, and Java at 32@35ct. and Japan, 45@50cts. and for French ports (crude) at 3s. 9d.@4s. Gibraltar and orders at 4s. 6d.@6s. 6d.; Cotton by sail from New Orleans to Liverpool 13-32@7-16d.; from Galveston, at 15-32d.; Ky. Tobacco from New York to Spain at 32s. 6d.@35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s.@5s. 6d.@6s. Lumber from Savannah or Brunswick to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 63s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool quoted at the close at 53@58½ct. per 100lbs.

☞ A dispatch from Portland, Oregon, says "it is asserted on good authority that arrangements have been perfected by which English and German bondholders, who have for some time jointly owned the Oregon and California Railroad, the Oregon Central Railroad, and the Oregon Steamship Company, divide their property. The English bondholders take the Oregon Central Railroad, which they have controlled for some time, and the Oregon Steamship Company, and the German capitalists take the Oregon and California Railroad."

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,
JOHN P. JOHNSON,
JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

☞ The Boston Journal says that Hon. A. M. Shaw, of Lebanon, the constructing agent of the Hillsboro' and Peterboro' Railway, has notified Mr. Robbins of Maine, the contractor, to begin at once the laying of the rails at the Hillsboro' terminus. Work at different places on the line was kept going through the winter. In a few weeks it is probable that track laying will commence on the Peterboro' end of the road. It is intended to have the line completed and connections established with through trains to New York and the South and West in season for the heavy travel of the coming summer.

☞ The Wabash Railroad Company inaugurated, on the 1st inst., a new line of sleeping cars between St. Louis and Boston, for some time contemplated by them. This will be the longest line of through sleeping cars in the world. The first car eastward leaves St. Louis at 6:40 P. M., and westward leaves Boston at 3 P. M. The time between these points will be less than forty three hours.

☞ The interest now due on the first mortgage 6 per cent bonds of the Orange and Alexander Railroad Company will be paid at the office of the Washington City, Virginia Midland and Great Southern Railroad Company, in Alexandria on presentation of the bonds.

☞ In the case in the United States Court at St. Louis of the Union Trust Company against the St. Louis, Iron Mountain and Southern railroad, for foreclosure, the court has granted until June 1 for filing of briefs, &c. Baring Bros., of London, are interested in this suit.

☞ The Baltimore and Ohio Railroad Company have declared a dividend of four per cent, for the half-year ending March 31, 1878, payable in the common capital stock of the company on and after the 15th of May.

☞ The earnings of the Burlington, Cedar Rapids and Northern Railway for the month of March, 1878, were $125,141 18 ; for the same month last year, $73,193 95—increase, $51,947 23.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for the year 1877 were $2,679,106 51, the operating expenses $1,818,285 12, and the net earnings $1,360,821 39.

☞ The California Mining Company and Consolidated Virginia Mining Company have declared dividends of $2 per share, payable April 15

Reminiscences of the First Railroad over the Allegheny Mountain.

A paper, entitled "Reminiscences of the first Railroad over the Allegheny Mountain," was read before the Historical Society of Pennsylvania, on the 8th inst., by Mr. Solomon W. Roberts, C. E.

An event of great importance in the history of Pennsylvania was the undertaking of an extensive system of internal improvements at the expense of the Commonwealth, but the history of this great enterprise, which cost about forty millions of dollars, has never been written. The bright hopes with which the work was begun, the large premiums at which the five per cent. loans of the State were for a time sold, the great revulsion of feeling, and the fall of prices, which caused the loans to sell at one time for about 33 cents on the dollar, the subsequent sale of State works to corporations, and the complete recovery of the State credit, are facts well worthy of remembrance.

The geographical position of Pennsylvania is peculiar and remarkable. Washed on its south-eastern border by the Atlantic tides, it extends on the northwest to the shores of Lake Erie, and includes in Allegheny county the head of the Ohio river. Various lines of internal improvement were proposed in the early history of Pennsylvania, but the rugged topography of much of its territory delayed their execution.

The level character of the country between Albany and Buffalo enabled New York to construct the Erie canal, which was opened for use in October, 1825. This stimulated action on the part of the Legislature of Pennsylvania, and the Pennsylvania Canal was begun on the 4th of July, 1826.

In the year 1827, the writer, (Mr. Roberts), entered the service of the Lehigh Coal and Navigation Company. He is a native of Philadelphia, educated in Friends' Academy. He witnessed the construction of the Mauch Chunk, (gravity) railroad, and of the Lehigh Canal from Mauch Chunk to Easton. When the work on the Lehigh was done, Sylvester Welch was employed by the State as principal engineer of the Western Division of the Pennsylvania Canal, and removed to Blairsville, Indiana county, among the Alleghenies, taking the writer with him. After many discouragements, the canal was opened in December, 1830, from Pittsburgh to Johnstown. About this time there was much discussion as to the best mode of crossing the Allegheny Mountain, so as to form a connection between the canals on its eastern and western sides, and it was first proposed to carry the canal over the mountains, but this was found to be impracticable.

On the 21st of March, 1821, the law was passed authorizing the Board of Canal Commissioners to commence the construction of a "portage" railroad over the Allegheny mountain, and they appointed Sylvester Welch Principal Engineer, and the writer his Assistant. On the 8th of April, (forty seven years ago), explorations were begun near the summit with a party of sixteen persons, the weather being very cold, and the running of of the line commenced. The railroad over the mountains was to connect the western division of the canal, which commenced at Johnstown, with the eastern division of the canal, which terminated at Holidaysburg. The distance from Holidaysburg to Johnstown is about 36 miles, and the summit of Blair's Gap is about 1400 feet above the former and 1200 feet above the latter. The highest elevation of the road as ascertained by recent railroad surveys, was 2322 feet, or 161 feet higher than the highest point on the Pennsylvania Railroad.

The general design adopted for the Portage Railroad was this: The principal part of the elevation was to be overcome by inclined planes, which were to be straight in plan and profile, to be on an average somewhat less than half a mile long, and to have an angle of elevation of about five degrees, so that the average height overcome by each plane might be about 200 feet. These planes were to be worked by stationary steam engines and endless ropes. As ultimately constructed there were ten inclined planes, five on each side of the mountain, with an aggregate elevation of 2007 feet, and their whole length four miles and four-tenths. The sections of railroad between the planes were located with very moderate grades, and the minimum radius of curvature was about 450 feet. On these sections the cars were to be drawn by horses or mules.

There were eleven levels so called, or rather grade lines, and ten inclined planes on the Portage, the whole length of the road being 36.69 miles. The planes were numbered eastwardly from Johnstown, and the ascent from that place to the summit was 1171.58 feet in 27.59 miles, and the descent from the summit to Holidaysburg was 1398.71 feet in 10.10 miles. Almost the only part of the Portage Railroad now in use is the Horse-shoe bend viaduct, used by the Pennsylvania Railroad as a part of its main line. It was built at a cost of about $55,000.

Mr. Roberts gave many details of the work of construction and incidents attending the operations. The road was graded for a double track, and all the culverts and bridges were built of stone. The writer had the western half under his charge, while W. Milnor Roberts had charge of the eastern. The first track and turnouts were laid in April, 1832, but the second track was not completed until 1835. The rails used on both tracks were imported from England, and had to be hauled up the Alleghenies by horse power, a slow and laborious process. In locating the line, our levelling instruments were good, but the instruments for running curves were poor, and the work was mainly done by a surveyor's compass. At that time the importance of straightness on a road was not appreciated.

At the staple bend of the Conemaugh river, four miles from Johnstown, a tunnel was made through a spur of the mountain, near which the stream makes a bend of nearly two and a half miles. The length of the tunnel was 901 feet, and it was 20 feet wide and 19 feet high within the arch. The cost was $37,500. The road was intended as a great, durable highway, and with this view, stone sills were used instead of wooden tiles. Yet it had to be superseded in twenty years.

On the 26th of November, 1833, about two years and a-half from the beginning of the work, the first car passed over the road, carrying a committee from Philadelphia representing the Board of Trade, who were returning from Ohio. On the 18th of March, 1834, when canal navigation opened, the Portage Railroad was opened for public use as a public highway, the State furnishing the motive power on the inclined planes only. The experiment of making the road a public highway was very unsatisfactory. Individuals and firms employed their own drivers with their own horses and cars. The cars were small, had four wheels, and each would carry about seven thousand pounds of freight. Usually four cars made a train, and that number could be taken up, and as many let down an inclined plane at one time, and from six to ten such trips could be made in an hour. The drivers were a rough class, and as it was not practicable to make them work by a time table, the consequence was that there was much confusion when there was only one track through the drivers meeting each other at points where there were no turnouts.

The matter finally became so bad that, after much opposition, the Legislature passed an act allowing locomotives to be used on the road, and the first one used was the Boston, constructed in the city of that name, before the days of heavy locomotives to climb steep grades. The number of locomotives was gradually increased, and in 1834 Mr. M. W. Baldwin, of Philadelphia, built three. The business of the road in 1835 amounted to 50,000 tons of freight and 20,000 passengers. The cost of the road at the close of the year 1835 was $1,634,857 69 at the contract prices.

The Pennsylvania Railroad was organized in 1847, and in September, 1850, opened for travel from Harrisburg to a point of connection with the Portage Railroad at Duncansville. In 1854 the Company ceased to make use of the State road, as they had constructed a summit tunnel and did not use inclined planes. After a protracted negotiation the State sold its line to the Company, and in August, 1857, the Government transferred the main line of canals and the Portage Railroad to the Pennsylvania Railroad Company. Shortly thereafter the Portage went out of use.

In 1838 was published in London a book called a "Sketch of the Civil Engineering of North America," by David Stephenson, a son of the distinguished engineer of the Bell Rock lighthouse. He says that America "now numbers, among its many wonderful artificial lines of communication, a mountain railway, which in boldness of design and difficulty of execution I can compare to no modern works I have ever seen, excepting perhaps, the passes of the Simplon, and Mount Cenis in Sardinia; but even these remarkable passes, viewed as engineering works, did not strike me as being more wonderful than the Allegheny Railway in the United States."

Michael Chevalier, the distinguished French engineer and political economist, visited the railroad and gave a description of it in his book on the public works of the United States, which was published in Paris in 1840.

The paper, which contained, in addition to the above, a great deal of information in regard to the railroad history of Pennsylvania, was listened to with much attention.

Virginia State Bond Coupons Receivable for Fines.

The Virginia Court of Appeals has decided that State Bond Coupons are receivable for all fines due the State. The decision was rendered in the habeas corpus case of a prisoner confined in jail who had tendered coupons in payment of a fine imposed by the Hustings Court, and which had been refused. Judge Christian, who delivered the opinion, held that decisions in former cases had decided the constitutionality of the funding bill, and that the language of that law, that coupons should be received in payment of all taxes, debts, dues and demands of the Commonwealth, was as broad and comprehensive as it could be. He met the question of the right of the Legislature to make a contract authorizing money dedicated to schools by the constitution to be paid in coupons, and stated that the constitution meant that such amount as should be realized from fines should be paid to schools. The support of the schools was a high duty, but the payment of the debt was equally high, and the State had no right to dedicate money due her creditors to school purposes. She must be just before she is generous, and it could not be supposed that the Legislature would fail to perform the duties, pay the debt and support the schools. He did not discuss the other question raised in the case, as to the right of the State to collect a tax out of the coupons, but inasmuch as the court held that coupons must be received for the fine in question at their face, without deducting the tax, the effect of the decision is to declare that no tax can be collected or retained from coupons, and that they must be received at their face. He declared that they were gold as far as the State is concern-

ed. The decision received the indorsement of four out of five of the judges.

Receipts and Expenditures of the United States.

The following tables will show the receipts and expenditures of the Government for the nine months ending March 31, 1878, as compared with the corresponding nine months of the preceding fiscal year. The receipts are given in detail by quarterly periods. The first quarter of the fiscal year 1877 began with July 1, 1876.

RECEIPTS.

First quarter.	1877.	1878.
Customs	$37,554,728	$36,983.582
Internal revenue..	28,813,336	28,393,882
Miscellaneous	6,742,460	6,160,656
Total.	$73,110,524	$71,537,570
Second quarter.		
Customs	$27,793,129	$30,101,915
Internal revenue..	29,242,882	28,292,128
Miscellaneous	1,966,885	2,069,271
Total.	$59,002,896	$60,463,314
Third quarter.		
Customs	$34,000,920	$31,990,284
Internal revenue..	27,446,265	23 512,880
Miscellaneous	7,721,510	6,552,369
Total.	$69,168,695	$62,055,533

The following recapitulated statement will show the aggregate receipts during the nine months of both years given above:

	1877.	1878.
Customs	$99,348,777	$99,075,781
Internal revenue..	85,502,483	80,198,390
Miscellaneous	16,721,510	14,782,296
Total....	$201,572,770	$194,056,417

Thus the total receipts for the nine months ending March 31, 1878, were $7,516,353 below the corresponding nine months of the preceding fiscal year, and of this deficit $5,304,093 occurred in internal revenue receipts, $1,939,214 in miscellaneous, and $273,046 in Customs.

EXPENDITURES.

The expenditures for the nine months of the two years compared above, exclusive of interest on the public debt, were as follows:

	1877.	1878.
First quarter..	$41,644,343	$30,264,315
Second quarter....	35,828,546	37,267,779
Third quarter..	35,288,253	32,378,832
Total....	$112,761,142	$99,910,926

The table given below will show the excess of receipts over expenditures for the two periods compared:

	1877.	1878.
Receipts	$201,572,770	$194,056,417
Expenditures.....	112,761,142	99,910,926
	$88,811,628	$94,145,491

It will be seen from the above table of aggregate receipts and expenditures that the excess of receipts for the nine months ending March 31, 1878, as compared with the corresponding nine months of the preceding fiscal year, was $5,333,-863.

☞ The Highland Press, in speaking of the proposed road between Huntington and Portsmouth, says that the traffic of the road that now comes down the river from Huntington will be diverted by way of Portsmouth and Columbus. It also suggests that Cincinnati can prevent this by finishing the old half-graded road bed of the Cincinnati, Hillsboro and Parkersburg railroad, from Hillsboro east to Piketon, a distance of only 38 miles, and the thing is done. The distance from Portsmouth to Cincinnati by this route is 125 miles, while the distance from Portsmouth to Columbus by the Scioto Valley road is 100, giving Columbus an advantage of 25 miles.

Iron and Steel Rails.

The Bulletin of the Iron and Steel Association gives the following statistics of the production of iron and steel rails in the United States in 1877:

The total production of both kinds of rails in that year was 764,709 net tons, against 879,629 tons in 1876; 792,512 tons in 1875; 729,413 tons in 1874; 890,077 tons in 1873; 1,000,000 tons in 1872, and 775,733 tons in 1871. Of the total production in 1877, 332,540 net tons were iron rails, against 467,168 tons in 1876, and 432,169 net tons were steel rails, against 412,461 tons in 1876. These figures show a decrease in the production of iron rails of 134,628 net tons, and an increase in the production of steel rails of 19,708 net tons. The total production of rails in 1877 was 114,920 net tons less than in 1876.

Pneumatic Locomotion.

The novel spectacle of a street car propelled at rapid speed without horse power, steam or other visible motor, attracted universal attention on the upper portion of Second avenue yesterday afternoon. It appears that during the past fall and winter experiments were quietly made which have proved successful and now promise to revolutionize the entire present system of traffic in this city. During last summer a few private gentlemen procured the services of two foreign engineers, who have made the study of locomotion by compressed air the business of their lives, and although many others had before attempted it and failed they felt confident of accomplishing this much sought after but heretofore unattainable result. Accordingly the construction of a car was commenced last summer and completed in the winter, which, by means of a single charge of compressed air, has been able to perform journeys of from three and a-half to five miles with only about one-half the pressure intended to be applied, clearly demonstrating that a distance of from eight to ten miles can be accomplished by a single charge of air, and if necessary even longer distances, it being a mere question of the capacity of the receivers. Trial trips have been made during the past winter in all kinds of weather and in every condition of the rails on the upper part of Second avenue, where the gradients are heavier than on any other road in the city, the desire of the parties interested being that the experiments should be fully tested under the most unfavorable circumstances. This has been done, and the result is that a practical success has been obtained, the car having been run almost every day during the winter, accomplishing the distance mentioned above.

In appearance it resembles an ordinary street car in almost every particular, having the usual accommodations for passengers, the machinery, which is very simple, being underneath the floor of the car. It runs almost noiselessly and is under perfect control, a single lever acting for starting, stopping, reversing and braking—all of which are much more easily managed than the ordinary cars, with their horses and brakes, now in use. The lever used is transferred from one platform to another, to suit any direction in which the car may be moving, and its working is of such simple character that any man of ordinary intelligence can become thoroughly familiar with it in an hour. The compressed air, which furnishes the motive power, is confined in eight tubular steel receivers placed under the car. These, it is held, are capable of containing enough atmosphere to propel it over the whole length of Manhattan Island,

and at a speed of thirty miles an hour if requisite. Hitherto the great obstacle to locomotion of this character lay in the lack of suitable machinery to economize the air after its compression, but this difficulty appears now to have been successfully overcome.

At present, owing to inadequate machinery, the time occupied in charging the receivers is between three and four hours. The company, however, have just given orders for the manufacture of engines capable of charging in one minute.—*N. Y. Herald.*

☞ The United States Board of Trade is now incorporated with a strong committee of commercial men, including prominent names throughout the country. The Board has already been in communication with American Consuls stationed in every part of the world, and with many foreign Boards and members. It has been recognized by three European Governments, and its headquarters are fixed at Washington, D. C., with branch offices in New York and San Francisco.

☞ The directors of the Dayton and Southeastern Narrow Gauge railroad have determined to extend the road from Mussleman's Mill (its present eastern terminus) to Chillicothe. The work of extension is to be commenced immediately.

☞ The contracts for the work on the Pennsylvania Railroad Company in Maryland have not yet been awarded, but the authorities at Cumberland are in active and constant negotiation with contractors, and it is thought the matter will be settled and the work commenced shortly.

☞ The extension of the Milwaukee, Lake Shore and Western Railroad from New London to Clintonville in Waupaca Co., Wis., 17 miles, is nearing completion, and trains will be running over it by May 15th.

☞ The track on the Denison and Southeastern Railroad is now laid to the new town of Whitewright, 25 miles southeast from Denison, Texas, and 10 miles beyond the recent terminus at Bellplain.

☞ The Scioto and Hocking Valley Railroad Company will soon commence relaying the track with steel rails between Selina and Nelsonville.

☞ Work on the Columbus and Gallipolis Railroad is progressing as usual. The entire line will soon be ready for the ties and iron.

Can I Obtain a Patent?
This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending the 30th ultimo, the total anthracite production, as reported by the several carrying companies, amounted to 122,257 tons, against 314,382 tons in corresponding week last year, a decrease of 192,125 tons. The total amount of anthracite mined for the coal year is 2,595,089 tons, against 3,332,512 tons for same period last year, a decrease of 737,423 tons. The quantity of bituminous coal sent to market for the week amounted to 53,608 tons, against 36,030 tons in corresponding week last year, an increase of 17,578 tons. The total amount of bituminous mined for the year is 438,014 tons, against 610,913 tons for corresponding period last year, a decrease of 172,899 tons. The total tonnage of all kinds of coal for the week is 175,865 tons, against 350,412 tons in corresponding week last year, a decrease of 174,547 tons. The total tonnage of all kinds of coal for the coal year is 3,033,103 tons, against 3,943,425 to same date last year, a decrease of 910,322 tons. The receipts at Perth Amboy for the week ending on the 23d ultimo were 4,863 tons, the shipments 6,753 tons, leaving a stock on hand of 88,293 tons. This stock was reduced to about 60,000 tons on Saturday, April 6, compared with about 140,000 tons at the corresponding date last year. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of March was 99,526 tons, of which 76,154 tons were coal, and 23,372 tons coke. The total carried for the year is 1,041,450 tons, of which 807,901 tons were coal and 233,549 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried 61,000 tons of coal last week to Port Richmond, whil t 24,500 tons were shipped thence, leaving the stock on hand at Port Richmond last Saturday 86,200 tons.—*Phila. Ledger, April 8.*

Finances of South Carolina.

The fact that the State has already begun the payment of the interest upon all the consolidated bonds and stocks that were recognized by the Bond Commission as without taint of fraud or doubt, has given a marked buoyancy to that class of the State securities, investors evidently appreciating the fact that these bonds and stocks, at least, have safely passed the final ordeal, and will hereafter take rank with the safest and most solid of American 6 per cent securities. Within the past two days there have been large transactions in consolidation bonds, on which coupons for January and July, 1877, had just been paid at 88. The coupons for January, 1878, will be paid in a few weeks out of the incoming taxes. The settlement of the floating indebtedness of the State next month will still further strengthen the recognized funded obligations of South Carolina. The bonds to be issued under the recent law in payment of the floating debt will not be a 'contract obligation' like the consolidation bonds, the coupons of which are receivable for taxes, and shrewd financiers are predicting that these last will before long be above par.—*Charleston News.*

☞ It is authoritatively stated that the Dominion Parliament has passed a bill authorizing and confirming the scheme for the arrangement of the bonded debt of the Canada Southern Railway Company, and that this scheme, which has been assented to by about seven-eighths of the bondholders, is now binding upon all, and that the new guaranteed bonds can be issued as soon as their preparation is completed.

☞ The Swedish railway system has now an extent of 4,926 kils., of which 1,635 kils. are worked by the State, and 3,291 kils. by private companies. On December, 31st, 1857, this country possessed only 187 kils. of railway, of which 88 kils. were State, and 99 kils. private. It would thus appear that since 1857 on an average 237 kils. of new lines have been opened yearly, 76 kils. a year on State account, and 161 kils. for private companies.

HOLCOMB'S Improved Acoustic **TELEPHONE**

Patent Applied For.

For short lines the best and cheapest Speaking Telephone manufactured. I have a test line of over 1 mile in length that transmits the voice with such power as to be heard distinctly in all parts of an ordinary room. Illustrated circulars for stamp. Address J. R. HOLCOMB, Mallet Creek, Ohio.

American Railroad Journal.

New York, Saturday, April 20, 1878.

Baltimore and Ohio Railroad.

The regular monthly meeting of the board of directors of the Baltimore and Ohio Railroad Company was held in Baltimore on the 10th inst., President Garrett in the chair.

The committee of finance, having examined and considered the act of the General Assembly of Maryland, approved March 27, 1878, for the settlement of the differences between the State and the railroad, submitted their report, with the following resolutions, which were unanimously adopted:

Resolved, By the president and directors of the Baltimore and Ohio Railroad Company that they recommend to the stockholders of this company the acceptance of the act of the General Assembly of Maryland, chapter 155, passed at the January session, 1878, and that they recommend that the proper authority be given to enter into the agreement with the State of Maryland and the Chesapeake and Ohio Canal Company in relation to rates for tolls and transportation as provided by the fifth section of said act.

2. Resolved, That a general meeting of the stockholders of this company be called to be held at ten o'clock on the 10th day of June, 1878, at the office of the company, Camden Station, Baltimore, for the purpose of voting upon the proposition to accept the above mentioned act and each of the provisions thereof, and for the purpose of authorizing the company to enter into the arrangements with the State of Maryland and the Chesapeake and Ohio Canal Company, as provided by the fifth section of said act, and that the secretary of the company give due notice of such meeting by publication in at least two papers of Baltimore city at least thirty days prior to day of meeting.

3. Whereas by the act of the General Assembly of Maryland, approved on the 27th March, 1878, entitled 'An act to adjust and finally settle by an agreement all pending controversies between the Baltimore and Ohio Railroad Company and the State of Marland,' etc., it was provided by the 4th section thereof that the sum of $866,870 56 should be deemed and taken as the whole sum to be due by the said company to the State to the 1st day of January, 1878, for the State's proportion of the whole amount of money received by the Baltimore and Ohio Railroad Company for the transportation of passengers on its railroad between Baltimore and Washington, and for all the dividends upon the stock in the Washington Branch railroad up to October, in the year 1878; and

4. Whereas this company did, by reason of the continued claim of the State for the tax of 20 per cent on the gross receipts for passengers, hold it to be inexpedient to declare the usual semi-annual dividends of five per cent on the stock of the Washington Branch railroad in October, 1875, April, 1876, October, 1876, April, 1877, and October, 1877, the State's proportion of which passed dividends is included in the sum of $866,870 56, and which passed dividends it becomes proper to declare when the occasion for passing them no longer exists; be it

5. Resolved, That so soon as all the arrangements required be perfected to give to the act of Assembly aforesaid full effect, according to its tenor, there shall be declared five semi-annual dividends of five per cent, which were passed as aforesaid, on the stock of the Washington Branch of the Baltimore and Ohio railroad.

The following was also adopted:

Resolved, That a dividend of four per cent be declared on the capital stock of the Main Stem for the half year ending 31st March ult., payable in the stock of the company, on and after the 15th May proximo, at the office of the treasurer, Camden station, and that the transfer books be closed on the 17th of April inst., and remain closed till the 15th of May proximo.

In connection with the recommendation of the finance committee to declare the dividend in stock, the president remarked that although during the present administration, which had continued for twenty years, the dividends had been uniformly made in cash, even during the great war, at six, eight, nine and ten per cent per year, yet the form proposed by the committee was not at all novel in the history of the Baltimore and Ohio Company. At various periods prior to 1858, when the company needed money, rather than press sales of its bonds and securities it adopted the conservative plan of using a portion of its earnings by borrowing the sum from the stockholders, and issuing therefor its stock. A large amount of the cost of the road between Cumberland and the Ohio river was supplied under this system.

In order to aid the Pittsburg and Connellsville, the Marietta and Cincinnati, the Virginia Midland, and to construct the Chicago, the Baltimore Short Line and the Cincinnati and Baltimore roads, and other enterprises associated with its interests and development, the Baltimore and Ohio Company created a floating debt which it is the policy of the company to liquidate rapidly. The company owns large amounts of the stocks and securities of its connecting lines, some of which it will be desirable to hold for the purpose of maintaining interests and influence in regard to the policies and co-operative relations of those companies. But large amounts of the bonds of those companies now held can properly be sold when sufficiently advantageous rates can be obtained for them. The company has pursued so conservative a policy that it has heretofore paid from its net earnings, through the action of its sinking funds and by payments in cash from its net earnings, $11,651,279 67 of mortgage indebtedness, and the annual earnings upon the present investments in its sinking funds and appropriations for the payment of its mortgage indebtedness amount at this time to five hundred and eighty-two thousand dollars annually. In pursuance of this conservative policy, the committee has recommended that a portion of the earnings realized within the last six months, viz., four per cent—being $525,788—be used for the payment of the floating debt, and that stock be issued therefor. It will be noted that this dividend will be payable in the common stock of the company. This sum is thus added to the capital, on which no interest will be paid, but only such dividends as may be declared from the net earnings, at the discretion of the directors, from time to time on the capital stock. Whilst the floating debt has already been materially decreased, yet this action will insure its more rapid reduction.

After the president's remarks the resolution of the committee of finance for the declaration of the dividend was unanimously adopted.

The earnings for March on the Main Stem and branches were $1,137,413 94, being $44,419 95 more than for the same month of the preceding year.

Chicago, Milwaukee and St. Paul Railway.

We have been favored with a copy of the Report of the Chicago, Milwaukee and St. Paul Railway Company for the year ending December 31, 1877, from which we learn that the company is the owner of 1,412 miles of completed road, situated in the following States, viz: in Wisconsin, 677 miles; in Minnesota, 351 miles; in Iowa, 337 miles; and in Illinois, 47 miles.

The entire cost of the whole property, including all equipment, bridges, elevators, warehouses, cattle yards, and grounds, is as follows:

Mortgage bonds		$29,954,500
Preferred stock		12,279,483
Common stock		15,404,261
		$57,638,244
Less cost of Western Union stock	$1,500,000	
Less cost of Oshkosh and Mississippi River Railway bonds	203,000	
		1,703,750
Cost of 1,412 miles ($39,618 per mile)		$55,934,494

The equipment of the road at the close of 1876 and 1877, compares as follows:

	1876.	1877.
Locomotives	208	214
Passenger cars, 1st class	70	72
" " 2d class	31	31
Sleeping cars	14	12
Baggage, postal, mail and express	60	62
Box, freight and caboose	3,098	2,555
Stock	296	401
Flat and coal	847	847
Boarding	2	2

In the following table are shown the mileage of trains, the passenger traffic and the freight traffic on all the roads collectively for the years 1876 and 1877:

Mileage:	1876.	1877.
Passenger trains	1,318,436	1,378,602
Freight trains	3,084,345	3,109,837
Wood and gravel trains	414,300	306,625
Total mileage	4,817,081	4,795,064
Passengers carried	1,154,181	1,139,621
Do. carried one mile	59,845,665	55,925,449
Freight (tons) carried	1,705,801	1,687,057
Do. carried one mile	264,808,027	271,598,133
Receipts per passenger per mile	3.20 cents.	3 21 cents.
Receipts per ton per mile	2.04 cents.	2.08 cents.

Earnings per mile run on freight, $1 81. Earnings per mile run on passengers, $1 29. Expenses per mile run, including all expenditures, $1 01; do. in 1875, $1 12—decrease, 11 cents.

The average price per ton per mile, received for freight, for a series of years past has been as follows:

1865	4.11	1872	2.43
1866	3.76	1873	2.50
1867	3 94	1874	2.38
1868	3.49	1875	2.10
1869	3.10	1876	2.04
1870	2.82	1877	2.08
1871	2.54		

The earnings, expenses and net revenue per mile of road in the two years compare as follows:

	1876.	1877.
Gross earnings	$5,752 98	$5,783 96
Operating expenses	3,538 09	3,236 24
Net earnings	$2,214 89	$2,547 72

The following is a comparative statement of the earnings and expenses during the years ended December 31, 1876 and 1877:

Earnings from:	1876.	1877.
Freight	$5,384,230 46	$5,627,906 29
Passengers	1,899,058 54	1,780,169 42
Mail service	155,021 01	153,400 85
Express service	171,152 15	159,816 93
News service	6,927 04	7,007 37
Rents	9,354 00	6,869 62
Telegraph	410 28	479 70
Extra baggage	7,204 97	5,858 09
Sleeping cars	43,090 00	44,608 80
Elevator, "A"	131,740 64	103,043 34
Elevators, "B & C"	164,781 07	130,271 77
Elevator, "D"	47,434 46	32 55
Elevator, "E"		59,867 59
Union Elevator, Minneapolis		3,354 16
Stock yards	33,766 82	32,207 78
Total	$8,054,171 39	$8,114,894 27
Expenses (ordinary)—		
Repairs of track	$723,095 00	$650,811 29
" bridges	61,642 68	79,039 15
" fences	15,465 05	20,585 18

Rent of locomotives		3,580 93
Rent of cars	54,074 98	31,907 65
Exp. Elevator "A"	32,976 37	32,371 30
Exp. Elevators "B & C"	30,359 53	23,050 90
Exp. Elevator "D"	12,217 44	7 00
Exp. Elevator "E"	401 75	15,017 54
Exp. Union Elevator, Minneapolis		1,111 05
Expenses (extraordinary)—		
Renewal of track	376 171 26	389 392 26
New bridges	15 856 70	20,173 41
New buildings	11,686 36	27,926 88
New tools and machinery	3,615 13	750 78
Total	$4,953,324 03	$5,540,433 57
Net earnings	$3,100,847 36	$3,574,460 70

Compared with the year 1876, the gross earnings show an increase of $60,722 88, with a decrease in expenses of $412,890 46—making an increase in net earnings of $473,613 34. The percentage of expenses to earnings, including all expenditures, was 56 per cent. In 1876 it was 61.5 per cent. The expenses are divided as follows: ordinary, $4,102,190 29; extraordinary, $438,243 28. In 1876 the ordinary expenses were $4,545,994 58, and the extraordinary expenses $407,329 45.

STATEMENT OF INCOME ACCOUNT.

By balance January 1, 1877		$1,433,645 40
To purchase of Milwaukee and Prairie du Chien R'y Co. outstanding stock	4,033 75	
To dividend on preferred stock paid October 1877, out of the net earnings of 1876	429,606 90	
To sinking fund of 1 per cent on consolidated sinking fund bonds outstanding Dec. 22, 1876; paid out of the net earnings of 1876	53 000 00	
		486,640 65
		$947,004 75
By gross earnings 1877	$8,114,894 27	
Less operating exp	4,540,433 57	
	3,574,460 70	
Less interest paid in 1877	2,162,159 15	
		1,412,301 55
Balance Dec. 31, 1877		$2,359,306 30

The bonded debt of the company has been decreased during the year $56,000, mainly by the operation of the sinking fund provided for by the Consolidated Sinking Fund Mortgage. The preferred and common stock have each been increased $5,000. This was for the purpose of retiring $10,000 of Milwaukee and Prairie du Chien Railway Company stock, which leaves only 75 shares of that stock outstanding, and for which this company is under an engagement to issue its own stock.

These changes produce a reduction of $46,000 in the combined stock and bond account.

During the year the company has constructed about thirteen miles of road in Wisconsin, from New Lisbon, on the La Crosse Division, to the village of Necedah, on Yellow River, a tributary of the Wisconsin. Several large saw mills are located at the latter place, the product of which has heretofore been floated down the Wisconsin and Mississippi rivers to market. By means of this short road, this business is now brought into connection with the lines of this company.

The entire cost to this company of constructing these thirteen miles has been only $46,018 48. The balance of the required outlay was contributed by parties interested at New Lisbon and Necedah.

During the year, 6 locomotives, 2 passenger cars, and 450 box, 100 stock, 12 caboose and 2 railway post office cars have been added to the equipment of the road.

At the close of the year 1876 the company had 335 miles of steel rails. There have since been laid 77 miles of new Bessemer steel rails and 47 miles of first quality rebeated iron rails.

The gross earnings of the company for the first half of the year 1876, were	$3,960,517 29
And for the first half of 1877, they were	2 958,153 37
Comparative decrease for first half of 1877	$1,002,368 92
For the last half 1876, the gross earnings were	$4,093,651 10
And for the like period of 1877, they were	5,156 740 90
Comparative increase for last half of 1877	$1,063,086 80

An explanation of these fluctuations is to be found in the fact that the wheat crop in the States traversed by the roads of this company, was very deficient for 1876, while for the year 1877 it was above an average.

It gives us pleasure to state that during the serious labor disturbance of last summer, the employes of this company, without exception, stood faithfully at their posts and discharged their duties without faltering.

The road bed, track, rolling stock, buildings and other equipment of the company, are in excellent condition.

The company is free from floating debt, and has no leases or guarantees to absorb its earnings.

This company owns a majority of the stock of the Western Union Railroad Co., but is in no way holden to said company or responsible for its operation or affairs.

The continued immunity of the company from all accidents involving personal injuries to passengers, attests the skill and care with which its roads are operated.

The expenditures for construction and permanent improvements, made during the year 1877, were as follows:

For additional equipment	$308,910 66
Mississippi River Bridge, La Crosse	28,005 78
Cost of relaying with steel rails over cost of iron rails	78,171 52
Depot grounds, wharves, &c., Milwaukee	11,284 29
Depot grounds, Minneapolis	700 00
Depot grounds, Whitewater	1,000 00
Depot grounds, Ossian	326 25
Real estate, Chicago and Milwaukee division	2,995 75
Construction of fences, &c., Illinois and Iowa division	272 82
Construction of fences, Iowa and Minnesota divisions	1,875 96
Construction of Elevator "E" in Milwaukee	7 958 19
Milwaukee Avenue Viaduct, Chicago	12,892 99
Right of way	1,659 82
Milwaukee elevator grounds	10,971 08
Expenditures on account of Necedah Branch	45,013 48
Purchase of Minneapolis elevator and grounds	35,902 00
Construction of New Telegraph line, Milwaukee to La Crosse	5 658 53
Permanent Improvements (new depots, coal sheds, side tracks, &c., masonry and earthwork in place of trestle work)	109,007 98
Total	$652,606 60

President.—ALEX. MITCHELL, Milwaukee.

Vice President.—JULIUS WADSWORTH, N. York.

Directors.—Alex. Mitchell, Julius Wadsworth, Selah Chamberlain, Walter S. Gurnee, Jeremiah Milbank, Abraham R. Van Nest, David Dows, John M. Burke, Peter Geddes, John Plankinton, S. S. Merrill, J. Bowman, Geo. W. Weld.

General Manager.—S. S. MERRILL, Milwaukee.

Secretary and Treasurer.—R. D. JENNINGS, Milwaukee.

Assistant Secretary & Transfer Agent.—JAMES M. MCKINLAY, New York.

General Solicitor.—JOHN W. CARY, Milwaukee.

Auditor.—J. P. WHALING, Milwaukee.

Purchasing Agent.—JOHN T. CROCKER, Milwaukee.

☞ The Oregon Steam Navigation Company has a large force of men at work grading the line of railroad which it proposes to build on the Oregon side connecting the upper and lower Cascades. This road, and the one now in operation on the Washington Territory side of the river, will enable them to transport all the grain which will be raised east of the mountains for many years to come. It is also stated that the Oregon Steam Navigation Company intend building a railroad at once from Umatilla to La Grande. The rails are steel, and will be brought forward as soon as possible and laid down. The road will be narrow gauge.

Ramapo Cast Iron Wheels.

The following memorandum of mileage of 48 Ramapo cast iron wheels (33 inch) made under four Pullman sleeping coaches on the Union Pacific Railroad was furnished by the Pullman Palace Car Company to W. W. Snow, Superintendent of the Ramapo Wheel and Foundry Co:

The wheels were put in service—12 to each coach—on the 15th, 20th, 26th, and 28th of July, 1876, respectively, and 28 of them were removed at various dates from February 15th to December 19th, 1877, inclusive. The total mileage made by all of the 28 wheels was 1,940,473 miles; the smallest made by any one wheel was 42,160, and the largest 103,836, the general average being 69,308 miles per wheel before removal.

Twenty wheels were still in service on the 19th of December, 1877, the mileage of which is not stated. It is reasonable to assume, however, that they would, before being removed, make a larger mileage than any one of the 28, and thus bring the average for the whole 48 up to 90,000 at least. If this estimate shall be verified by the final result, it will be a very satisfactory performance for this class of wheels.

Freight Car Mileage.

At a meeting of New England Railroad Superintendents, held in Boston on the 11th inst., to consider Mr. E. B. Hills plan relative to car mileage, it was resolved that a Car Counting Association for the New England States was a necessity and should be established at once, and that the organization date from May 1, or as soon thereafter as practicable. The details were placed in the hands of an executive committee, consisting of Wm. Bliss of the Boston and Albany, George W. Bentley of the Central Vermont, and A. A. Folsom of the Boston and Providence. Mr. E. B. Hill was appointed general manager. The central office will be located in Boston.

Madeira and Mamore Railway.

We are informed that the third steamer sent out by the contractors, Messrs. P. & T. Collins, of Philadelphia, with men and materials for the construction of the Madeira and Mamore Railway, has arrived at its destination, and that work has been commenced. This is purely an American enterprise, the successful accomplishment of which will contribute more largely to commerce between South America and the United States than any other enterprise in that country. There will be about 3,000 miles of steam navigation above the Falls.

☞ The line by the way of Hampstead, Carroll county, Md., known as the "ridge route," has been determined on for the construction of the Baltimore and Hanover railroad. Contracts will be given out and the work over this part of the line will be prosecuted without delay. A portion of the road at the other terminus is already under contract. The junction of the Baltimore and Hanover road with the Western Maryland road will be at Emory Grove Station. The new road will be a valuable feeder to the Western Maryland railway.

☞ An election has been ordered to be held on the 23d of May to take the sense of the qualified voters of Danville, Va., on a subscription of fifty thousand dollars on the capital stock of the Danville and New River railroad.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "†."

Wilmington, Columbia and Augusta R. R.

A despatch dated Raleigh, N. C., April 15th, says that the Wilmington, Columbia and Augusta Railroad has been placed in the hands of Mr. R. R. Bridgers as Receiver. This result was not unexpected. The company held a lease of the Wilmington and Weldon Railroad, running from these two points, at an annual rental of 7 per cent on the par value of the stock. In January last a default was made of the payment of interest on the mortgage bonds of the Wilmington, Columbia and Augusta Railroad Company, and also of the lease money due the Wilmington and Weldon Railroad Company. Under this state of affairs the bondholders of the Wilmington, Columbia and Augusta Railroad Company, representing $3,900,000, called a conference, which met in Baltimore early last week. Several days were spent in discussing the affairs of the company, and then followed the appointment of a Receiver by Judge Bond, of the United States Circuit Court. By the terms of the lease the Wilmington and Weldon Railroad reverted to its stockholders to day.

Exchange of Street Railway Tickets.

The Governor of the State of Massachusetts has signed the following bill, and it will take effect on the 10th of May:

Sect. 1. Package tickets issued by any street railway corporation in the usual form of tickets sold by such corporation, and good for a fare not exceeding six cents upon its route from any point in the city of Boston to any other point in said city in a car run therein by said corporation, shall be received as good for a passage between any two points in said city by any other street railway corporation, in any car wherein a fare not exceeding six cents is receivable; and every such corporation shall, once in a week, redeem all such tickets issued by it, which shall be presented by any other such corporation, by paying therefor at the rate of five cents in money for each ticket so presented.

Sect. 2. Any street railway corporation refusing to receive as above provided, any such ticket issued by any other such corporation, or refusing to redeem, as above provided, any such ticket of its own issue, shall forfeit for each ticket which it shall so refuse, the sum of one dollar, to be recovered in an action of tort by the person or corporation presenting the same to his or its own use.

Immigration into West Minnesota.

The St. Paul Pioneer Press, of April 11th, says:

The present immigration to Western Minnesota is unparalleled in the history of the State. The officers of the land departments of the St. Paul and Sioux City, the Northern Pacific, and the St. Paul and Pacific are crowded every day with applicants for railroad lands. All the railroads have been obliged to add largely to their rolling stock, and especially their passenger cars, and to increase their train service to accommodate the great rush of land owners and immigrants to the western districts. The influx began some seven months ago, just after the magnificent harvest of 1877 had been gathered. For the seven months the amount of land disposed of by the United States Land Office and railroad companies in Minnesota and Northern Dakota is about 2,550,000 acres. The western counties of the States are to be congratulated not only on the immense influx of immigrants which is rapidly settling up their wide prairies, but on their superior character. A very large proportion of them are well to do farmers from the old settlements in this State, Northern Iowa, or Wisconsin, who have sold out their old farms at high prices to buy large areas of cheaper and more fertile lands in the western districts, or other men of means who are going into farming as a business investment. Nearly all them are of a class greatly superior to the average immigration of several years, and they carry with them to a great extent the means of rapidly improving their new farms. The great increase of railroad business consequent on this large influx of immigrants has already been noted. But its effects on general commercial and all other business are no less marked. There are indications on all sides of a rapid revival of business prosperity.

Columbus and Northwestern Railway.

The first quarterly meeting of the directors of the Columbus and Northwestern Railway Company was held at Columbus, Ohio, on the 9th inst. After examining the books of the Secretary, the board found that a sufficient amount of stock had been subscribed to justify them in letting the contract for the first thirty miles of the road to Mechanicsburg. A resolution was adopted authorizing a contract as soon as the roadbed can be leveled up. The following resolution was adopted:

Resolved, That when that part of the Columbus and Northwestern railway lying in the State of Indiana, between the city of Fort Wayne and the southwest corner of Van Wert county, shall have been organized under the laws of Indiana, and shall have raised three thousand dollars per mile in stock or donation, with the right of way, that we will consolidate that part of the line with the part in Ohio, giving them directors in proportion to their representation.

Detroit and Milwaukee Railway.

The Detroit Dispatch has the following concerning the consolidation proposition made by the Great Western Railway Company:

The bondholders of the Detroit and Milwaukee Railroad met on the 13th inst., to discuss the proposition of consolidation made by the Great Western Company. Ex-Governor Bagley occupied the chair, and Mr. Bissell acted as Secretary. Messrs. Hague and Abbott, representing $500,000 of bonds held by the Merchants' Bank, of Montreal, took exception to certain portions of the Great Western proposition, and Messrs. Muir, Hendrie, Douglass and Abbott were appointed a committee to confer with the representatives of the latter, and endeavor to make satisfactory arrangements. All but $900,000 of the $4,500,000 of bonds now out have been signed and filed, and if the $500,000 of the Merchants' Bank are so disposed of it will be seen that a speedy and satisfactory settlement of the affairs of the road is near at hand.

☞ It is stated on good authority that iron for the Dayton and Sheridan (Oregon) Railroad has been purchased, and is now being made at the rolling mills in San Francisco. Engines and cars are being put up at the locomotive works in Connellsville, Pa. The iron and rolling stock will reach Oregon in June next. Track laying will commence early in June, and the road will be put in operation to Sheridan by September next, in time to ship the next crop of wheat. Tie cutters are already at work, and grading will commence as soon as the engineers get some of the line located.

☞ The Wheeling (W. Va.) Intelligencer says that when the Pittsburg, Castle Shannon and Washington Railroad is completed to Washington the Baltimore and Ohio Railroad Company will use it as their connection for freight and passengers from Wheeling to Pittsburg. The distance will be about the same as by the Pittsburg, Wheeling and Kentucky Railroad.

☞ During the week ending April 13, the Philadelphia and Reading Railroad shipped 162,500 tons of coal.

Philadelphia Stock Exchange.

Closing Prices for the week ending April 16.

American Railroad Journal.

Saturday, April 20, 1878.

Financial and Commercial Affairs.

Less urgency has been reported in the demand for Money, even from speculative sources, and rates have been ruling easier, leaving off in favor of responsible borrowers, whose wants have been very readily met by lenders at current quotations. The success of the recent refunding negotiation of the Secretary of the Treasury, and the resulting decline in Gold almost to par, served to bring about the easier and more satisfactory condition of affairs in the financial line. The inquiry for discount accommodation has been on a moderate scale. Call loans were quoted here at from 5@7 as the basis of the principal negotiations, and very choice to strictly prime mercantile credits were rated at 5@7 per cent per annum. The City bank exhibit of last week indicated a reduction in the loan and discount average of $4,630,700, and an increase in the item of circulation of $14,600. The average of deposits was further diminished $2,786,600. The legal tender reserve was augmented $2,029,100; and the specie average cut down $1,183,800. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $13,671,350 against $12,091,900 the preceding week, and $16,808,575 the week ending March 30 (the latter the highest aggregate reached thus far this year). The City bank exchanges in currency reached $881,415,826, or a daily average of $68,569,221.

The outstanding amount of legal tender notes is $347,911,065. The National bank circulation now $321,237,991 of currency notes and $1,432

120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,106,000.

Influenced in part by the decline in Gold, Government Securities have shown less activity, and more or less irregularity as to prices. The demand has been almost wholly for home investment account. The final dealings indicated a somewhat stronger range of values, on a freer movement. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107⅜@107½; do. coupon, 107⅜@107½; do. 1865, new, registered, 104⅛@104¼; do. coupon, 104@104⅛; do. 1867, registered, 107@107¼; do. coupon, 107@107⅛; do. 1868, registered, 109⅛@—; do. coupon, 109⅛@—; do ten-forties, registered, 105⅛@105¾; do. coupon, 105⅛@105⅝; do. five per cents, 1881, registered, 103¾@103⅞; do. coupon, 103¾@103⅞; do. 4½ per cents, 1891, registered, 102¾@102⅞; do. coupon, 102¾@102⅞; do. 4 per cents, 1907, reg., 100¼@100⅜; do. coupon, 100¼@100⅜; do. sixes, currency, 118¼@118½.

The Secretary of the Treasury, last week, successfully negotiated with the Syndicate here a refunding loan of $50,000,000 of 4½ per cents at 101⅛ per cent in gold coin, 10 millions to be subscribed for immediately, and $5,000,000 per month through the remainder of the current year.

The reported subscriptions to the new popular four per cent Government loan have been about 7½ millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,866,800, and $13,453,000 as security for public deposits.

The income of the Government from internal revenues last week was about three millions, and from Customs last week about 2½ millions.

A fair demand prevailed for the better class of State bonds, with values, as a rule, showing more firmness. Railway Mortgages have been moderately active, chiefly on investment account, at somewhat variable prices closing generally stronger. And in the line of Railway and Miscellaneous share property business has been to a fair aggregate, on, however, a fluctuating market, closing, as a rule, rather higher.

Gold has been depressed to the unimportant premium of ⅛th of one per cent, leading to a renewed discussion of the early resumption of specie payments, which are now considered as far less difficult of realization than had been looked for earlier in the year. The recent Treasury refunding negotiation was the source of the main influence in thus reducing the price of Gold, which has failed to derive much support from the moderate customs or export drains. The extremes of the price during the week have been 100⅛@100⅝, closing on Wednesday at 100⅜ as against 101⅛ on Wednesday of the preceding week. The specie outflow last week reached only $203,185—making the total exports of specie hence since January 1, $5,251,121 against $4,337,059 the same time in the preceding year. The imports of specie at this port last week were to the amount of $2,073,449 (chiefly from Liverpool and Bremen) and since January 1st have been $7,981,766 as against $6,141,553 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,726,000 or an average of $287,667 per day.

Foreign Exchange has been in fair request and toward the close quoted firmer as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86⅛; sight bills on London at $4 88⅛@$4 89¼ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,614,558 as against $6,821,338 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,474,235 of Dry Goods, and $4,140,323 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $6,930,617, against $5,598,760 same week in 1877; and since Jan. 1 have been $101,881,185 against $70,402,198 same time last year.

Metals have been in fair request at generally steady prices. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $33@$37. Old Rails $19@$19 50. Wrought Scrap $21 50@$22. Steel Rails, on the basis of $42@$44. (with further sales reported of 3,500 tons, for local delivery up to August). Ingot Copper for prompt delivery dull on the modified basis of 17 for early delivery.

Most kinds of Domestic produce, have shown less animation, and, in Breadstuffs and Provisions the volume of dealings has been less extensive, though the export call for Wheat has been to a liberal aggregate. Prices ruled lower for Wheat and Rye, but left off more firmly, as also for Corn and Oats. Several important lots of No. 2 Chicago Oats have been taken for shipment to France. Cotton has been moderately active, and quoted weaker as to values. Naval Stores have been in less demand at about previous prices. Petroleum has been in slack request and quoted lower. Foreign merchandise has been quite moderately dealt in but quoted generally unchanged as to values.

Ocean freights, have been fairly active, accommodation for Breadstuffs, Provisions, Cotton and Petroleum attracting more attention, but rates have been quoted generally weaker. Liverpool steamer rates at the close for Grain, quoted at 8d @8¼d. Flour, at 2s. 9d.@3s. Provisions, 30s.@35s.; Leather, 45s.@50s. Measurement Goods at 22s. 6d. @25s. per ton; Cotton, ¼d. per lb. Liverpool, by sail. Cotton, 15-64d.@⅜d. Grain at 6¼d.; Flour, 2s.@2s. 3d.; Measurement Goods, 15s.@17s. 6d. Tobacco 30s.; Oil Cake at @20s. Grain rates on charter hence for Cork and orders left off at 6s.; for the Continent Grain at 5s. 3d.@6s. 3d. and from Baltimore for Cork and orders, 6s. 6d.@6s. 9d. and from Philadelphia at 6s.@6s. 6d.; and from Portland at 5s. 9d @6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 47s. 6d.@50s. Refined Petroleum hence for Liverpool at 3s. 4½d.@3s. 6d; for Bristol at 3s. 10½d. Cork and orders, 4s.@4s. 3d.; for the Continent, 3s. 3d.@3s. 9d. for the Baltic at 3s. 9d.@4s. and Java at 32@35ct. and Japan, 45@50cts. and for French ports (crude) at 3s. 9d.@4s. 3d. Gibraltar and orders at 4s. 6d.@5s. 6d.; Cotton by sail from New Orleans to Liverpool ¼d.; from Galveston, at 7-16d.@15-32d.; Ky. Tobacco from New York to Spain at 35s. and to Bordeaux at 35s. Naval Stores from Wilmington for Corkand orders at 3s. 6d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s. and 5s. 6d.@6s. Lumber from New York to Montevideo at $15. Savannah or Brunswick to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 63s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool quoted at the close at 50@55ct. per 100lbs. as to routes.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Pork Packing in the West.

From the annual report of pork packing in the West recently issued by the Cincinnati Price Current, we learn that the total winter packing was 6,505,000; average net weight, 226.4 pounds; yield of lard, 38.61 pounds per hog; cost per hundred pounds net, $4 99. Compared with last winter, there is a gain of 1,404,000 in the number of hogs packed, 10.12 pounds in average net weight, and 4.53 in the average yield of lard, and a decrease of $12 19 in the average cost per 100 pounds net. The total production of barreled pork was 723,368 barrels, an increase of 86 101. The aggregate packing for the twelve months ending March 1 was 9,048,566 hogs. The winter product of lard was 761,192 tierces, of which it is estimated that the visible supply in the West and on the seaboard, including interior points, was 250,000 tierces, or 33 per cent. The winter product of cured meats was 980,000,000 pounds, including barreled product, of which there were at the large cities, in the interior and at the seaboard 388,000,000 pounds at the middle of March, or 40 per cent. The report is elaborate in its presentation of details of this season's business, and its comparisons with previous years.

☞ The Palace Steamers Bristol and Providence, having been placed in splendid condition for the ensuing season, have resumed their trips between New York and Fall River via Newport. The managers of the Fall River Line have spared no pains to meet every requirement of the public, and the convenience, comfort and safety of travelers have been secured in these, the largest, best equipped, and most elegant steamers of their class in the world. During the season of pleasure travel passengers by this line will be regaled with delightful music, celebrated string, reed and brass bands having been engaged to give a grand promenade concert every evening on board the steamers.

☞ The Chicago Times of 18th inst. published dispatches from nearly 200 points in Illinois, Wisconsin, Iowa, Minnesota, Nebraska, Dakota, Kansas and Missouri, covering the whole of the western spring wheat regions, which show, when summarized, that the acreage is nearly 50 per cent greater than last year; that the condition and prospects are better than any time since 1860; that the season's work and vegetation are from three to six weeks ahead of the usual time, and that there is an average of from 15 to 20 per cent of the old crop on hand.

☞ The La Crosse Democrat says that half a mile of steel rails per day replace the iron ones on the river division of the Chicago, Milwaukee and St. Paul road. The entire distance to Chicago is to be relaid, after which the schedule time is to be materially changed.

☞ The Utah Northern Railroad having passed out of the hands of the Mormons into those of the Union Pacific Railroad managers, S. H. H. Clark, Superintendent of that road, is inspecting the new purchase with a view to extending it some distance into Montana this spring.

☞ The Hudson (Wis.) Star and Times says a movement is on foot to organize a company to begin work on the North Wisconsin Railroad, at the lake end, and build 20 miles this year.

☞ A sailing car is used for pleasure on the Kansas Pacific Railroad. It is sloop rigged, has four wheels, and will run forty miles an hour when the wind is favorable.

☞ The Keystone Bridge Company has secured orders for building five ordinary iron bridges on the line of the Pittsburg, Cincinnati and St. Louis Railway.

☞ The earnings of the Minneapolis and St. Louis Railway for the month of March were $31,519 94.

☞ Reidsville, N. C., has voted an $18,000 subscription to the Leaksville, (Henry county, Va.) narrow gauge railroad.

☞ It is expected that the Hudson and River Falls (Wis.) railroad will be finished by the 4th of July.

☞ Dr. W. S. Streator has been elected Vice President of the Cleveland, Tuscarawas Valley and Wheeling Railroad Company.

Pittsburg, New Castle and Lake Erie R. R.

The New Castle (Penn.) Guardian says it begins to look as though the Pittsburg, New Castle and Lake Erie Railroad might assume an importance scarcely dreamed of by its projectors in starting. Instead of stopping short at Lake Erie, negotiations are now in progress with the object of extending the line to Chicago by means of connections with various projected roads until Marion, Ohio, is reached. The latter town is intended to be the terminus of the Chicago and Atlantic Narrow gauge railroad. The building of the latter road is only a matter of time, and one county after another in Indiana and Ohio, is falling into line by taking so much stock per mile. The road will run from Chicago through La Crosse, Rochester and Wabash City, Huntington, Indiana; then through Celina, St. Mary's, Wapakoneta and Kenton to Marion, Ohio. From the latter point, in order to catch this trade, an endeavor is making to extend the Clev. and Toledo railroad to Youngstown, from Marion via Salem. The road will run from Marion through Canton, which city proposes to take $150,000 worth of stock.

Galveston, Harrisburg and San Antonio Railway.

This road is opened to San Antonio, Texas, a distance from Harrisburg, Texas, of 215 miles. It crosses the State in an almost east and west direction, and is destined to become a part of the main avenue between New Orleans and Mexico. The equipment consists of 21 locomotives; and cars as follows—passenger 17, baggage, mail and express 5, caboose 6, and freight, box 141, live-stock 131 and platform 161. Total of all revenue cars, 461. The company have also 1 derrick car and 78 construction and roadway cars.

The earnings and expenses of operating the road in the year ending December 31, 1876, (with an average of 173 miles), and 1877, (with an average of 209 miles), compare as follows:

	1876.	1877.
Passenger	$128,814 64	$176,460 38
Freight	673,468 80	820,109 84
Mail and express	22 653 70	30,633 78
Miscellaneous	17,357 13	25,364 23
Gross earnings	$842,294 27	$1,052,568 23
Way and structures	$49,764 49	$27,660 28
Rolling stock	118,546 48	121,380 93
Transportation	134,927 60	169,308 94
Miscellaneous	22,671 89	41,854 57
Gross expenses	$325,919 41	$360,204 72
Net earnings	$516,374 86	$692,363 51

Reduced to mileage the results were as follows:

	Earnings.	Expenses.	Profits.
1877	$5,036 21	$1,723 47	$3,312 74
1876	4,868 79	1,883 88	2,984 91
Increase 1877	$167 42	.....	$327 83
Decrease 1877	.....	$160 41	.....

Expenses in 1877, 34.22 per cent, and in 1876, 42.69 per cent.

Net earnings in year 1877		$692,363 51
Interest on funded debt	$136,055 19	
Interest and Sinking fund to State of Texas; interest on floating debt, and premium on gold	233,161 86	
Taxes and incidental expenses	17,585 02	
		386,802 07
Balance at close of year—expended on construction		$305,561 44

GENERAL BALANCE, December 31, 1877.

Share capital paid in		$4,638,794 40

STATEMENT OF INDEBTEDNESS, Dec. 31, 1877.

Bonded debt issued, $4,200,000. Bonds sold		$2,801,000 00
Due School Fund of Texas which liquidates itself in 1890 by paying 3 per cent interest and 1 per cent Sinking fund, each 6 months, May 1 and November 1		407,066 82
Total funded debt outstanding		$3,208,066 82
Bills payable, including notes of $750,000 to T. W. Peirce, President		$1,248,635 56
Other liabilities, including $266,393 85 due to T. W. Peirce, President		770,038 90
Current accounts and coupons		34,607 27
Floating debt		$2,053,281 73
Means of payment—		
Own bonds on hand	$1,399,000 00	
Bexar County bonds	200,000 00	
Notes receivable, cash and balances	364,643 49	
		1,963,643 49
Net floating debt		$89,638 24

The funded debt of the company (exclusive of the State School Fund loan) consists of 1st Mortgage, 6 per cent Sinking Fund Land and Road bonds, principal and interest payable in gold. They bear date February 1, 1871, and are payable February 1, 1910; interest payable semi-annually, February 1 and August 1. Amount issued, $4,200,000; amount sold, $2,801,000; and on hand, $1,399,000. The mortgage covers the entire property including about 1,500,000 acres of land and the franchises of the company. The proceeds of sales of the subsidy lands (16 sections per mile) will go to the trustees and be used to purchase the bonds in the market. The bonds are further secured by a sinking fund of one per cent to commence in 1880 and for which bonds are to be drawn annually thereafter. The process will nearly retire the bonds at maturity.

Directors—T. W. Peirce and Peter Butler, Boston, Mass.; Andrew Peirce, George F. Stone and J. J. McComb, New York; H. P. Andrews, San Antonio, Texas, and J. E. Fisher, Houston, Texas. President—T. W. Peirce, Boston; Vice President—H. B. Andrews, San Antonio; Treasurer—Chas. Babbige, Boston; Secretary and Assistant Treasurer—J. E. Fisher, Houston; Superintendent—A. W. Dickinson, Houston; Chief Engineer—James Converse, Houston. General offices, Houston, Harris Co., Texas. Fiscal agency, No. 58 Sears Building, Boston, Mass.

Hannibal and St. Joseph Railroad.

To the Stockholders of the Hannibal and St. Joseph Railroad Co:

The accompanying statement of the business of the company, for the fiscal year ending December 31st last, has been prepared with care, in order to afford the board of directors, and through them the stockholders, some reliable means of judging of the earning capacity of the property when it shall have been freed from the burden of the extraordinary expenditures rendered necessary by the depreciated condition of the road and its equipment. You are aware that in July last the company was placed in possession of its Land Grant Assets, theretofore held by Trustees as security for the Company's Land Grant Bonds, the last of which were paid prior to that date. Those assets consisted partly of cash, but mainly of contracts for lands sold. The possession of these assets has enabled the company to provide the means for the payment of indebtedness incurred for the improvements made upon the property and for the further sums still required for the same purpose. Considerable expenditures have been made in relaying the road with steel rails, 74½ miles of which were in the track at the close of the year, of which 8,034 tons were purchased and laid during the fiscal year; the rolling stock has been put in first class order, numerous bridges rebuilt, and many other important improvements made. The floating debt of the company has been largely reduced, many litigated cases, including arrears of taxes to the amount of over $100,000 have been compromised and paid, and every effort has been made to put the affairs of the company on a sound basis.

A thorough revision and reorganization of the system of accounting is in progress, the results of which begin to be apparent in the more thorough knowledge of current transactions, though not yet sufficiently progressed to enable the board of directors to present a full report of the condition of the company, as it is their intention to do at the earliest possible moment.

The earnings of the road for 1877 were as follows:

From freights		$1,210 648 05
" passengers		524,400 79
" mail and express		85,028 57
" bridge tolls and miscellaneous		111,287 91
Total		$1,931,365 32
OPERATING EXPENSES.		
Conducting transp	$401,677 45	
Motive power	250,971 94	
Maintenance of way	178,477 10	
Maintenance of equip	211 318 81	
General expenses	93,441 16	
		1,135,886 46
Balance net earnings		$795,478 86
From which has been paid the interest on the funded debt		660,000 00
Leaving		$135,478 86

Which, together with the receipts from the company's lands, has been applied to the extraordinary expenditures for the improvement of roadbed and track, the payment of the arrears of taxes, and other expenses arising out of transactions of former years, referred to above, and amounting during the year to $341,798 86. Since the assets of the land department reverted to the company, to the close of the year, the net receipts, including the cash turned over by the trustees, have been $241,877 10. On the 1st of January, contracts for the sale of lands, upon which there remained due upwards of $2,500,000, were placed in the hands of the Farmers' Loan and Trust Company, to secure an issue of bonds to the amount of $1,000,000, of which there have been sold to this date $335,000, at 95 per cent and accrued interest, and

the proceeds devoted to the further improvement of the property.

The above is submitted as preliminary to a more detailed report to be presented hereafter.

WM. DOWD, President.

New York, April 11, 1878.

Virginia State Debt.

A dispatch, dated Richmond, Va., April, 13th, says:

In accordance with the act of Assembly, commonly known as the Babcock Fowler Funding bill, Gov. Holliday has issued his proclamation inviting the creditors of the State to refund their bonds into new ones, which are to bear interest at the rate of 3 per cent for 18 years, and 4 per cent for 32, and to be non-taxable by State, counties, or cities. No coupon bonds are to be issued. The total debt is about $30,000,000; two-thirds of it is in "consols" bearing 6 per cent interest and having coupons attached, which coupons are "receivable at and after maturity for all taxes, debts, dues, and demands due the State." As the State makes no provision for paying interest, these coupons come into the Treasury in lieu of money for taxes. They are worth between 83 and 84 cents in the dollar. The greater part of the remaining $10,000,000 of the debt is in what are called "peeler" bonds, the coupons of which are not receivable for taxes. The peelers cannot be funded under the new act until $15,000,000 of consols are deposited for funding thereunder. Non-interest bearing certificates are to be issued for past due interest. In view of the recent decision of the Supreme Court of Appeals of Virginia fortifying the "consol" holders against any attempts to invalidate their self-collecting coupons, it is not believed here that any considerable number of them will acquiesce in the funding proposed. When they accepted the provisions of the act of 1871-2 they relinquished, (as thought to be justly due by West Virginia,) one third of the principal. Now, they are requested to give up one-third of the interest on their reduced principal.

☞ It is said that a single track of the iron bridge of the Pennsylvania Railroad Company over the Raritan river, near New Brunswick, N. J., will be ready for trains to pass over on the 15th of May, when the wooden trestle bridge will be removed to permit the iron bridge to be completed.

☞ On the 1st of May the Comptroller of New York will pay the interest on $120,803,460 04 of city stocks and bonds; the interest amounting to $3,503,929 09, of which latter sum the Sinking Fund Commissioners will receive $798,783 68 on their investment of $31,192,750 04.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending on April 6th, the total anthracite production, as reported by the several carrying companies, amounted to 282,805 tons, against 382,689 tons in corresponding week last year, a decrease of 99,884 tons. The total amount of anthracite mined for the coal year is 2,877,894 tons, against 3,715,201 tons for same period last year, a decrease of 837,307 tons. The quantity of bituminous coal sent to market for the week amounted to 67,245 tons, against 61,031 tons in corresponding week last year, an increase of 6,214 tons. The total amount of bituminous mined for the year is 505,259 tons, against 671,944 tons for corresponding period last year, a decrease of 166,685 tons. The total tonnage of all kinds of coal for the week is 350,050 tons, against 443,720 tons in corresponding week last year, a decrease of 93,670 tons. The total tonnage of all kinds of coal for the coal year is 3,383,153 tons, against 4,387,145 to same date last year, a decrease of 1,003,992 tons. The stock of coal on hand at at Perth Amboy was about 60,000 tons on Saturday, April 6, compared with about 140,000 tons at the corresponding date last year. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days of March was 34,930 tons, of which 27,398 tons were coal, and 7532 tons coke. The total carried for the year is 1,076,380 tons, of which 835,299 tons were coal and 241,081 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried 51,600 tons of coal last week to Port Richmond, whil t 36,000 tons were shipped thence, leaving the stock on hand at Port Richmond about 101,800 tons.—*Phila. Ledger, April* 15.

Discarding the Dummies.

After nearly a year's trial, the dummies on the Market street road have proven a failure, and they will be withdrawn after to-day. The most patient experiments have been made by the managers of the West Philadelphia Passenger Railway Company, with the verdict in favor of horse cars. Steam cars, they say, are too heavy for the tracks, weighing seven and a half or eight tons, and when laden, reaching nearly ten tons, while the ordinary passenger cars weigh when packed about five and a half tons. This additional weight has had the effect of destroying tracks and increasing the expenses of maintenance of way to a large sum. Not only have they found that the dummies wear out the track much faster than the horse cars, but they disjoint the sleepers and bolts, and in a short time necessitate an entire rebuilding of the road.

The ordinary tracks and road beds of the street car lines are said to be entirely too light for the dummies. This has been the experience of the Market street management. A heavier rail than is now used they think would be required. In fact, what is known as a "T" rail would seem to be the only one fitted for the dummies. On one point there seems to be no dispute, and that is this, that when the dummies start and in their movements the oscillations are such as to cause the tracks to spread, and the jolts make the wooden pins and iron bolts in the sleepers and wooden supports start, thus causing a continual drain for repairs. Another objection to the present steam motor is the disagreeable odor which pervades it from the oil and the escaping steam. This is annoying to passengers.

Numerous letters have been received from all parts of the country soliciting inquiries as to the practical workings of the steam cars, but from the experience obtained it has been impossible to answer the inquiries. Street railroad agents differ as to the cost of running the dummies. Some find that, at the lowest calculation and under the most economical management, the steam car costs $1 50 per day more than the horse car. One of the officials of the Market street road holds that the experiment they have made with the dummies has not been an exhaustive and fair one as regards whether steam motors are cheaper than horse cars, because the company has not been paying the costs of repairs, but have merely been standing the expense of maintenance, for fuel, oil, engineers and conductors, while the entire receipts went to the company.—*Phila. Record, Apl.* 18.

New York, Saturday, April 27, 1878.

Ohio and Mississippi Railroad.

The committees of the directors of the Ohio and Mississippi Railroad Company and the holders of the Springfield Division bonds have agreed upon terms for a reorganization of the company, and have prepared a report, which is to be submitted to the parties in interest for their ratification. The total amount of the Springfield bonds issued is $8,000,000, of which the Ohio and Mississippi hold $1,000,000, and the remainder is held by individuals. Upon these bonds the coupons due November, 1877, are unpaid, and these, together with the coupons maturing May and November, 1878, are to be funded. The Ohio and Mississippi Railroad Company and the individual bondholders are each to surrender $500,000 of their bonds. Upon the second mortgage bonds of the Ohio and Mississippi Railroad there are three coupons in arrears. These, with that which will fall due October, 1878, it is proposed to fund in ten years bonds bearing 7 per cent interest, the original coupons to remain as security in the hands of trustees. This plan will make the first coupon on the Springfield bonds due first May, 1879, and on the second mortgage bonds due 1st April, 1879. The floating debt of the company amounts to $650,000, of which $112,000 is provided for and is ordered by the court to be paid by the receiver. The remaining $538,000, it is expected, will be provided for by the sale or hypothecation of the $500,000 Springfield bonds to be retained by the company and from the earnings of the road. On the first mortgage bonds one coupon, due January, 1878, is in arrears, which it is expected will be paid by 1st July next, and it is further expected that the arrearage will be absorbed by the time the terms of reorganization are completed. The funding of the coupons on the Springfield and second mortgage bonds will increase the funded debt of the company about $800,000, which is more than offset by the surrender of $1,000,000 of the Springfield bonds.

Gilbert Elevated Railroad.

Mr. William Foster, Jr., president of the Gilbert Elevated Railroad Company, sent into the Board of Alderman on the 23d inst. a communication in answer to a resolution of that body asking for information as to the progress of work on the rapid transit roads. In this communication Mr. Foster says:

Under the charter of the Gilbert Elevated Railway Company and the requirements imposed by the Rapid Transit Commissioners acting by appointment of the Mayor under the provisions of the act of June 18, 1875, a section of five miles was required to be built and finished within a given time, and in a very short while it is expected that trains will be running from the Central Park to Morris and Church streets. Surveys have been made on the line of the Ninth avenue, north of Sixty-first street, and in connection with the New York Elevated Railroad Company work will shortly be taken in hand at the iron mills to complete the road as far north as Eighty first street. The Gilbert Elevated Railway Company having made a contract to build and equip its entire line, and the unparalleled vigor with which the work has been driven day and night since the time of the company's release from legal obstruction, as well as the manifest interest of the managers in extending the construction throughout its entire route constitute the best proof that there is no legislative action which could make it possible to extend the advantages of rapid transit more rapidly than they are being extended at present by the companies charged with the construction of the roads.

Central Railroad of New Jersey.

Receiver Lathrop has given public notice that the agreement for an adjustment of the affairs of the Central Railroad of New Jersey has been duly signed by a majority of stockholders and other interested parties, and is binding. Ten per cent is to be paid in at once. The mortgage bonds to be given for the cash payments will bear interest from May 1, 1878, and those making payments prior to that date will be allowed interest up to that time. Payments can be made in full, or in five equal installments falling due on the first days of May, August and November, 1878, and February and May, 1879. Interest must be paid on all deferred payments and adjusted at the final payment. Stockholders will, at the time of making payment, deliver for cancellation 10 per cent of the stock by them held. The new mortgage bonds and the income bonds not being ready for delivery, receipts will be given both for the cash payments and the shares delivered for cancellation, and said receipts will be exchanged for the mortgage bonds and income bonds in sums of $100 and the multiple thereof as soon as they are ready for delivery. The new bonds will be in denominations of $1,000, $500 and $100.

The Coal Combination.

At a meeting of the Anthracite Board of Control, held in Philadelphia on the 16th inst., the tonnage for May was fixed at 1,805,000 tons, which were distributed as follows: Philadelphia and Reading Railroad Company, 500,000 tons; Lehigh Valley Railroad Company, 200,000 tons; Central New Jersey Railroad Company, 175,000; Delaware, Lackawanna and Western Railroad Company, 150,000; Delaware and Hudson Canal Company, 100,000; Pennsylvania Railroad Company, 105,000; Pennsylvania Coal Company, 75,000 tons. This makes the total tonnage for this year, up to and inclusive of May 31st, 5,260,634 tons, against 7,500,000 tons for the same period last year, a difference of 2,239,366. The total quota for May is about 180,000 tons less than the tonnage for April, whilst the allotment of the

Philadelphia and Reading Railroad is about 182,000 tons greater.

Contract for the Sale of 4 1-2 per ct. Bonds.

The following is a copy of the contract entered into by Secretary Sherman and the syndicate for the sale of 4½ per cent bonds:

This agreement, entered into the 11th day of April, 1878, between the Secretary of the Treasury of the United States of the first part and Messrs. August Belmont & Co., of New York, on behalf of Messrs. N. M. Rothschild & Sons, of London, England, and associates and themselves; Messrs. Drexel, Morgan & Co., of New York, on behalf of Messrs. J. S. Morgan & Co., of London, and themselves; Messrs. J. & W. Seligman & Co., of New York, on behalf of Messrs. Seligman Brothers, of London, and themselves; Messrs. Morton, Bliss & Co., of New York, on behalf of Messrs. Morton, Rose & Co., of London, and themselves, and the First National Bank of the City of New York, witnesseth:

That the said August Belmont & Co., on behalf of Messrs. N. M. Rothschild & Sons, and associates and themselves, hereby agree to purchase from the Secretary of the Treasury $4,125,000 of the 4½ per cent bonds of the United States, issued under the acts of July 14, 1870, Jan. 20, 1871, and Jan. 14, 1875; and that Messrs. Drexel, Morgan & Co., on behalf of Messrs. J. S. Morgan & Co. and themselves, agree to purchase $1,625,000 of said bonds, and that Messrs. J. & W. Seligman & Co., on behalf of Messrs. Seligman Brothers and themselves, agree to purchase $1,625,000 of said bonds; and that Messrs. Morton, Bliss & Co., on behalf of Messrs. Morton, Rose & Co. and themselves, agree to purchase $1,625,000 of said bonds, and that the First National Bank of the City of New York agree to purchase $1,000,000 of said bonds, making a total aggregate of $10,000,000 of said bonds on the terms and conditions following:

First—The bonds covered by this contract shall be sold for resumption purposes.

Second—The parties of the second part shall have the exclusive right to subscribe in the same proportion to each of the subscribers for the remainder of $50,000,000 4½ per cent bonds of the United States, authorized to be issued by the acts of Congress aforesaid, but the amount to be so subscribed shall not be less than $5,000,000 for each and every month after the present month.

Third—That the Secretary of the Treasury shall not sell, during the continuance of this contract, any bonds other than such as by act of Congress may be provided to be sold for the payment of the Halifax or Geneva awards; and the 4 per cent consols of the United States, and those only for refunding purposes, except by mutual agreement of the parties hereto.

Fourth—The parties of the second part agree to pay for said 4½ per cent bonds par and 1½ per cent premium and interest accrued to the date of application for delivery of said bonds in gold coin or matured United States gold coin coupons, or any of the 6 per centum 5 20 bonds heretofore called for redemption, or in United States gold certificates of deposit of authorized designated depositaries that have complied with the law.

Fifth—The parties of the second part shall receive in gold coin a commission of one half of 1 per centum on all bonds taken by them under this contract, as allowed by the act of July 14, 1870, and shall assume and defray all expenses which may be incurred in sending bonds to London or elsewhere upon their request, or by transmitting bonds, coupons, or coin to the Treasury Department at Washington, including all cost of making the exchange of bonds, and shall also be charged with the cost of the preparation and issuing of the bonds.

Sixth—No bonds shall be delivered to the parties of the second part, or either of them, until payment shall have been made in full therefor in accordance with the terms of this contract.

John Sherman, Secretary of the Treasury, and Messrs. J. & W. Seligman & Co., Morton, Bliss & Co., August Belmont & Co., The First National Bank of New York, Drexel, Morgan & Co. And witnessed by Assistant United States Treasurer Thomas Hillhouse and E. G. Babcock.

The foregoing is copied from an official copy furnished by Secretary Sherman in accordance with a request of the House Committee on Banking and Currency.

California and Consolidated Virginia Mines.

The proportions of gold and silver in the March bullion product of the bonanza mines were as follows:

	Gold.	Silver.	Total.
California.....	$907,366	$900,197	$1,807,563
Con. Virginia...	713,624	869,136	1,582,760
Totals.....	$1,620,990	$1,769,333	$3,390,323

The totals for the first quarter of the current fiscal year for each mine were as follows:

	California		Con. Virginia.	
	Gold.	Silver.	Gold	Silver.
Jan..	$861,083	$912,986	$747,525	$865,637
Feb.	852,758	882,266	696,026	841,784
Mar.	907,366	900,197	713,624	869,136
Tots.	$2,621,207	$2,695,449	$2,157,175	$2,576,557

The bullion from the California mine for the quarter has run very nearly half and half, while that from the Consolidated Virginia has carried 45¼ per cent gold and 54¼ per cent silver. The gross yield of both mines for the quarter has been as follows:

Gold—		
California.....		$2,621,207
Consolidated Virginia.....		2,157,175
		$4,778,382
Silver—		
California.....	$2,695,449	
Consolidated Virginia.....	2,576,557	
		5,272,006
Total.....		$10,050,388

During the corresponding quarter last year these mines produced only $6,357,300, of which the California yielded $4,992,800 and the Consolidated Virginia, $1,364,500.

Buffalo, Corry and Pittsburgh Railroad.

The Buffalo, Corry and Pittsburgh Railroad, extending from Corry to Brocton, a distance of forty-three miles, was sold at Mayville, on the 19th inst., on an order from the Supreme Court of New York, and the Common Pleas Court of Erie, at the suit of A. H. Barney, trustee, against Wm. Phillips and the Allegheny Valley Railroad Company. The plaintiff had a judgment of $150,000 against the Valley Railroad Company, Wm. Phillips having purchased the road, and given the notes of the company with his own endorsements. The road was bought in by Mr. Barney for $75,000, John Scott, Wm. P. Shinn, David McCargo, and John H. Hampton being present at the sale in the interest of the Allegheny Valley Railroad Company.

Columbus and Toledo Railroad.

The directors of the Columbus and Toledo Railroad Company, elected on the 10th inst., are: M. M. Greene, William G. Deshler, D. S. Gray, Isaac Eberly, P. W. Huntington, E. L. Hinman and John Greenleaf, of Columbus; J. D. Van Deman, of Delaware; A. H. Kling, of Marion; McD. M. Carey, of Crawford; Samuel M. Young, Abner L. Backus and H. S. Wallbridge, of Toledo.

The directors organized by electing the following named officers: M. M. Greene, President James A. Wilcox, Secretary and Treasurer; Orland Smith, General Superintendent; M. T. Seymour, Assistant Superintendent; T. J. Janney, Auditor, and W. A. Mills, General Freight and Ticket Agent.

Boston and Albany Railroad.

The Boston Journal says that the election of Hon. D. Waldo Lincoln as President of the Boston and Albany Railroad to fill the vacancy caused by the resignation of Hon. Chester W. Chapin, will give great satisfaction to the stockholders and to the patrons of the road. He was connected with the Boston and Worcester Railroad previous to consolidation, and during Hon. Ginery Twichell's term of service in Congress he was Vice President and the acting manager. When the two roads—Boston and Worcester and Western Railroad—were consolidated in 1867 he was chosen Vice President, and this position he has since retained, performing the responsible duties with marked fidelity. His executive ability, coupled with his thorough knowledge of the road, renders the selection the best that could have been made.

Northern Central Railway.

At the Annual Meeting of the Stockholders of the Northern Central Railway Company, held in Baltimore on the 28th of February, the following Report of the Directors was presented and adopted:

OFFICE OF NORTHERN CENTRAL RAILWAY CO.,
BALTIMORE, February 28, 1878.

To the Stockholders of the Northern Central Railway Company:

Your directors submit the following report of the operations of the company for the year ending December 31st, 1877.

The revenue of your main line, with its leased and controlled roads, was as follows:

From passengers.....	$698,177 40
" freight.....	3,152,692 66
" express.....	69,278 29
" mails.....	46,191 05
" miscellaneous.....	104,048 88
Total.....	$4,070,387 78

And the operating expenses were:

For conducting transportation.....	$862,697 63	
For motive power.....	709,405 80	
For maintenance of way	844,164 89	
For maintenance of cars	255 441 69	
For general expenses..	74,215 33	
		2,745,924 84
Leaving as net earnings.....		$1,324,462 94

In comparison with the year 1876 there was a decrease in gross earnings of $299,527 72, equal to 6.85 per cent.

The ordinary operating expenses for the year 1876 were.....	$3,036,485 81
The extraordinary expenditures for betterments charged to operating expenses, but stated last year in a separate item, were.....	205,839 81
Making total expenses for 1876..	$3,242,325 62
The expenses for 1877, above stated, which include similar expenditures for betterments, amounting in the aggregate to $135,433 74, were.....	2,745,924 84
Showing a decrease in expenses of. or 15.31 per cent less than 1876.	$496,400 78

The increase in net earnings was $196,868 06.

In addition to the net earnings as above stated of		$1,324,462 94
There was received from dividends and interest		184,814 33
And contribution for operating Elmira, Chemung, and Canandaigua Divisions, (from Pennsylvania Railroad Company)		65,770 23
Total net receipts		$1,575,047 50
Which has been applied as follows:		
Interest on lien to State of Maryland	$90,000 00	
Interest on $1,490,000 Mortgage bonds, due 1885	89,400 00	
Interest on $1,126,000 Mortgage bonds, due 1900	67,560 00	
Interest on $2,804,000 Gold Mortgage bonds, due 1900	168,240 00	
Interest on $4,518,000 Consolidated General Mortgage gold bonds, due 1904, viz: on $2,960,000, 12 mos. from Jan. 1, 1877	$177,600	
And on $1,558,000, 6 mos. from July 1, 1877	46,740	
	224,340 00	
Interest on $1,000,000 second general mortgage, 6 per cent convertible bonds	60,000 00	
Interest on $3,000,000 second general mortgage, 5 per cent bonds	150,000 00	
Total interest on entire mortgage indebtedness of the company	$849,540 00	
And has been further applied to the following items:		
Interest, discount, gold premiums, taxes, &c.	111,493 61	
Rents and interest on mortgages and ground rents	46,442 85	
Rental Shamokin Valley & Pottsville Railroad	52,167 00	
Interest and gold premium on bonds Shamokin Valley and Pottsville Railroad	145,625 30	
Interest on equipment Shamokin Valley and Pottsville Railroad	11,794 54	
Rental Elmira and Williamsport Railroad	165,000 00	
Interest on equipment Elmira and Williamsport Railroad	39,164 58	
Dividends Chemung Railroad	22 800 00	
Interest on equipment Chemung Railroad	14,622 97	
Rental Elmira, Jefferson, and Canandaigua Railroad	25,000 00	
Interest on equipment Elmira, Jefferson and Canandaigua Railroad	29,691 31	
		$1,513,842 11
Balance of net income for 1877, carried to credit of profit and loss account		$61,705 39

It will be observed that in the above statement of the fixed annual charges for interest, rentals, etc., the item of $146,625 30, being interest and gold premium upon the $2,000,000 seven per cent gold bonds of the Shamokin Valley and Pottsville Railroad Company, appears for the first time. The interest upon these bonds, heretofore paid by your company, has been charged as an advance against the operations of the coal property owned by the Shamokin Valley and Pottsville Railroad Company, it having been expected that the net earnings of the mines would provide for the advances. It has, however, been decided by your Board to charge, hereafter, the interest on these bonds to the annual income account, crediting to that account the net earnings derived from the operations of the coal property. Accordingly, the entire amount of accrued interest to December 31st, 1876, has been charged to profit and loss, and the interest for 1877 has been charged to the income account for the year, as already stated.

Notwithstanding the fact that this large additional charge has been made to the income account, and that no credit has been taken for the net earnings of the coal property, which have not as yet been paid over to your Treasurer, amounting to $81,599 91; notwithstanding, also, the expenditure above stated of $135,433 74 for betterments to your property, it will be observed that the net earnings of the company have exceeded the charges of all kinds against the same, by the sum of $61,705 39.

The following tables exhibit the sources of revenue and expenses of the several lines of the company for the year 1877, compared with those for 1876.

Receipts from—	Main Line.	Green Spr. Br.	Sham. Div.	Elmira Div.	Chem. Div.	Canand. Div.	Total.
Freight	$2,004,989 86	$4,922 94	$272,825 60	$417,810 10	$141,567 00	$310,577 16	$3,152,692 66

Canandaigua Division..	0.775	1.070	0.295	47
Total average.....	0.747	1.135	0.388	

The earnings per mile of road were as follows:

Northern Central Railway—			
Baltimore Division.....	91	miles,	$18.688 03
Susquehanna Division...	47	"	19,770 18
Main Line	138	"	19,056 59
Green Spring Branch.....	9	"	825 32
Shamokin Division.....	28	"	10,485 65
Elmira Division	78	"	7,079 05
Chemung Division.....	22	"	8,944 22
Canandaigua Division.....	47	"	8,310 90

The tonnage of the main line of the Northern Central Railway was increased 119,556 tons, with a decrease in earnings of $20.521 47.

On the Shamokin Railroad the increase of tonnage was 249,492 tons, increase in earnings, $19,-922 26. On Elmira Railroad, increase in tonnage, 281,794 tons, decrease in earnings, $25,210 77. On Chemung Railroad, decrease in tonnage, 36,-494 tons, decrease in earnings, $29,198 75. On Canandaigua Railroad, decrease in tonnage, 33,-335 tons, decrease in earnings, $21,428 67. On Green Spring Branch, increase in tonnage 134 tons, decrease in earnings, $1,158 26.

The total number of tons and tonnage mileage, and the revenue derived from the same, on all lines of the company, were:

	Tons.	Money.	Tons 1 mile.	Rate per ton per mile.
1877.	6,160,171	$3,152,692 66	277,752,734	1.135
1876.	5,579,024	3,230,288 32	253,552,485	1.274
Inc..	581,147	.....	24,200,249	....
Dec .	.....	$77,595 66	.....	0.139

The coal tonnage of the Northern Central Railway in 1876 was 832,172 tons, and in 1877, 899,-151 tons. There was a decrease in the trade going on to the Pennsylvania Railroad at Marysville and Dauphin of 90,016 tons. There was a decrease of 19,189 tons to points on the Cumberland Valley Railroad. The total tonnage to Baltimore was 314,590 tons, an increase of 53,305 tons in 1877.

The coal tonnage of the Shamokin Branch in 1877 was 818,178 tons, in 1876, 587,274 tons—showing an increase of 230,904 tons.

The coal tonnage of the Elmira and Williamsport Railroad in 1877, was 613,426 tons, and in 1876, 377,522 tons—an increase of 235,904 tons. The decrease from the McIntyre Mines, near Ralston, was 23,499 tons. In the north-bound anthracite trade there was an increase of 50,042 tons.

The coal tonnage of the Chemung Railroad was decreased from 740,756 tons in 1876 to 706,520 tons in 1877—a total decrease of 34,236 tons.

The decrease from the Blossburg region was 112,713 tons, and the coal trade from this company's lines, and from the Lehigh Valley and Tioga and Elmira State Line Railroads, was increased 78,477 tons.

On the Canandaigua Railroad the coal tonnage of 1876 was 552,651 tons, in 1877, 524,068 tons—a decrease of 28 583 tons. There was a decrease of 61,517 tons in shipments to Coal Point, at Watkins, New York, and a net increase of 32,934 tons in shipments to other stations.

It will be observed that with an increase of over nine per cent in the tonnage mileage, there was an actual decrease of $77,595 66 in the aggregate freight receipts as compared with 1876. This decrease is entirely due to the low rate upon coal by reason of the ruinous competition throughout the year between the great anthracite coal mining and carrying companies.

The good results expected from the erection of the Grain Elevator at Baltimore have been fully realized. Not only have the facilities it affords enabled your company to secure a much larger proportion of the grain traffic than ever before, but it has in itself proved a profitable investment, the net revenue received for handling and storing the grain having, since it was put in operation, yielded over 7 per cent interest on the entire cost.

Your Board, acting under the authority conferred upon them, have disposed of 1,635,000 consolidated general mortgage gold bonds. The amount realized from these sales was $1,433,404 16, which was applied as follows:

To the payment of $500,000 York and Cumberland bonds, due January 1st, 1877.....	$500,000 00
To reduction of bills payable.....	933,404 16
	$1,433,404 16

It will be observed that the amount of bills payable has been reduced from $1,345,822 56 on December 31st, 1876, to $376,557 77 on December 31st, 1877—being a reduction of $968,764 79.

This has resulted from charging directly to this account the discount on all the company's bonds sold, and all the interest paid (prior to 1877) on the bonds of the Shamokin Valley and Pottsville Railroad Company; your Board, after a very careful consideration of the subject, having deemed it wise to adopt this course. They have also directed that sundry old claims paid, together with the depreciation of certain securities held by the company to represent the same at their market value, be charged to profit and loss.

The profit and loss account is, therefore, stated as follows:

To discount on $1,635,000 Consolidated General Mortgage bonds, sold during the year.....	$201,595 84	
To suspense account, being balance of discount on Consolidated General Mortgage bonds, sold prior to 1877	88,719 15	
To depreciation in market value of certain bonds and stocks held by the company.....	25,378 17	
To interest and gold premium paid on the bonds of the Shamokin Valley and Pottsville Railroad Company, prior to 1877, and charged to that company.....	238,010 63	
To sundry old judgment claims paid during the year.....	58,399 18	
	$639,103 02	
By balance Dec. 31st, 1876.	$176,546 77	
By insurance fund.....	1,000 00	
By rebate of Inter-State tonnage tax from State of Pennsylvania.....	31,437 28	
By net income for 1877..	61,705 89	
	270,689 44	
Debit balance.....	$368,413 58	

Your Board believes that, after having made the above charges to the debit of profit and loss account, there remains nothing on your balance sheet which is not represented at its fair value to-day.

It will be observed that there appears in the foregoing statement four items, to wit: Discount on $1,635,000 Consolidated Bonds, Suspense Account, etc., on Shamokin Valley and Pottsville Railroad Company's Bonds, and sundry old judgments, etc., aggregating $586,724 85, which are not likely to occur again in the accounts of the company. While, therefore, the profit and loss account shows a debit of $368,413 58, it is created entirely by the charges referred to, the Board believing it to be a wise policy to make the changes as above stated.

The following table will show the results for 1877 of the Mineral Railroad and Mining Company:

Receipts	$856,655 89
Expenses, taxes, &c	801,954 42
Net earnings for 1877.....	$54,701 47
Less amount paid for royalty on coal.	7,301 50
Net profit for the year.....	$47,399 97

This company produced 309,720½ tons of coal, the average price received at a point of sale per ton being $2 71.6.

Two-thirds of the net revenue of the Mineral Railroad and Mining Company belongs to your company, and one-third to the Pennsylvania Railroad Company, under the existing arrangements between it and your company, by which each contributed certain coal lands to be operated by the Mineral Railroad and Mining Company in the proportions stated. In addition to this profit there is an unadjusted account for 1876 of about an equal amount, which will appear in the accounts of this company for the year 1878.

All of which is respectfully submitted.

By order of the Board of Directors.

Thomas A. Scott, President.

☞ At Richmond, Va., on the 23d inst., the United States Circuit Court decided in the case of the Atlantic, Mississippi and Ohio Railroad, on the petition of persons who had furnished iron and other supplies to that road before the appointment of receivers, that such claim could not be paid until the mortgage on the road had been satisfied. The court also decided that the claim of employes who had worked on the road before it was placed in the hands of a receiver could not be settled until the mortgagees had been paid off.

☞ At the recent monthly meeting of the Baltimore City Passenger Railroad Company, the quarterly, or April, dividend was not declared. In 1877 the company declared four dividends, viz: $1 a share payable in January, 50 cents for May, 75 cents for July, and 75 cents for October—total $3. In January, 1878, a semi-annual dividend of $1 a share was paid. The par value of the shares is $25.

☞ In accordance with the plan of reorganizing the New Jersey Central Railroad, 116,000 shares of stock and $19,000,000 of various outstanding bonds have been secured.

☞ The Sabine Pass, Sherman, Whitesboro and Gainesville Narrow Gauge Railroad is now graded to Farmersville within thirty-eight miles of Sherman.

☞ Vice President Dr. Norvin C. Green has been chosen President of the Western Union Telegraph Company in place of the late William Orton.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

(Asterisk *) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

St. Louis City Bonds.

The bid of Messrs. J. S. Morgan & Co., of London, for the $1,328,000 St. Louis City bonds, viz $1,010 in currency per bond, has been accepted, and the sale to them has been formally consummated. About a year and half ago the City and County of St. Louis separated, and the city assumed the county debt, aggregating about $8,000,000, and took in exchange all the county property within the municipal limits, including court houses, jails, charitable institutions, &c. The new bonds are renewal bonds, for the purpose of taking up old 6 and 7 per cent bonds, maturing April 1, $865,000 being county bonds and $463,000 city sewer bonds. They are dated May 1, 1878, are of the denominations of $1,000, United States gold coin, or £200; are payable 20 years after date, and bear interest at 5 per cent per annum, payable semi-annually in gold coin or sterling exchange, on Nov. 1 and May 1, at the National Bank of Commerce, in this City.

☞ A special from Tucson, Arizona, says Robert L. Lyman, the leading promotor, and Howard Schuyler, engineer of the Sonora Railway system, arrived from Guaymas, having made careful preliminary reconnoisances of the routes from Mazatlan to Arizona, and find three available routes, two with scarcely an obstacle of consequence. The route had also been examined eastward through Sonora and Chihuahua, with a purpose of first building a road to connect with the northern and eastern lines approaching El Paso, and next with Arizona. With some change granted in the present concession now being considered, active steps to an early construction would be taken.

☞ At a meeting of the Brooklyn Rapid Transit Commissioners on the 22d inst., the time for receiving communications relative to rapid transit schemes was extended from April 25th indefinitely. Gen. Newton was unanimously elected Consulting Engineer. On motion of ex-Supervisor Clements, who is one of the commissioners, E. Kolmyer was appointed Assistant Secretary to the Commissioners.

☞ The Cross-cut Railroad, from Corry, Pa., to Brocton, N. Y., on the line of the Lake Shore Railway, has been sold. It was purchased for $75,000 by the trustees of the mortgage bondholders. The road was intended as a feeder for the New York Central, but never paid its projectors.

☞ J. C. Bancroft Davis, trustee under the fifth consolidated mortgage, has obtained leave in the New York Supreme Court to discontinue the foreclosure suit against the Erie Railway Company under that mortgage, as interest in arrears in that suit has all been paid.

☞ The Salt Lake Tribune reports a survey in progress for a narrow gauge railroad from York to Frisco, in Utah, about 140 miles. The company proposing to build the road is composed of New York and Salt Lake capitalists.

☞ The subscriptions to the capital stock of the Baltimore and Delta Narrow Gauge railroad are being paid.

☞ The Northern (Cal.) Railroad was opened from Benecia to Fairfield on the 23d inst.

Houston and Texas Central Railway.

Comparative statement of earnings and expenses of the Houston and Texas Cental Railway for the months of March, 1877, and March, 1878, and for the eleven months ending March 31, 1877, and March 31, 1878:

	1877.	1878.
Earnings	$166,110 74	$174,528 19
Expenses (including taxes paid)	225,288 17	158,242 69
Net		$16,285 50
Deficit	$59,177 43	

Net gain for March, 1878, $75,462 93.

Eleven months ending March 31:

	1877.	1878.
Earnings	$2,783,567 04	$2,524,940 31
Expenses (including taxes paid)	1,862,787 52	1,570,857 20
Net	$920,780 52	$954,083 11

Increase of net earnings for eleven months ending March 31, 1878, as compared with last year, $33,302 57.

☞ At the recent meeting of the stockholders of the Atlantic City Passenger Railroad Company the following directors were elected: David C. Spooner, William G. Bartlett, Joseph N. Piersol, George W. Currie, Ernest Kretzmar, John Morgan and George W. Hinkle. The company has the right, under its charter, passed in 1869, to run cars through Atlantic City, between Absecon and Egg Harbor inlets, a distance of about nine miles along the shore.

☞ The Reno (Cal.) Journal of April 6th, says: Mr. William Johns, Superintendent of the Plumas Eureka and Sierra Buttes mines, situated near Quincy arrived in town night before last, having an escort protecting $30,000 in bullion brought along for shipment to San Francisco. Mr. Johns informs us that he is now employing 400 men at the mines and mills, and that everything is going along smoothly. The company intend to build a third mill this summer.

☞ The chairman of the committee of first mortgage bondholders of the Ashtabula, Youngstown and Pittsburg Railroad Company gives notice that if the holders of coupon No. 12, which matured on the 1st of October, 1877, on said bonds, will present them on and after the 24th of April instant, at the office of Semple & Jones, bankers, Pittsburg, the amount of said coupons ($35 each) will be paid in currency.

☞ A special cable despatch from London to the Toronto Globe says the Grand Trunk Railway report is published. The result of the half-year's operations show a net revenue of £256,000, against £177,000 for the corresponding half of last year, with extra charges for repairs and renewals of road and rolling stock of £66,000.

☞ The Car Trust Company of Pennsylvania has declared a quarterly dividend of 1½ per cent, and the Railway Equipment Trust Company of Pennsylvania one of 2 per cent, both payable at the office of the Pennsylvania Company for Insurance on Lives, in Philadelphia, on the 1st of May next.

☞ Forty seven miles of the Canada Pacific R. R. are laid with rails, and one hundred and thirty one miles graded.

American Railroad Journal.

Saturday, April 27, 1878.

Financial and Commercial Affairs.

More liberal offerings of Money in the local market have had the effect of further modifying loan and discount rates to borrowers in unexceptionable standing. The demand for aid has been less active, as well on speculative account as for mercantile purposes, and the tendency at the close was toward an easier range. Currency is now returning to this center from various points of the interior, and lenders find more difficulty in placing balances promptly, especially in a controllable form. Call loans were quoted here at from 4@7, with 5@6 per cent as the basis of the principal negotiations, and very choice to strictly prime mercantile credits were rated at 5@7, the best grades passing readily at 5@6 per cent per annum. The City bank exhibit of last week indicated a reduction in the loan and discount average of $3,905,000, and an increase in the item of circulation of $23,700. The average of deposits was augmented $126,800. The legal tender reserve was enlarged $3,519,900; and the specie average $449,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $17,608,550 (or the highest aggregate yet reached this year), against $13,671,350 the preceding week. The City bank exchanges in currency reached $426,180,360, or a daily average of $71,030,060.

The outstanding amount of legal tender notes is $347,911,055. The National bank circulation is now $321,417,344 of currency notes and $1,432,120 of national gold bank notes. National Bank

notes received at the Treasury Department last week for redemption were to the amount of $3,519,000.

More liberal dealings have been reported in Government Securities which have shown more firmness as to prices. The demand has been mainly from home buyers and for investment account. The offerings of the favorite issues have been on a restricted scale. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107½@107⅝; do. coupon, 107½@107⅝; do. 1865, new, registered, 104¼@104⅜; do. coupon, 104½@104⅜; do. 1867, registered, 107⅛@107⅜; do. coupon, 107⅛@107¼; do. 1868, registered, 110@110⅛; do. coupon, 110@110½; do ten-forties, registered, 105¾@105⅞; do. coupon, 105¾@105⅞; do. five per cents, 1881, registered, 104⅛@104¼; do. coupon, 105¼@105⅜; do. 4½ per cents, 1891, registered, 103⅛@103¼; do. 4 per cents, 1907, reg., 100½@100⅝; do. coupon, 100⅝@100⅝; do. sixes, currency, 118⅞@119.

The reported subscriptions to the new popular four per cent Government loan have been about 8⅛ millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,975,850, and $13,448,000 as security for public deposits.

The income of the Government from internal revenues last week was about 2⅞ millions, and from Customs last week about 2¾ millions.

Less activity has been noted in State bonds, prices of which, however, as a rule, have been fairly supported. Railway Mortgages have been in fair demand, mostly on investment account, at generally steady rates, for the favorite loans. And in the line of Railway and Miscellaneous share property business was fairly active early in the week at firmer, though irregular prices, but fell off in volume toward the close, and showed depression and feverishness in the market, partly due to realizations on speculative account, and partly the manipulation of specialties on the general list, with a view to breaking down values, in the interest of speculative operators.

Gold has been rather more active and a trifle stronger. The customs call has been on a more liberal scale. The export drain has been limited, but freer shipments are looked for at an early date, engagements for this week's outgoing steamers being representing as reaching about two millions, in good part on Canadian account. The extremes of the price during the week have been 100⅛@100⅝, closing on Wednesday at 100⅝ as against 100⅜ on Wednesday of the preceding week. The specie outflow last week reached only $239,800—making the total exports of specie hence since January 1, $5,490,921 against $4,595,894 the same time in the preceding year. The imports of specie at this port last week were to the amount of $1,567,655 (chiefly from Bremen and West Indies and Central America) and since January 1st have been $9,549,421 as against $6,147,928 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,879,000 or an average of $313,167 per day.

Foreign Exchange has been moderately active and as a rule quoted firm as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86¼@$4 87; sight bills on London at $4 88⅛@$4 89⅛ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,859,118 as against $5,442,170 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,399,783 of Dry Goods, and $4,459,335 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $5,676,331, against $5,626,807 same week in 1877; and since Jan. 1 have been $107,557,456 against $81,774,138 same time last year.

A moderate inquiry prevails for Metals which have been quoted generally about steady as to values. Eglinton Pig Iron quoted at $21 Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18@$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $32@$36. Old Rails $19@$19 50. (4000 tons deliverable at Albany sold on p. t.) Wrought Scrap $21@$22. Steel Rails, on the basis of $42@$45. (with further sales reported of 5,000 tons. Ingot Copper for prompt delivery has attracted less attention on the basis of 16¾@16⅞ for early delivery.

The Easter holiday observances interfered with business in Produce and Merchandise. Most kinds of Domestic produce have been less active. Breadstuffs have been, however, in generally good request, and Wheat, Corn, Rye, and Oats wanted for prompt delivery, at stronger prices. In Provisions the volume of dealings has been on a restricted scale, and buyers have had the advantage as to values. Further important purchasers of No. 2 Chicago Oats have been made for shipment to France and Belgium. Cotton has been in less request, and quoted lower. Naval Stores and Petroleum have been lightly dealt in at reduced prices. Foreign merchandise has been in moderate demand and quoted generally weaker as to values.

Light arrivals of Produce from the interior have worked against the export movement, and Ocean freights have been quoted depressed and lower on a restricted call for accommodation chiefly for Breadstuffs, Provisions, and Petroleum. Liverpool steamer rates at the close for Grain, quoted at 6½d. Flour, at 2s. 9d. Provisions, 27s. 6d.@35s.; Leather, 45s.@50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, ½d. per lb. Liverpool, by sail, Cotton, 15-64d. Grain at 6½@6¾d.; Flour, 2s.; Measurement Goods, 15s. Tobacco 27s. 6d.; Oil Cake at @20s. Grain rates on charter hence for Cork and orders left off at 5s. 9d.; for the Continent Grain at 5s. 3d.@6s. and from Baltimore for Cork and orders, 6s. 3d.@6s. 6d. and from Philadelphia at 5s. 9d.@6s. 3d.; and from Portland at 5s. 9d @6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 45s. 6d.@50s. Refined Petroleum hence for Liverpool at 3s. 4½d.@3s. 6d; for Bristol at 3s. 10½d. Cork and orders, 4s.@4s. 3d.; for the Continent, 3s. 3d.@3s. 9d. for the Baltic at 3s. 9d.@4s. and Java at 30@32ct. and Japan, 42@45cts. and for French ports (crude) at 3s. 9d.@4s. 3d. Gibraltar and orders at 4s. 3d.@5s. 6d.; do. in cases, from Phila. to Italian ports, at 22@26ct. Cotton by sail from New Orleans to Liverpool ¼d.; from Galveston, at 7-16d.@15-32d.; Ky. Tobacco from New York to Spain at 35s. and to Bordeaux at 35s. Naval Stores from Wilmington for Cork and orders at 3s. 6d.@3s. 9d. and 5s. 6d.@5s. 9d. and from Charleston or Savannah at 3s. 6d.@3s. 9d. and 5s. 6d.@5s. 9d. Lumber from New York to Montevideo at $14@25 and prime. Savannah or Brunswick to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 63s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 89s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool quoted at the close at 50@53ct. per 100lbs. as to routes.

Michigan Central Railroad.

The earnings of the Michigan Central Railroad for the seven months ending December 31, 1876 and 1877, were:

	1876.	1877.
Freight	$2,287,734	$2,516,686
Passengers	1,348,059	1,203,875
Miscellaneous	186,404	183,452
Totals	$3,822,197	$3,903,513
Operating expenses	$2,635,541	$2,401,760
Taxes	153,434	189,255
Totals	$2,788,975	$2,591,015
Net earnings	$1,033,222	$1,312,498
Ratio of expenses to earnings:		
Excluding taxes	68.95	61.52
Including taxes	72.96	66 37

The gross earnings of the seven months exceeded those of the same period in 1876 by $81,816; the expenses and taxes were $197,959 less; the net earnings were $279,275 greater, an increase of 27 per cent.

The gain on freight comes from an increase of 18-100 of a cent per ton per mile, on a tonnage reduced by 118,816 tons or 27,128,868 mile-tons. The decrease in receipts from passengers comes from a loss of 49,289 passengers, or 13,972,854 mile-passengers, modified by an increase of fare amounting to 28-100 of a cent per passenger per mile.

At the date of the report the floating debt had disappeared, and all taxes due had been paid. During the seven months about 3,000 tons of steel rail were laid, the entire cost being charged to operating expenses, making a total of 441 miles laid with steel, or all but 8 miles of the main and air line.

The income account shows an increase during the seven months of $477,000.

The condensed balance sheet of the company December 31, 1877, is as follows:

LIABILITIES.

Capital stock		$18,738,204 00
Bond accounts:		
Mortgage loan	$556,000	
First Sinking fund	1,508 000	
Second Sinking fund	671,000	
Equipment	556,000	
Air line	1,900,000	
Consolidated	8,000,000	
		13,191 000 00
Income account		8,030,905 92
Total		$34,960,109 92

ASSETS.

Construction account	$28,305,403 75
Construction account—branches	4,630,334 33
Sundry securities	720,578 10
Equipment bond trustees	545,245 82
Sleeping Car Company stock	12,733 34
Detroit and Bay City Railroad	255,351 78
Chicago and Michigan Lake Shore Railroad	97,840 19
Material account	256,656 28
Bills receivable	60,466 22
Miscellaneous accounts	42,616 90
Cash	32,882 51
Total	$34,960,109 92

The Sinking Fund Trustees have purchased and now hold: of First Sinking Fund bonds, $511,500; and of Second Sinking Fund bonds, $166,000.

☞ The "real estate and railway mortgage seven per cent of 1895" of the St. Louis Kansas City and Northern Railway Company, $3,000,000 in amount, have been admitted to the free list of the Stock Exchange. These bonds are a first mortgage on certain real estate of the company in Moberly, Kansas City and the city of St. Louis, and 12 miles of road running out of St. Louis, and a second mortgage on the entire remaining property, subject to a previous mortgage of only $6,000,000.

☞ The Erie Railway was sold by auction, on the 24th inst., in a foreclosure suit by the Farmers' Loan and Trust Company, under the Second Consolidated Mortgage, and was bought by ex-Gov. E. D. Morgan, David A. Wells and J. Lowber Welch, for $6,000,000, on behalf of the reconstruction trustees.

☞ The first consolidated mortgage bonds of the D., L. and Western Railroad Company, $10,000,000 authorized, with $2,820,100 reserved for the payment of all outstanding mortgage bonds, have been admitted to the regular list of the Stock Exchange, under the title of "Delaware, Lackawanna and Western mortgage 7 per cent of 1907."

Improved Brake for Street Cars.

A recent invention provides for street cars an improved rotary cumulative brake, by which the power lost in stopping the car is stored and utilized for starting the same; this is done by friction wheels worked by contact with the car wheel when applied by the brake lever, producing the winding up of one or more springs, the locking of the same by pawl and ratchet devices on the shafts of the friction wheels until the pawls are released by a treadle, and the power stored up in the springs applied to the wheels for starting the car. The brake mechanism may be used in either direction, the friction wheel shafts sliding in guide slots of the car frame. As soon as the car is desired to be started, the brake lever is held in backward direction, so as to press the friction wheels against the car wheels; but at the same time a treadle, operated by the foot, lifts one pawl out of the ratchet—this pawl releasing, by its pivot joint, the second pawl, so as to throw the joint power of the springs on the friction wheels, and by the same on the car wheels, thus assisting materially in starting the car.

Blank Powers of Attorney.

Judge Ludlow, of the Court of Common Pleas, Philadelphia, has rendered a decision, which is of interest to parties giving blank powers of attorney for the sale of stock. One Burton deposited with P. S. Peterson stock to be sold, together with a blank power of attorney. Peterson deposited the stock as collateral for a loan, and died insolvent. Suit was instituted by Burton to recover the stock's value and was decided in favor of the party making the loan. The judge held that when the owner of stock, in the ordinary course of business, and in the method common to all mercantile communities, by his own act has armed another, his agent or attorney with power to act for him, and when this agent or attorney deals with innocent third parties, who, without notice or intervening equity, advance money upon the faith of the evidences of title in possession of the attorney or agent, the owner takes every risk, and is bound by the act of the person whom he sees fit to hold out to the world as his attorney or agent.

☞ The directors of the Atlantic Avenue, Brooklyn, Railroad Company, recently elected, are: Charles R. Warren, John P. Douglass, Frederick A. Shroeder, William B. Hunter, James Binns, William Schwarzwaelder, Newbery H. Frost, William Richardson, Henry Knight, Thomas McCann, Charles Storrs, Benjamin F. Tracy, and Samuel W. Bowne.

☞ The Spencer, (Mass.) Railroad Company has effected a temporary organization with Charles N. Prouty for Treasurer and J. W. Temple for Clerk. Mr. Kendall has been engaged to lay out the road and will begin the work at once. The stock subscription has reached 500 shares, of which the town takes one-half.

☞ The West Union (Ohio) New Era says that the railroad between Portsmouth and Huntington is to be built immediately. The necessary stock has been already assured for its completion.

☞ Mr. Oscar Townsend has been appointed General Manager of the Cleveland, Tuscarawas Valley and Wheeling railway.

Commerce of New York.

The foreign imports at New York for the month of March, 1878, are officially stated as follows:

	1877.	1878.
Entered for consumpt'n.	$14,298,420	$12,729,463
Do. for warehousing	8,685 293	5 341,999
Free goods	9,011,078	6,967,442
Specie and bullion	2 407,504	1,526,737
Total entered at port	$34.402,295	$26,565,641
Withdrawn fr. wareh'use	5,866,653	6,201,146

The foreign imports at New York for three months from January 1, were:

	1877.	1878.
Entered for consumpt'n.	$38,628,128	$35,348,541
Do. for warehousing	19,361,169	15,368,328
Free goods	25,266,556	20,995,521
Specie and bullion	5,412,047	5,206,654
Total entered at port	$88,667,900	$76,919,044
Withdrawn fr. wareh'se	18,305,025	17,064,583

The foreign imports at New York for nine months of the fiscal year, were:

	1877.	1878.
Six months ending January 1	$147,027,452	$152,045,807
January	27,606 837	24,626,689
February	26,659,268	25,726,714
March	34,402,295	26,565,641
Total 9 months	$235,695,352	$228,964,851
Deduct specie	29,378,650	12,851,894
Total mdse	$206,316,702	$216,112,957

The duties received at New York for nine months ending with March, were:

	1876-'77.	1877-'78.
July	$7,497,199 39	$7,132,747 46
August	10 125,386 42	10,018,122 33
September	8,634,411 86	9,068,929 44
October	8,031,580 14	8,392,221 85
November	5 720,296 82	6,585,108 84
December	4,822.595 04	5,815,558 74
January	8,058,938 72	7,154,924 85
February	8,224,434 61	7,914,953 48
March	8,695,637 63	8,571,501 20
Total	$69,810,480 13	$70,654,069 19

The exports from New York to foreign ports in the month of March, were:

	1877.	1878.
Domestic produce	$19,299,772	$30,174,882
Foreign free goods	235,752	356,670
Do. dutiable	286,588	563,111
Specie and bullion	1,251,312	2,425,211
Total exports	$21,073,424	$33,519,224
Do. exclusive of specie	19,822,112	31,094,113

The exports from New York to foreign ports for three months from January 1, were:

	1877.	1878.
Domestic produce	$63,010,764	$85,201,077
Foreign free goods	818,957	994,711
Do. dutiable	1 058,278	1,425,426
Specie and bullion	3,490,061	4,565,846
Total exports	$68,378,060	$92,187,060
Do. exclusive of specie	64,887,999	87,621,214

The exports (exclusive of specie) from New York to foreign ports for nine months ending with March, were:

	1877.	1878.
Six months ending January 1	$151,493,685	$164,948,583
January	25,408,169	27,692,811
February	19,662.718	28 834,290
March	19,822,112	31,094,113
Total produce	$216,381.634	$252,569,747
Add specie	17,960,830	10,511,517
Total exports	$234,342,464	$263,081,264

The Grant Coal Co.

The Cumberland, Md., Times says that the Grant Coal Company of Baltimore, which has been operating for a long time on Dan's Mountain in search of coal, have, after penetrating the mountain 1,000 feet, come upon the strata of rock which is known to overlie the Six-foot vein, and which is about eighteen feet in thickness, so that but little more excavation is necessary to open up one of the finest veins of coal in the region. The mine will prove very valuable, for the reason that it lies above water line and is nearer to market than any other coal, and can ship to Cumberland at less than half the price that most other companies are paying. The Grant company own some eight hundred acres of this fine vein, and Dr. Samuel Smith, of Cumberland, owns some five hundred acres adjoining. The coal in this mountain cannot be exhausted under thirty years. The route of the proposed narrow gauge road is by the mouth of the Grant mine.

☞ A San Diego dispatch says "The Union special from Tucson Arizona, says: 'Robert A. Symon, the leading promotor, and Howard Schuyler, the engineer, of the Sonora Railway system, arrived from Guaymas recently, having made careful preliminary reconnoissances of the routes from Mazatlan to Arizona. They found three available routes, in two of which there is scarcely any obstacle of consequence. The route has also been examined eastward through Sonora and Chihuahua, with the purpose of first building a road to connect with northern and eastern lines approaching El Paso, and next with Arizona.'"

☞ The first installment of 20 passengers cars for the Gilbert Elevated Railroad arrived in this city last Saturday. They were built at the Pullman Palace Car Works at Detroit, and left that place on Thursday. They formed a special train, which ran the entire distance between Detroit and this city at the rate of 25 miles an hour. The cars are worth about $4,000 each, are elegant in design and workmanship, and seem to be built in a substantial manner. Passengers are protected against crowding in their seats by divisions made with metal arms, which are handsomely nickel-plated.

☞ The Staunton Virginian learns that arrangements have been perfected to commence work on the Shenandoah Valley railroad. Hon. Wm. Milnes, the president of the company, has been in the Eastern States for some weeks in the interest of the road, and the arrangements above alluded to bring to the aid of the enterprise the resources of the Cumberland Valley and Reading Railroad Company.

☞ Dun, Barlow & Co. report that for the three months ending March 31, 1878, the number of failures in the United States were 3,355, with liabilities estimated at $82,078,000. During the same period last year the failures numbered 2,859, and the liabilities amounted to $54,538,000.

☞ Mr. McAferty, engineer, and his staff, have commenced the survey of a propored railroad line, extending the line of the Miami Valley from Germantown to Harrisburg, in Franklin county, Ohio, in order to form a junction with the Columbus and Washington C. H. railroad at Harrisburg.

International and Great Northern Railway.

Justice Bradley, of the United States Supreme Court, sitting in Chambers at Washington on the 23 inst., granted an application made by the trustees under the consolidated mortgage, for the appointment of a receiver. With the consent of the trustees he then appointed to that position Mr. R. S. Hayes, now Vice President of the company. The company, which was formed in 1873 by the consolidation of the International and the Houston and Great Northern companies, owns some 520 miles of railroad in Texas; there are $7,848,000 first mortgage bonds issued by the two companies before consolidation, and $5,510,000 consolidated or second mortgage bonds, on which interest has been in default since January, 1874. The complaint of the trustees alleges that the net earnings last year were $505,000, barely sufficient to pay interest on the first mortgage bonds, and that the company has also a floating debt of $500,000.

☞ The British revenues for the fiscal year which closed March 31st were $398,816,495, an increase of $5,991,815 over the previous year. The chief sources of the British revenue were about 187 millions from excise duties, 100 millions from Customs, 55 millions from stamps, 29 millions from the income tax, 13 millions from the land tax, 30 millions post-office profits, and nearly 6 millions telegraph profits.

☞ The Canadian Spectator says that the coming season will witness a perfect exodus from Ontario and Quebec to the new Territories of the Northwest. The steamboats on Lake Superior have started on their first trips to Lake Superior with the advance guard, soon to be followed by thousands who regard the prairies of Manitoba and Saskatchewan as their true land of promise.

☞ The Philadelphia and Reading Coal and Iron Company has struck a mammoth vein in the Dart colliery, near Ashland, Schuylkill county. The seam is twenty-one feet in thickness and the coal is of excellent quality.

☞ Twenty miles of track on the North Wisconsin Railroad is to be built from Bayfield southward toward St. Paul during the coming summer.

☞ George E. B. Jackson has been elected President of the Maine Central Railroad Company, ex-Governor Coburn declining a re-election.

PATENT

MINERAL WOOL.

THE BEST

Insulator of Heat or Cold.

A 3 INCH LINING SUFFICIENT FOR

Hot Blast-pipes, Furnaces, &c.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

A. WHITNEY & SONS,

CAR WHEEL WORKS,

Callowhill and Sixteenth Sts.,

PHILADELPHIA, PENN.

FURNISH CHILLED WHEELS for Cars, Trucks and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES.

D. C. GAUTIER, H. DICKINSON.

The Coal Trade.

For the week ending on April 13th, the total anthracite production, as reported by the several carrying companies, amounted to 358,382 tons, against 430,148 tons in corresponding week last year, a decrease of 71,766 tons. The total amount of anthracite mined for the coal year is 3,236,276 tons, against 4,145,349 tons for same period last year, a decrease of 909,073 tons. The quantity of bituminous coal sent to market for the week amounted to 29,066 tons, against 76,913 tons in corresponding week last year, a decrease of 47,907 tons. The total amount of bituminous mined for the year is 534,265 tons, against 748,857 tons for corresponding period last year, a decrease of 214,592 tons. The total tonnage of all kinds of coal for the week is 387,388 tons, against 507,061 tons in corresponding week last year, a decrease of 119,673 tons. The total tonnage of all kinds of coal for the coal year is 3,770,541 tons, against 4,894,206 to same date last year, a decrease of 1,213 665 tons. The receipts at Perth Amboy for the week ending on April 13th were 12,702 tons, leaving a stock on hand of 72 913 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of April was 34,930 tons, of which 27,398 tons were coal, and 7532 tons coke. The total carried for the year is 1,181,175 tons, of which 919,573 tons were coal and 261,602 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried no coal last week to Port Richmond, whil t 25,000 tons were shipped thence, leaving the stock on hand at Port Richmond last Saturday about 76,800 tons.—*Phila. Ledger, April* 22.

Production of Pig Iron in the United States in 1877.

We present herewith complete statistics for the production of pig iron in the United States in 1877, compared with 1876. The grand total for 1877 was 2 314.585 tons of two thousand pounds, against 2,093,236 tons in 1876, a gain of 221,349 tons. Twenty-two states made pig iron in 1877. It may be remembered by our readers that, in the Annual Report of this Association issued in June of last year, we predicted an increased production of pig iron in 1877 over 1876, and that, in the last week of December of last year, we stated that the increase would be about 10 per cent. It was just 10⅓ per cent. As compared with other years immediately before and since the panic, the production of 1877 shows a decided reaction from extreme depression, but still falls far short of the country's best achievements. The figures are as follows: 1872. 2,854,558 net tons; 1873, 2,868, 278 tons; 1874 2,689,413 tons; 1875, 2.266,581 tons; 1876, 2,093,236 tons; 1877, 2,314,585 tons. The production in 1877 was about 50,000 tons greater than in 1875. The year 1876, the Centennial year, was the year of greatest depression, and 1873 was the year of greatest production.

Of the total production of pig iron in 1877, 1,061,94b net tons were bituminous coal and coke, 934,797 tons were anthracite, and 317,843 tons charcoal. In 1873, the year of greatest production, the proportions were as follows: anthracite, 1,912,754 net tons; bituminous coal and coke, 977,904 tons; charcoal, 577,620 tons. It will be seen that, while the production of anthracite and charcoal pig iron has largely fallen off, that of bituminous coal and coke pig iron has very materially increased.

The increased production in 1877 over 1876 was mainly of anthracite pig iron, New York, New Jersey, Pennsylvania, and Maryland all showing an increase. Comparative figures of the production of anthracite pig iron are as follows. 1876, 794,578 net tons; 1877, 934,797 tons; increase in 1877, 140,219 tons. There was also an increase in the production of bituminous coal and coke pig iron in 1877, as follows: 1876, 990,009 net tons; 1877, 1,061,945 tons; increase 71,936 tons. The production of charcoal pig iron in 1877 was but little in advance of the production in 1876. The figures are as follows: 1876, 808,649 net tons; 1877, 817,843 tons; increase, 9,194 tons. The total increase in 1877, as already stated, was 221,349 tons.—*Bulletin, Iron and Steel Association.*

HOLCOMB'S Improved Acoustic **TELEPHONE**

Patent Applied For.

For short lines the best and cheapest Speaking Telephone manufactured. I have a test line of over 1 mile in length that transmits the voice with such power as to be heard distinctly in all parts of an ordinary room. Illustrated circulars for stamp. Address J. R. HOLCOMB, Mallet Creek, Ohio.

ESTABLISHED IN 1836.

GEO. G. LOBDELL, Pres't.
WM W. LOBDELL, Sec.
P. N. BRENNAN, Treas.

Lobdell Car Wheel Co.,
Wilmington, Del.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

PERKINS, LIVINGSTON, POST & Co.,
23 Nassau Street,
NEW YORK.

EDWARD W. SERRELL,
CIVIL ENGINEER,
78 & 80 BROADWAY,
NEW YORK CITY.
Railroads, Bridges, Explorations.

☞ Particular attention given to the Examination of Public Works for Capitalists seeking Investments.

PATENTS.
T. D. STETSON,
Solicitor of American and Foreign Patents.
23 Murray Street, New York,
(Near New Post Office.)
Send for circular.

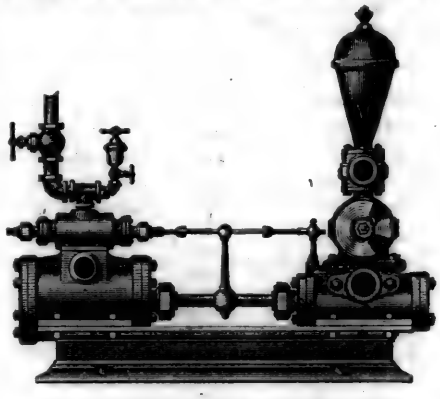
ATTORNEY & COUNSELOR AT LAW.
NOTARY PUBLIC.
241 Broadway, New York.

Special attention paid to Railroad, Mining and Manufacturing Interests.

THE ALMOND CHUCK



Is the BEST, most Elegant and Durable, simple and cheapest Chuck in the market. Thoroughly well made.
All Steel. Price $5.
T. R. ALMOND,
84 Pearl St, Brooklyn, N. Y.

SELF-OILING
CAR AXLE BOX.
No Waste of Oil. No hot journals. 82,000 miles run without re-oiling. Also
SHAFTING BOXES.
Call and examine boxes and certificates, or send for descriptive circular.
J. B. TOMLINSON,
80 & 82 White St., New York.
Or,
MARSHAL B. STAFFORD,
JAMES H. COVEL,
93 Liberty Street, New York.
☞ Trial Box furnished free on application.

LENG & OGDEN,
IRON & STEEL
MERCHANTS,
4 Fletcher and 212 Pearl Streets,
NEW YORK.
GENERAL AGENTS FOR
Lansdell & Leng's Lever and Cam Valves, for water, steam, gas, etc.
The Steam Water Station Company's Lansdell's Patent Steam Syphon Pumps.
Credenda Steel Gun Barrels, Moulds, etc.
Patent Weldless Cold Drawn Steel Tube Company.
Marsh Brothers & Co.'s Cast Steel, German Steel, Machinery Steel, Files, etc.

STEAM PUMPS.

IMPROVED NIAGARA STEAM PUMP.

Marine Steam Engines. Stationary Steam Engines Marine and Stationary Boilers. Hydraulic Elevators for Buildings. Pulleys, Shafting and Hangers a specialty.

American Railroad Journal.

New York, Saturday, May 4, 1878.

Dom Pedro II Railway.

From Rio de Janeiro, March 31, we learn that the Emperor and Empress of Brazil made an excursion into Minas Gerdes to open the Forum at Juix da Fora, as well as a section of forty kilometres of the Dom Pedro II Railroad, which traverses the Joam Ayres gorge of the Serra da Mantiqueira, the highest, with one exception, of the mountain buttresses of Brazil, and the point of maximum elevation of the railroad. The height of it in the gorge is 3,462 feet above the sea, the line rising thereto in 351 kilometers. The total length of the Dom Pedro II Railroad open to traffic is now 368 kilometers. Some heavy works had to be made to reach the summit of the gap, the line passing in the preceding ten kilometers through two tunnels of 450 and 420 feet respectively and a cutting of 108 feet in height. In the gap there is a great masonry revestment of 960 feet in length on each side and 80 feet in height, which contains about 12,000 cubic metres of stone and cost about $100,000. It was made by an American engineer in less than four months.

Madeira and Mamore Railroad.

A correspondent of the Philadelphia Record, writing from Para, Brazil, under date February, 5, 1878, says:

On the 29th of January, after twenty eight days, the Mercedita anchored in the harbor of Para. The city of Para—or, to give its full title, S. Maria do Belem do Grao Para—is situated on the river Para, one of the outlets of the Amazon, about seventy miles above its mouth. Its harbor is of the very best, large, and vessels of the greatest draught can anchor within a few feet of the wharves.

A short time before the arrival of the Mercedita the Emperor caused a proclamation to be made in relation to the expedition. It is too long to translate in full, but its import is about as follows: It is dated December 26 1877, and issues from the Department of Agriculture, Commerce and Public Works, directed to his Excellency, the President of the Province of Para, calling his attention to the fact that the Madeira and Mamore Railroad Company had completed their contract with Phillip and Thomas Collins, of Philadelphia, United States, for the immediate construction of the road, and as it was essential that that work should begin before the 25th of February, 1878, in order that the contract be unimpaired, requesting him to give both the company and the contractors all aid and protection consistent with the laws of the country. It concludes with the hope that the country and Province may soon feel the benefits of the completed road. It is signed by Thomas Jose Calho a' Almeido, Minister of the Department of Agriculture, Commerce and Public Works.

Utica, Ithaca and Elmira Railroad.

The Utica, Ithaca and Elmira Railroad was sold by auction on the 30th ult. to Daniel A. Lindley and Edward K. Goodnow for the English bondholders for $50,000, gold, subject to the claims of Gen. Wm. L. Burt, of Boston, and others, who represent that they have a lien to the amount of $60,000 upon the rolling stock and other property of the road. The indebtedness of the road consists of $1,500,000 7.30 bonds, of which $1,000,000 are held in England. The accrued interest amounts to $142,801. The purchasers have agreed to supply the means to complete and equip the road. New bonds are to be issued of the face value of the old bonds and accrued interest. It is understood that George T. Rice, representing H. S. King & Co., of London, the bankers of the English bondholders, will the President under the new organization.

Chicago, Milwaukee and Minneapolis R. R.

A special to the Chicago Tribune from Madison, Wis., says that the individual interests of H. H. Porter, of Chicago, and David Dows and Walston H. Brown, of New York, in the West Wisconsin Railroad, which they recently purchased at auction, were transferred to a stock company on the 30th ult. The new company is known as the Chicago, Milwaukee and Minneapolis Railroad Company, and is chartered with a capital of $5,000,000 consisting of 50,000 shares. The following are the New York stockholders: Henry Seifert, 300; David Dows, 10,000; R. Flower, 100; George Galpin, 300; R. Egerton, 100; A. R. Flower, 500 and R. S. Patterson, 100. The following officers were chosen: President, W. H. Ferry, of Lake Forrest, Ill.; Secretary, H. H. Weakley; Treasurer, R. P. Flower; Assistant Treasurer, J. B. Redfield. The following officers will be appointed: General Superintendent, E. W. Winter; Auditor, C. D. Young; Land Commissioner, H. H. Weakley; General Solicitor, J. C. Spooner.

Evansville and Chicago Railroad.

Articles of association of the Evansville, Washington, Brazil and Chicago Railroad have been filed in the Secretary of State's office at Indianapolis. The line is intended to run from Evansville through Vanderburgh, Warwick, Gibson, Pike, Daviess, Greene and Owen counties, to Brazil, in Clay county, making connections with the Ohio and Mississippi and the Indianapolis and Vincennes Railroads, and touching at Oakland, Petersburg, Washington, (Daviess county), Worthington, and Bowling Green. The capital stock is placed at $2,000,000, of which $150,000 have been subscribed. The length of the road is 130 miles.

☞ The York (Pa.) Dispatch states authoritatively that the Oil Pipe Line company have now secured the entire right of way from Gettysburg to Columbia. They have purchased the right to lay pipe along the Gettysburg pike, from that place to York, and then passing south of that place through the different farms lying in a di-

rect line to Columbia. They will cross at the Columbia dam.

Western Union Railroad.

The earnings of this road for the years ending December 31, 1876 and 1877, were as follows:

	1876.	1877.
From freight	$778,483 61	$767,925 11
" passengers	225,093 53	214,174 44
" mails, exp., etc.	44,838 26	42,959 24
Total	$1,047,615 40	$1,025,058 79
Expenses:		
Repairs of track	$112,061 47	$103,626 72
" bridges	13,176 97	11,246 21

Car service	13,409 86	9,404 13
Track service	38,984 40	38 322 00
Total	$799,369 42	$699,019 43
Net earnings	$248,545 98	$326,039 36

Compared with the year 1876, the gross earnings of 1877 show a decrease of $22,856 61, with a decrease in operating expenses of $100,349 99—making an increase in net earnings of $77,493 38. Percentage of expenses to earnings 68, against 76 in 1876. The expenses are divided as follows:

	Ordinary.	Extraordinary.	Total.
1876.	$604,699 55	$194,669 87	$799,369 42
1877.	571,907 43	127,112 00	699,019 43
Dec.	$32,792 12	$67,557 87	$100,349 99

The expenditures for 1876 not charged to operating expenses were as follows:

Equipment	$33,900 00
Right of way	1,476 97
Purchased during the year.	
Racine Warehouse and Dock Co	24,870 02
For deficiency in grain received at Racine elevator, as per contract.	
Interest and exchange	4,653 51
Interest on bonded debt	245,000 00
Total	$309,900 50

The number of miles of road operated in 1876 (exclusive of side track) was 212¾.

The equipment of the road consists of 39 locomotives (all coal burners); 12 first-class passenger, 2 sleeping, 1 business, 3 mail and express, 9 baggage and second-class, 410 box and caboose, 60 stock, 50 flat, 1 derrick, 2 pile driver and 82 coal cars.

Miles run by passenger trains, 294,546; by freight trains, 524,391; by gravel trains, 23,565—total, 842,502.

Number of tons carried, 455,065; do. carried one mile, 44,628,585. Rate per mile, 1.72 cents. Number of passengers carried, 228,566; do. carried one mile, 6,164,509. Rate per mile, 3.47 cents. Earnings per mile run on freight, $1 46; do. on passenger, $0 83. Expenses per mile run, $0 85. Gross earnings per mile of road, $4,818; expenses, $3,286; net earnings, $1,532.

Recovery of Spanish Bonds.

In February last the Department of State furnished to the press a list of certain stolen Spanish bonds, of which payment had been stopped. A portion of the bonds having been recovered, are restored to circulation at the request of the Spanish Minister. The following lists are now made public for the information of brokers and others.

Bonds recovered and restored to circulation: Series B—66,718, 112,876, 112,877, 112,878, 112,879, 112,880, 112,881, 112,882, 139,308, 139,309, 139,310, 139,311, 139,318, 139,321, 139,592, 139,627, 139,612. Series C—91,918, 20,259, 20,306, 29,959.

Bonds which have not yet been found: Series A—1,178, 1,179, 6,717, 42,159, 123,326, 123,327, 148,865, 148,866, 210,956. Series B—24,461, 24,462.

Michigan Air Line Railroad.

A new line, to be called the Michigan Air Line Railroad, is being agitated with fair hopes of success, by the people of Detroit, Romeo, Rochester, Pontiac, and other points in Michigan. The right of way has been secured from Romeo to Rochester, several miles of the roadbed constructed, and as the citizens of the latter village have guaranteed a depot building, suitable grounds and $2 000 in cash, the road will be finished to that village as early as practicable. The Grand Trunk Railway Co. is behind the scheme, and when the road is built, will make it part of its through line to Chicago.—*Railroader.*

Northern Central Railway.

We gave in our issue of April 27th the Report of the President of the Northern Central Railway Company for the year ending December 31, 1877, showing the receipts from operations of the road to have been $4,070 387 78, the operating expenses $2,745,929 84, and the net earnings $1,324,462 94. The income account of the company for the year is as follows:

Operating Expenses of—		
Main Line		$1,752,875 77
Shamokin Division		137,544 24
Elmira Division		411,182 42
Chemung Division		141,853 61
Canandaigua Division		296,669 67
Green Spring Branch		6,299 18
		$2,745,924 84
Interest on Funded Debt except Second Gen'l Mortgage bonds	$639,540 00	
Interest on $1,000,000 Second General Mortgage 6 per cent Convertible bonds	60,000 00	
Interest on $3,000,000 Second General Mortgage 5 per cent bonds	150,000 00	
Interest and discount	82,264 81	
Gold premium on interest	17,570 40	
State tax on capital stock	11,658 40	
Interest on mortgages and ground rents	24,521 15	
Rents	21,921 70	
		1,007,476 46
Rental of Shamokin Valley and Pottsville R. R. Company	$52,167 00	
Interest and gold premium on bonds of Shamokin Valley and Pottsville Railroad Co	145,625 30	
Interest on equipment	11,794 54	
		209,586 84
Rental Elmira and Williamsport Railroad Co.	$165,000 00

General Manager.—FRANK THOMSON.

Pennsylvania Railroad.

Statement of the business of the Pennsylvania Railroad Company of all lines east of Pittsburg and Erie for March, 1878, as compared with the same month in 1877:

An increase in gross earnings of	$88,482
An increase in expenses of	14,280
An increase in net earnings of	$74,202

The three months of 1878, as compared with the same period in 1877, show:

An increase in gross earnings of	$98,422
A decrease in expenses of	167,304
An increase in net earnings of	$265,726

All lines west of Pittsburg and Erie for three months of 1878 show a profit, after meeting all the liabilities, of $116,453; being a gain over the same period in 1877 of $351,867, which, added to the previous amount, shows the road to have earned financially $617,093 more for its stockholders than it did during the same period of 1877.

New York, Lake Erie and Western Railroad Company.

The sale of the Erie Railway, which took place on Wednesday of last week, was confirmed by the Court on Thursday, and on Friday the property was conveyed to the trustees by the referee. On Saturday the certificate of incorporation of the new company was filed in the office of the Secretary of State at Albany, and immediately thereafter the trustees conveyed the road to the new corporation.

The gentlemen named in the new articles of incorporation are: R. Suydam Grant, Hugh J. Jewett, John Taylor Johnston, Charles Dana, Samuel Sloan, Henry G. Stebbins, George F. Talman, Theron R. Butler, J. Frederick Pierson, James J. Goodwin, William Walter Phelps, Edwin D. Morgan, Solomon A. Guthrie, Cortlandt Parker, Homer Ramsdell, J. Lowber Welch, David A. Wells, Hermann R. Baltzer, Asa Packer, John B. Brown, Thomas Dickson, Giles W. Hotchkiss and Marshall O. Roberts, together with the following members of the English Reconstruction Committee: Sir Edward William Watkin, M. P.; Oliver Gourlay Miller, Henry Rawson, John Kynaston Cross, M. P.; John Westlake, Q. C.; Peter McLagan, M. P.; Benjamin Whitworth, M. P., and Thomas Wilde Powell.

The title of the new corporation is the "New York, Lake Erie and Western Railroad Company." The officers are: President, Hugh J. Jewett; Secretary, A. R. McDonough; Treasurer, A. S. Spencer. Directors, R. Suydam Grant, Solomon S. Guthrie, Hugh J. Jewett, John Taylor Johnston, Edwin D. Morgan, Cortlandt Parker, Homer Ramsdell, Samuel Sloan, Henry G Stebbins, Geo. F. Talman, J. Lowber Welch, David A. Wells, William Walter Phelps, Charles Dana, J. Frederick Pierson, M. K. Butler and James J. Goodwin.

Messrs. Shipman, Barlow, Larocque, and McFarland were continued as counsel to the corporation. The benefits of the new organization remain open to all parties interested in the property who choose to unite in it. Nearly all the bondholders and a majority of the stockholders have already signified their adhesion. Those stockholders who are still out have yet six months in which to come in, the terms being the payment of 4 per cent in money on the preferred stock and 6 per cent on the common.

☞ The route has been surveyed and stakes driven for the proposed line to connect the Central Railroad of Long Island with the Long Island Railroad, so as to make a direct road from Garden City and Hempstead to Brooklyn. The connection will be about half a mile long, between Hyde Park and Queens.

☞ The earnings of the Hannibal and St. Joseph Railroad for the three months ending March 31, 1878, were $394,808 52, against $353,431 6, for the corresponding period of 1877, an increase of $41,377 16.

Maine Railroad Tax.

The Governor and Council of the State of Maine have laid the following tax on railroad companies in that State:

	Amount of Capital Stock.	Value of Corporate Franchises to be Taxed.	Amount of Tax.
Boston and Maine	$7,000,000	$1,460,650	$21,609 75
Atlantic & St. Lawrence	5,000,000	983,804	14,757 06
Dexter and Newport	122,000	79,300	1,189 50
Maine Central	3,588,700	66,385	995 78
Portland Horse	157,600	52,120	781 80
Portland, Saco, and Portsmouth	1,500,000	641,010	9,615 15
Lewiston & Auburn	300,600	75,000	1,125 00
Total tax			$50,374 04

Narrow Gauge Railroads.

Pittsburg, Cincinnati & St. Louis Railway.

The following approximate statements of the Pittsburg, Cincinnati and St. Louis Railway Company will be of interest to the holders of bonds of that company:

Gross earnings (including interest received on equipment), January 1 to March 1, 1878		$511,325
Expenses (including interest on car trust cars and rent of Monongahela extension) for same period		294,387
		$216,938
The interest on the bonds for these two months is:		
$3,000,000 Steubenville and Indiana Railroad 6 per cent	$30,000	
$775,000 Steubenville and Indiana Railroad 7 per cent	9,041	
$6,222,000 Pittsburg, Cincinnati and St. Louis Railway 7 per ct.	72,590	
		111,631
Surplus		$105,306

☞ The annual report of the Lake Shore and Michigan Southern Railway Co. for the year 1877 shows: freight earnings, $9,476,608; passenger earnings, $3,203,199; other earnings, $825,351—total, $13,505,158, against $13,949,176 for the year 1876. Operating expenses and taxes, $8,963,965, against $9,574,835 the preceding year. Increase in net earnings, $166,000. Of the 92 persons killed by the Ashtabula disaster, 83 have been settled for; of the 64 wounded, 56 have been settled for. This absorbed $453,800 of the earnings, yet the road earned 8⅓ per cent on its capital stock, of which the stockholders received 2 per cent.

☞ The distance between Delta and Baltimore, by the route surveyed by Chief Engineer Dandridge, for the proposed narrow gauge railroad, is about 44 miles.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Redemption of 5-20 Bonds.

The Secretary of the Treasury issued on the 30th of April, the fifty sixth call for the redemption of 5 20 bonds, consols of 1865. The call is for $5,000,000, of which $3,000,000 are coupon and $2,000,000 registered bonds. The principal and interest will be paid at the Treasury on and after the 30th day of July next, and the interest will close on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $50, Nos. 50,001 to 53,000, both inclusive; $100, Nos. 85,001 to 90,000, both inclusive; $500, Nos. 60,000 to 63,000, both inclusive; $1,000, Nos. 108,001 to 114,400, both inclusive. Total coupons, $3,000,000.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870, as follows: $50, Nos. 1,751 to 1,900, both inclusive; $100, Nos. 14,101 to 15,200, both inclusive; $500, Nos. 8,701 to 9,200, both inclusive; $1,000, Nos. 28,751 to 30,100, both inclusive; $5,000, Nos 8,051 to 8,300, both inclusive; $10,000, Nos. 14,851 to 15 507, both inclusive. Total registered, $2,000,000. Aggregate, $5,000,000.

Grand Trunk Railway Company of Canada.

REPORT FOR THE HALF-YEAR ENDED DEC. 31, 1877.

	Dec. half of 1876.	Dec. half of 1877.
The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been.....	£916,245	£1,035,695
Which are reduced by the discount on American currency	22,363	10,435
To	£893,882	£1,025,260
Deduct—		
Working expenses, (being at the rate of 75.02 per cent, against 80.17 for the corresponding half of last year)...	716,640	769,160
Leaving a sum of..	£177,242	£256,100
From this, however, has to be deducted the Postal and Military Revenue due for the half-year to the bondholders	17,045	16,659
Which leaves..	£160,197	£239,441
Applicable for the following payments, viz:		
Interest, etc., paid on lands, temporary loans, bankers' balances, promissory notes, European exchange, etc., British America Land Company's debentures, Montreal Seminary debentures, and Island Pond debentures.....		£7,569
Atlantic and St. Lawrence lease.	£52,548	
Lewiston and Auburn Railway rent	1,849	
Detroit line lease..	11,250	
Montreal and Champlain bond interest	11,571	
Buffalo and Lake Huron rent...	84,500	
		111,714
1st Equipment bond interest...		15,000
2d Equipment bond interest...		15,000
5 per cent perpetual debenture stock....		40,907
		£190 190
Leaving a balance of.		49,252
		£239,441

The amount brought forward from the last half-year was £702, which, added to the above balance of £49,252, made the total amount available for dividend £49,953, out of which a dividend on the First Preference stock of 3 per cent per annum for the half year was paid on the 1st March last, absorbing £48,225, and leaving £1,729 to be carried to the next half year's account. The gross receipts for the half year (after deduction of discount on American currency) show an increase of £131,378, or 14.7 per cent as compared with 1876. The working expenses, including renewals, have amounted to £769,160 or 75.02 per cent against a total charge of £716,640 or 80.17 per cent in 1876, showing an increase of £52,520, or 7.33 per cent against the above increase in the receipts of 14.7 per cent. The percentage of the total working expenses has been reduced 5.15 per cent. The passenger receipts were less by £13,939, or 4.52 per cent, and the numbers were reduced by 12,866, or 1.11 per cent as compared with 1876. The receipts from freight traffic increased £138,513, or 24.94 per cent, and the tonnage increased 102,789 tons, or 9.1 per cent. The total number of passengers carried was 1,149,376, as against 1,162,242; and the quantity of freight was 1,231,897, against 1,129,108 tons. The average receipt per passenger was 5s. 1½d., against 5s. 8½d., and per ton of freight 11s. 3d., against 9s. 9¾d.

The expenditure for repairs and renewals of road and rolling stock compares with 1876 as follows:

	1876.	1877.
Way, stations, and buildings.	£115,852	£162,021
Engines	51,094	65,278
Cars	70,010	75,925
Total	£236,956	£303,219
Percentage of gross receipts.	26.51	29 57

There was, therefore, an increased expenditure for maintenance and renewals of £66,263, which included a charge of £6,000 on account of new engines. On the other hand, the expenditure for fuel, wages, and other charges for working the railway, was decreased by £13,743, as the following statement shows:

	1876.	1877.
Fuel..	£135,979	£127,268
Running engines, wages, oil, etc.	71,377	73 582
Traffic department.	204,321	205,258
General charges	17,883	17,095
Miscellaneous expenses.	22,053	21,383
Rent of rolling stock.	13,437	13.084
Tolls paid	12,166	8,268
Fire acc't, Point St. Charles..	2,465	.....
Total	£479,681	£465,938
Percentage of gross receipts.	53.66	45.45

The proportion which the working expenses, exclusive of maintenance and renewals, bear to the gross receipts fell from 53.66 to 45.45 or 8.21 per cent, though they were 3.06 per cent higher in the expenditure for maintenance and renewal of road and rolling stock, thus leaving the reduction in the relative proportion of the whole charges 5.15 per cent, notwithstanding that the gross receipts were increased by £131,378, or 14.7 per cent, and the work done as shown by the car mileage by 6,602,416 or 8.88 per cent. The receipts in United States currency were $3,765,110 against $3,380,186, of which $1,174,978 were converted into gold, against $1,016 783 in 1876, entailing a loss of $10,434, against £22,363, being a decrease of £11,929. Gold fluctuated during the half year from 105⅞ on the 25th July to 102½ on the 6th December; the average being about 104 against an average on the corresponding period of 1876 of 111. During the half year Sir Charles L. Young, Bart., has been elected a director. The directors who retire by rotation are Mr. Swift, Mr. Ferrier, Mr. Robert Young and Sir Charles L. Young, who offer themselves for re-election.

On behalf of the board,

H. W. TYLER President.

Grand Trunk Railway Offices, 21 Old Broad St., London, E. C., 17th April, 1878.

American Railroad Journal.

Saturday, May 4, 1878.

Financial and Commercial Affairs.

Money has been steadily working in favor of the borrowing interest, through the accumulations at this center, which have had the effect of further depressing rates, on the more liberal and urgent offerings of capital, especially on call. The inquiry from nearly all sources has been comparatively moderate, and met without difficulty. Call loans were quoted here at from 4@7, with 4@5 per cent as the basis of the principal negotiations, and very choice to strictly prime mercantile credits were rated at 4½@6½, the best grades passing readily at 5@6 per cent per annum. The City bank exhibit of last week indicated a reduction in the loan and discount average of $1,811,900, and an increase in the item of circulation of $88,900. The average of deposits was cut down $1,178,400. The legal tender reserve was enlarged $2,747,800; and the specie average reduced $3,350,800. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $17,800,150, against $17,608,550 the preceding week (the latter the highest aggregate yet reached this year.) The City bank exchanges in currency reached $419,201,899, or a daily average of $69,866,899.

The U. S. Sub-Treasury receipts in April were $41,078,197 (of which $7,948,428 from Customs;) payments, $44,168,256, (of which $56,054 were for coin interest.)

The U. S. Treasury, on the 1st inst., commenced disbursing $6,800,000 in gold for interest on the 5 per cents of 1881.

The outstanding amount of legal tender notes is $346,681,016. The National bank circulation is now $321,626,059 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,200,000.

The amount of United States notes retired during the past month, in consequence of the issue of national bank notes, was $1,317,827. The Secretary of the Treasury has ordered that this amount shall be replaced by silver dollars to be paid out in the current course of business. All the Assistant Treasurers throughout the United States have been authorized to exchange silver dollars for greenbacks, under the order of the Secretary.

The U. S. currency of all denominations, outstanding on the 1st inst., was $368,918,098.

The liquidation of the public debt of the United States in April reached three millions; and since July 1, 23⅛ millions.

Government Securities have been in better request at somewhat firmer prices. The home investment demand has been more urgent for the favorite issues which have been in comparatively moderate supply. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107⅛@107¾; do. coupon, 107⅛@107⅝; 5-20s, 1865, new, registered, 103¾@104; do. coupon, 103¾@103⅞; do. 1867, registered, 106¾@107; do. coupon, 106¾@106⅞; do. 1868, registered, 109⅛@——; do. coupon, 109⅛@——; ten-forties, registered, 105⅞@106; do. coupon, 105⅞@106; five per cents, 1881, registered, 104⅛@104¾; do. coupon, ex-int., 104⅛@104⅝; 4½ per cents, 1891, registered, 103@103⅛; do. coupon, 103@103⅛; 4 per cents, 1907, reg., 100⅜@100½; do. coupon, 100⅜@100½; sixes, currency, 119½@119½.

The reported subscriptions to the new popular four per cent Government loan have been, thus far, nearly ten millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $347,118,850, and $13,448,000 as security for public deposits.

The income of the Government from internal revenues last week was about 2¾ millions, and from Customs last week about three millions.

State bonds have been moderately sought after on investment account, and have been without marked alteration. Railway Mortgages have been in more request, mostly for investment, and the favorite loans have shown more firmness. And in the line of Railway and Miscellaneous share property business has been more active on, however, an unusually variable market, leaving off irregularly, and with less animation in the general list. The course of speculation has been more or less influenced by the political advices from Europe, which, toward the close, were viewed as of more pacific tenor.

Gold has been quoted about steady, on however a reduced volume of dealings, as well on speculative account, as in other connections. The extremes of the price during the week have been 100⅜@100⅝, closing on Wednesday at 100⅜ as against 100⅝ on Wednesday of the preceding week. The specie outflow last week reached $1,578,811—making the total exports of specie hence since January 1, $7,069,232 against $4,853,631 the same time in the preceding year. The imports of specie at this port last week were to the amount of $954,555 (chiefly from Liverpool and Vera Cruz) and since January 1st have been $10,503,976 as against $6,266,123 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,766,849 or an average of $294,415 per day.

Foreign Exchange has been less sought after, and toward the close quoted weaker as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86⅛; sight bills on London at $4 88⅛@$4 89 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,331,849 as against $7,244,064 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,148,496 of Dry Goods, and $5,183,353 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $5,945,499, against $4,591,867 same week in 1877; and since Jan. 1 have been $113,502,955 against $86,366,005 same time last year.

Metals have been generally in less request yet quoted essentially unchanged as to values. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18@$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $32@$36. Old Rails $19@$19 50. Wrought Scrap $21@$22. Steel Rails, on the basis of $42@$45. Ingot Copper for prompt delivery has been in light demand on the basis of 16¾ for early delivery.

Business in Produce and Merchandise has been generally less active, and values quoted irregular. Breadstuffs have been in most request, especially Wheat, Corn, and Oats for early delivery, opening more firmly, but closing weaker. Provisions have been comparatively quiet and depressed and unsettled as to values. Cotton has been moderately inquired for, on the basis of firmer rates. Naval Stores and Petroleum have been in slack request, and prices have further receded. Foreign merchandise has been in generally slack demand at weak and variable prices.

In the ocean freight line, a livelier movement has been reported at generally firmer rates, especially in the Grain interest, on berth and charter. Liverpool steamer rates at the close for Grain, quoted at 8d. Flour, at 2s. 6d. Provisions, 27s. 6d. @32s. 6d.; Leather, 45s.@50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, ⅛d. per lb. Liverpool, by sail, Cotton, 15-64d. Grain at 7⅛@7½d.; Flour, 2s.@2s. 3d.; Measurement Goods, 15s. Tobacco 27s. 6d.; Oil Cake at @20s. Grain rates on charter hence for Cork and orders left off at 6s. @6s. 3d.; for the Continent Grain at 5s. 3d.@6s. and from Baltimore for Cork and orders, 6s. 3d.@6s. 6d. and from Philadelphia at 6s.@6s. 3d.; and for Italy from do. at 6s. 4½d. and from Portland at 5s. 9d @6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom (next crop) at 57s. 6d.@62s. 6d. Refined Petroleum hence for Liverpool at 8s. 4½d. @8s. 6d; for Bristol at 8s. 10½d. Cork and orders, 4s.@4s. 3d.; for the Continent, 8s. 3d.@8s. 9d, for the Baltic at 3s. 9d.@4s. 1½d. and Java at 30@32ct. and Japan 37½@42½cts. and for French ports (crude) at 3s. 9d @4s. 3d. Gibraltar and orders at 4s. 3d.@bs. 6d.; do., for Alicantre, cases, 25cts. do. in cases, from Phila. to Italian ports, at 22@26ct. and Adriatic 32@34cts. Cotton by sail from New Orleans to Liverpool 5-16@11 32d.; from Galveston, at 7-16d.; Ky. Tobacco from New York to Spain at 35s. and to Bordeaux at 35s. Naval Stores from Wilmington for Cork and orders at 3s. 6d.@3s. 9d, and 5s. 6d.@5s. 9d. and from Charleston or Savannah at 3s. 6d.@3s. 9d. and 5s, 6d.@5s. 9d. Lumber from New York to Montevideo at $14 and 5 per cent primeage. Savannah, Brunswick or Union Island to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 68s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s. and Florida to the United Kingdom, Continent or Mediterranean, 110@120s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool quoted at the close at 48@53ct. per 100lbs. as to routes.

At the auction sale of 50,000 tons Scranton on Wednesday, May 1, prices ruled firmer than in March, ranging from 3.15@3.77½ as against 3.15 @3.72½ in March.

The coal tonnage for the last reported week was of anthracite 190,000 tons, and of bituminous 50,000 tons. For the season the anthracite tonnage is 3,427,000, or 1,169,000 tons behind last season.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Grand Trunk Railway of Canada.

We give on another page the report of this company for the half year ending December 31, 1877. At the meeting held in London, England, on the 1st inst., Sir Henry W. Tyler, the chairman, said the prospects of the road depended chiefly upon two elements—the general prosperity of Canada and the States, mainly, and the absence of reckless and insane competition between trunk lines. Notwithstanding the unanimous decision arrived at in New York, in October last, in favor of harmonious working for the restoration of rates, that intention was not carried out. Mr. Fink, the Eastern, and Mr. Guildford, the Western Trunk Line Commissioners, had made assiduous efforts to restore harmony and prevent competition. He hoped for a favorable result.

Public Debt of the United States.

By the monthly report of the public debt for April we learn that the debt was decreased during the month $3,015,865 59. The total principal of the debt now outstanding is $2,203,475,778 28, on which there is due and unpaid of interest $28,747 253, giving a total of principal and interest of $2,232,223,026 28. There was at the same time cash in the Treasury, of coin, $156,037,236 88, of currency $1,168,140 68, currency held for redemption of fractional currency, $10,000,000, exclusive of $28,815,000 of special deposits for redemption of certificates, making the total of cash in the Treasury $195,515,377 56, reducing the debt, less cash in the Treasury on April 1, 1878, to $2,039,723,514 81, debt less cash in the Treasury on May 1, 1878, $2,036,707,648 72, showing a decrease during the past month of $3,015,865 59. Decrease of debt since June 30, 1877, $23,450,775 54. Bonds issued to Pacific Railroad Companies, interest payable in lawful money, principal outstanding, $64,623,512; interest accrued and not yet paid, $1,292,470 20; interest paid by United States, $37,896,834 50; interest repaid by transportation of mails, etc., $9,162,852 34; balance of interest paid by United States, $28,733,482 16. The payments made from the Treasury by warrants during the month were: on account of civil and miscellaneous, $4,425,040 25; War, $3,531,821 13; Navy, $1 048,595 09; Interior (Indians and Pensions), $357,165 79; total, $9,962,622 36. The above does not include payments made on account of the interest or principal of the public debt of the United States.

Erie Railway.

The report of Hugh J. Jewett Receiver of the Erie Railway Co., for the month of February, 1878, was filed in the County Clerk's office on the 25th ult. His cash balance February 1, was $449,129 80, and on February 28, $466,119 97. Deducting these cash balances and the moneys received and paid out for receiver's certificates and loans, the receipts are stated at $1,890,583 25, and the disbursements at $1,620,860 19. Of the expenditures, $18,000 went for new locomotives, and $45,694 for payments on purchase of coal lands. The reduction in the receiver's certificates was $257,702 29, leaving outstanding, $1,020,360 64. The loans were increased $5,000.

☞ At the annual meeting of the stockholders of the Lake Shore and Michigan Southern Railway Co., held in Cleveland on the 1st inst., the following directors were elected: William H. Vanderbilt, Augustus Schell, Samuel T. Barger, Cornelius Vanderbilt, William K. Vanderbilt, John E. Burrill, Francis P. Freeman, New York; Henry B. Payne, Amasa Stone, Cleveland, Ohio; Albert Keep, Chicago, Ill.; William L. Scott, Charles M. Reed, Erie, Pa.; Rasselas Brown, Warren, Pa.

☞ The Chicago and Southern Railroad, which is the only opening to Chicago for the Grand Trunk Railway, was bought on the 24th ult. in the United States Court at Chicago by Henry A. Rust, in the interest of the latter corporation. The price paid for the road was $145,000.

Sioux City and St. Paul Railroad.

The President of this company, Mr. E. F. Drake, accompanies the annual reports of the various department officers with a communication which will not be very agreeable reading to the stock holders. The road has been particularly unfortunate from the start. The heavy snow storms of the West have always been the severest on the line of this road. The grasshoppers were more voracious than in any other part of the prairie county, and even the eggs left in the ground were so numerous that the farmers did not plant, and consequently there were no crops to be transported. The officers of the road, however, have drawn their salaries with commendable punctuality; but according to the President's communication the day of settlement is approaching. He says:

Among the matters to be discussed will be the propriety of reorganizing and readjusting the securities and stock, making them to conform to the ability of the road to pay interest. It is desirable that the first mortgage bonds should be reduced in number so that the earnings of the road may be certainly equal to the interest, thus giving them a real and market value at or near par. The excess or reduced amount may be put in the shape of a preferred stock, thus securing the first mortgage holder all that the road will pay, until his claim is satisfied, leaving the second mortgage and common stock to be placed in a second preferred and common stock, retaining to each class its present position of priority. I think it would be desirable to reduce the common stock about 50 per cent. With such a modification of our securities and stock, we might expect the first mortgage to be a superior bond, and the other classes of stock to have a prospective real value. Whether this plan will be acceptable to a majority, I cannot venture to say, and doubtless a fuller consideration of the subject may develop a better plan or make improvement on the one above indicated. Any plan agreed upon will require the early and unanimous consent of all classes of holders, and on failure to obtain it, force a reorganization by foreclosure. The interests and future welfare of the road are so intimately connected with the St. Paul and Sioux City Company that I feel it my duty to recommend at an early day a consolidation of the two roads into one strong line, capable of competing for business with its formidable rivals. The terms of such a consolidation should be arranged by a committee well informed and impartial, and if they shall approximate a true basis both companies will be gainers. These suggestions are made to open the subject, that those interested may give it full consideration and be prepared to decide promptly should the questions be submitted to them.

The coupons were funded a few years since with the expectation that the company would resume payment in May, 1878. A recent circular informs the bondholders that it is useless to destroy the attractiveness of the bond by cutting off the May coupon, as there is no money in the treasury. It is a cause for congratulation, however, with the stockholders, that if their investment has proved one of the poorest of the many Western Railroad speculation, they have the consolation of knowing that the road has been run three years without killing one.

☞ C. P. L. Butler, Trustee of the Columbus and Gallipolis Railway Company, appeared before the Court of Common Pleas at Columbus, Ohio, on the 25th ult., on the petition of Hill & McKechney, contractors, of Chicago, and obtained judgment against the railroad company in the sum of $248,925, together with a decree of foreclosure and an order of sale of all the property and the right of road. The property was ordered to be sold on May 30.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of March:

	1878.	
Gross receipts:	Month.	Year to date.
Railroad traffic	$658,991 21	$2,958,432 85
Canal traffic	2,087 12	19,794 76
Steam Colliers	27,906 26	196,273 21
Richmond coal barges	6,349 80	24,227 66
Total Railroad Co	$695,334 39	$3,198,728 48
Reading Coal and Iron Co	312,177 54	1,791,240 89
Total of all	$1,007,511 93	$4,989,969 37
Tonnage and passengers:		
Tons of coal on railroad	229,260 00	1,281,772 15
Tons of merchandise	284,858 14	999,623 02
Passengers carried	480,114	1,942,797
Coal transported by steam colliers	30,275 00	171,893 00
Tons of coal mined:		
By Coal and Iron Co	89,324 06	613,769 18
By tenants	42 195 07	215,328 14
Total mined from lands owned and controlled by Co. and from leasehold estates	131 519 13	829,098 07

	1877.	
Gross receipts:	Month.	Year to date.
Railroad traffic	$861,991 03	$3,039,862 77
Canal traffic	25,146 77	83,778 22
Steam colliers	49,432 58	224,775 79
Richmond coal barges	9,057 60	14,428 88
Total Railroad Co	$945,677 98	$3,312,840 66
Reading Coal and Iron Co	545,817 48	1,926,463 05
Total of all	$1,491,495 46	$5,239,303 71
Tonnage and passengers:		
Tons of coal on railroad	421,288 11	1,504,724 07
Tons of merchandise	226,111 02	962,579 00
Passengers carried	483,383	1,990,359
Coal transported by steam colliers	43,592 00	154,839 00
Tons of coal mined:		
By Coal and Iron Co	205,713 04	683,321 08
By tenants	75,045 10	287,916 17
Total mined from lands owned and controlled by Co. and from leasehold estates	280,758 14	971,238 00

This statement shows a decline of $483,984 in the business of the month of March, compared with March, 1877, and a decline of $249,334 in the business of the first quarter of 1878, compared with the first quarter of 1877. The Reading Railroad, during this period, had voluntarily suspended the production of coal to a great extent, in order to increase its subsequent shipment when coal prices are improved, and it is not now up to the full quota allotted it. The expectation is that coal prices will be advanced monthly hereafter, and that the company will increase its future shipments as the season advances. These larger shipments coming towards the close of the season, when prices are highest, will be to the company's greater profit.

☞ C. V. Housman, C. E., late of the Canadian Pacific Railway survey, has been engaged to survey a route for a line of railway from Hamakua to Kawaihae, in Hilo district, Hawaiian Islands.

☞ Charles E. Tracy, trustee of the English bondholders of the first mortgage bonds of the St. Louis Tunnel and Railroad Company, recently filed a complaint in the United States Circuit Court at St. Louis to foreclose the mortgage. Judge Treat, after hearing the case, entered a decree of foreclosure and appointed E. W. Woodward Commissioner to sell the property, which includes the tunnel and railroad tracks running from the eastern end of the Illinois and St. Louis bridge to their connection with the Missouri Pacific, and other railroad tracks at or near Union depot. The foreclosure is for default of interest, and the amount of the bonds is about $1,600,000.

☞ The bondholders of the Indianapolis and Madison Railroad Company met in this city on the 26th ult. to elect two trustees to fill vacancies caused by the death of Messrs. Peter McMaster and John Fergusen. About $100,000 of bonds were voted on, and Charles Lanier, of Winslow, Lanier & Co., New York, and Thomas D. Messler, of Pittsburg, were elected.

☞ It is stated that the Czar of Russia has directed the imposition of a duty of $3 50 a barrel on all foreign refined petroleum. This is a protective tariff for the growing oil regions of Baku. The oil wells of that Russian district, on the western shores of the Caspian Sea, vary from 40 to 200 barrels each.

☞ The Chicago and Canada Southern Railroad, which is the only opening to Chicago for the Grand Trunk Railway, was bought on the 24th ult. in the United States Court by Henry A. Rust in the interest of the latter corporation, for $155,000.

☞ The pipe line from the Bradford oil region to the New York State Line road, at Salamanca, is completed. The pipe is four inches in diameter, with a capacity of from 4,000 to 7,000 barrels per day.

☞ The liabilities of the Bangor, Calais and Shore Line Railroad Company aggregate $5,475 91, of which amount $2,551 36 is for officers' bills, and the balance for preliminary work and incidentals.

☞ New pipe lines, with a capacity of transmitting 4,000 to 7,000 barrels of oil per day, have been laid from the Bradford oil region to Salamanca, New York.

☞ Clifford B. Rossell, of Trenton, has been elected a director of the Belvidere Delaware Railroad Company, in place of the Hon. Charles Sitgreaves, deceased.

☞ The Bell's Gap Railroad will be extended from Lloydsville to Fallen Timber, Cambria Co., Penn., during the coming summer. By this extension a large coal field will be opened to traffic.

☞ The New Jersey Southern Railroad is again advertised for sale, under an order of Chancery. The sale will take place at Long Branch on the 24th of May.

☞ The Lachine Canal will open for traffic on the 6th of May.

☞ The completion of the Benicia and Suisun (Cal.) Railroad, was celebrated on the 16th ult.

United States Treasury.

The following is a comparison of the condition of the Treasury May 1, 1877, and May 1, 1878:

Balances.	1877.	1878.
Currency	$2,395,145 78	$1,163,140 68
Special fund for the redemption of fractional currency	6,000,000 00	10,000,000 00
Special deposit of legal tenders for redemption of certificates of deposit	40,465,000 00	28,315,000 00
Coin	105,439,740 82	156,037,286 88
Coin and silver certificates..	49,712,700 00	50,044,500 00
Coin, less coin & silver certificates.....	55,727,040 82	100,992,736 88
Outstand'g called bonds....	14,828,250 00	6,078,350 00
Other outstanding coin liabilities	5,476,114 10	4,135,688 95
Outstanding legal tenders..	361,494,404 00	346,681,016 00
Outst'nd'g fractional currency.....	22,186 575 52	16,805,414 52
Outstanding silver coin....	31,920,786 77	33,802,588 13
Total debt less cash in Treasury.....	2,070,358,617 20	2,036,707,648 72
Reduction of debt for April	4,315,509 43	3,015,865 59

Can I Obtain a Patent?
This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

A. WHITNEY & SONS,
CAR WHEEL WORKS,
Callowhill and Sixteenth Sts.,
PHILADELPHIA, PENN.
FURNISH CHILLED WHEELS for Cars, Trucks and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES.
WHEELS and AXLES FITTED COMPLETE.

THE ROGERS

The Coal Trade.

For the week ending April 29th, the total anthracite production, as reported by the several carrying companies, amounted to 190,287 tons, against 450,013 tons in corresponding week last year, a decrease of 259,723 tons. The total amount of anthracite mined for the coal year is 3,426,563 tons, against 4,695,362 tons for same period last year, a decrease of 1,668,799 tons. The quantity of bituminous coal sent to market for the week amounted to 49,923 tons, against 53 805 tons in corresponding week last year, a decrease of 3,-882 tons. The total amount of bituminous mined for the year is 584,188 tons, against 802,662 tons for corresponding period last year, a decrease of 218,474 tons. The total tonnage of all kinds of coal for the week is 240,210 tons, against 503,818 tons in corresponding week last year, a decrease of 263,602 tons. The total tonnage of all kinds of coal for the coal year is 4,010,751 tons, against 5,398,024 to same date last year, a decrease of 1,387,273 tons. The receipts at Perth Amboy for the week ending on April 20th were 7,757 tons, the shipments 11,841 tons, leaving a stock on hand of 68,823 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second and third weeks of April was 192,075 tons, of which 151,772 tons were coal, and 40,-303 tons coke. The total carried for the year is 1,378 250 tons, of which 1,071,345 tons were coal and 301,995 tons coke. These figures embrace all the coal carried over the road, east and west. —*Phila Ledger, April* 29.

☞ The Rapid Transit Commission of Brooklyn have passed resolutions calling for plans for the construction and operation of rapid transit railways in Brooklyn without delay, and announcing that the commission will not receive any plans after May 25, and will meet on the 15th of June to render its decision on the plans presented.

☞ Hon. John F. Cloutman has been chosen President, Edwin F. Cloutmon Clerk, and G. N. Eastman Treasurer of the Farmington and Rochester (N. H.) Railroad Company. The directors are: John F. Cloutman, David T. Parker, J. H. Barker, J. E. Fernald, J. W. Berry, Geo. A. Jones and E. P. Nute.

☞ The Commissioner of Patents has had printed in one volume the decisions of the United States Courts in patent cases, and of the Commissioner of Patents, with indices. They are sold at $1 in paper covers, $1 50 in half calf binding and $2 in full law binding.

☞ We see it stated that the Brazilian Government has removed its interdict against the employment of colored laborers on the railway in that empire, and a large number will now be sent there.

☞ T. J. Godfrey and others, of Celina, Ohio, have filed articles incorporating the Celina, Van Wert and State Line extension of the road, to extend from Shanesville, on the northwestern line, to the Michigan line, by way of Van Wert, Pauld ing and Bryan.

☞ John G. Richardson, President of the Brockville and Ottawa and Canada Central Railways, has assumed the position of General Manager, vice H. Abbott resigned.

☞ The work of laying rails on the new Pittsburg and Lake Erie railroad commenced at Youngstown on the 22d ult., and satisfactory progress is being made. The roadbed is graded from Youngstown to Beaver Falls, a distance of about thirty miles and nearly ready for the rails.

☞ The purchasers of the Danville, Hazleton and Wilkesbarre Railroad met at Bloomsburg, Penn., on the 1st inst., and organized a new company under the Act of Assembly, adopting the name of the "Sunbury, Hazleton and Wilkesbarre Railway Company." Isaac Eyre was elected President.

ESTABLISHED IN 1836.

American Railroad Journal.

New York, Saturday, May 11, 1878.

Peekskill and Brewsters Railroad.

For some time past, in compliance with the wishes of many business men in the northern portion of Westchester county and the southern portion of Putnam county, in this State, Mr. C. E. Fowler, Civil Engineer, of Peekskill, has been engaged in making a survey of the line for a railroad to connect Brewster's Station, in Putnam county, on the line of the New York and Harlem Railroad, and Peekskill, in Westchester county, on the line of the Hudson River Railroad; the object being to connect the manufacturing districts of Southern New England and the Hudson River for the present, and at no distant day to continue the same from the Hudson at Peekskill to Turners on the Erie. Mr. Fowler has made an examination of the first link, commencing at deep water on the Hudson River, touching the village of Peekskill at or near the old depot, and following the brook about through the centre of the village, passing direct on through Shrub Oak and Jefferson Valley to Lake Mahopac, a distance of twelve and a half miles; thence continuing to Brewsters, a total distance of about twenty-five miles. The estimated cost of the road is about $500,000, which is to be raised entirely upon first mortgage bonds, avoiding the necessity of bonding the district along the route. The grade will not exceed 125 feet to the mile, and that only for a short distance in getting out of the village of Peekskill.

A Branch from the New York and Long Branch to Monmouth Park.

A branch road is to be constructed between the New York and Long Branch Railroad and Monmouth Park. The surveys have been made and the point at which the extension is to begin is between Little Silver and Branchport stations, near Parker's Creek. The branch will be one and a half miles in length and will run into the grounds of the Monmouth Park Association, the terminus to be in a grove near the grand stand. It is intended to have the road—which will be a single track—completed so that trains can be run over it on June 29, on which day the races for the opening season will begin. The projectors of this railroad are Messrs. D. D. Withers, August Belmont, George and Pierre Lorrilard and G. P. Wetmore, the gentlemen who purchased the grounds and established Monmouth Park. The New York and Long Branch Railroad Company have agreed to run trains over the branch during the meeting days.

The West End Railway.

The offer recently extended by the proprietors of the West Side and Elberon Hotels at Long Branch, co operating with some land holders in that neighborhood, of right of way to any person or company who would extend the line of the New Jersey Southern Railroad to these hotels which are nearly two miles distant from the station, has been accepted by a company which has organized under the name of "The West End Railway Company;" the corporators being Daniel and Drake Smith, Henry Day, Benjamin E. Curtis, F. E. Donner, William Walter Phelps, William W. Gantry and William S. Sneden. The laws of New Jersey require that a deposit at the rate of $2,000 for each mile of road shall be made with the Treasurer of that State in all such cases. The full amount was placed in the hands of William Alexander Smith for such deposit. It is expected that trains will be run on the road by the middle of June.

Shenandoah Valley Railroad.

At the annual meeting of the stockholders of the Shenandoah Valley Railroad Company, held in Winchester, Va., on the 1st inst., Hon. William Milnes was re-elected president, with the following directors: W. H. Travers, A. R. Boteler, U. L. Boyce, H. B. Davenport, H. B. Hamsberger, J. Q. A. Nadenbousch, Logan Osborn, David Billmyer, W. D. Smith, Mann Spitler and John T. Lovett.

The president informed the stockholders that the directors had made a contract with John S. Satterbee & Co., of New York, to build the main stem from the Potomac river at Shepherdstown, W. Va., and the branch connection at Martinsburg, W. Va., to Waynesboro', Augusta county, Va., on the Chesapeake and Ohio Railroad, the work to be completed and delivered, with all the appointments of a first class road, within three years from its commencement.

Since the above was written we learn that all the articles of the contract with John S. Satterbee & Co. have been signed, and a speedy resumption of the work will take place.

The Vice President and Treasurer of last year was re elected, and Joseph T. Wright was elected Secretary. The prospect before them seems to be promising.

☞ The Cumberland (Md.) Alleganian learns that the Keystone Coal Company propose extending their narrow gauge railroad from Keystone Junction, two miles west of Sand Patch tunnel, on the line of the Pittsburg and Connellsville railroad, along Flaugherty creek and across Savage mountain, to connect with the Cumberland and Pennsylvania railroad at or near Mount Savage Junction. The road is now about 5½ miles in length, extending from Keystone Junction to their mines. By building six or eight miles of

railroad they reduce the distance to Cumberland from 35 to 26 miles.

Lake Shore and Michigan Southern Railway.

The earnings of this road for the years ending December 31, 1876 and 1877, were as follows:

	1876.	1877.
From freight	$9,405,628 95	$9,476,607 59
" passengers	3,664,147 87	3,203,199 66

Total		$2,569,250 88
Worthless assets charged off		4,378 27
Total to credit Income Account January 1, 1878		$2,564,872 61

Compared with the previous year the gross earnings of 1877 show a decrease of $444,017 70, or 3.18 per cent; with a decrease in expenses of $610,869 87, or 6.38 per cent; making an increase in net earnings of $166,852 17, or 3.67 per cent. The President, in his report, says:

This company owns 1,024.71 miles, (although 160.11 miles are embraced in three other organizations,) and leases 152 08 miles.

Of the 540.37 miles of Main Line, 235.65 are double track, making the Main Line equal to 776.02 miles of single track; and two branches—203.66 miles—are so situated that they, with the Main Line, form a double line of road between Cleveland, Ohio, and Elkhart, Indiana, (101 miles east of Chicago,) making, together, 979.68 miles of track, of which 843 miles are laid with steel rails. There are but 137 miles of iron rails remaining in the Main Line, and they will be replaced with steel as rapidly as renewals are needed. During the year 1877 15,080 tons—160 miles—steel rails were laid, and the entire cost—$708,281—charged to operating expenses.

This account will, probably, show a reduction, in 1878, of about $300,000.

Included, also, in the operating expenses, are five miles additional side tracks, (in former years charged to construction account.) The side tracks now measure 462.44 miles.

The total number of miles of track to be maintained amounts to 1,874.89, the details of which, location by States, etc., will be found in the usual place in this report.

CONSTRUCTION.

This account for 1877 amounted to $141,409 52, or but about half of even the small amount in 1876. The details are as follows:

Real estate	$22,608 02
New iron and stone bridge across the Maumee River, at Toledo—now being erected—replacing a wooden structure	104,377 61
Bridge masonry	14,423 89
Total	$141,409 52
1870-1876, inclusive—seven years	13,899,312 20
Total—eight years	$14,040,721 72

New buildings have been charged to operating expenses, (repairs buildings.)

EQUIPMENT.

The amount charged to this account remains unchanged—$14,378,709 04 for 495 locomotives, and 10,546 cars.

There was expended, in 1877, for maintenance of equipment, $1,301,896 46, which amount proved fully adequate.

CAPITAL STOCK.

The capital stock of the company is $50,000,000, to-wit:

Guaranteed (10 p. c.)	5,335 shares.	$533,500
Ordinary	494,665 shares.	49,466,500
	500,000 shares.	$50,000,000

Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled on $350,600, leaving $182,900 still unsettled.

Dividends of 5 per cent February 1, and 5 per cent August 1, have been regularly paid on this stock since August 1, 1863, the date of the first dividend.

Of the ordinary stock the company owns 2,654 shares ($265,409), which appears among its assets in the balance sheet.

BONDED DEBT.

The bonded debt of the company stood:

December 31, 1876	$36,000,000
December 31, 1877	35,750,000
Decrease	$250,000

This decrease was accomplished by the annual contribution to the Sinking Fund of the First General Consolidated Mortgage of $25,000,000. This mortgage provides for a sinking fund of one per cent, or $250,000 per year. This obligation has run for seven years, amounting to $1,750,000, and is now entirely fulfilled.

The bonded debt may be thus classified:

First Mortgage—matures in 1900, including eleven divisional mortgages on original roads, to be merged into this mortgage upon maturity	$25,000,000
Less Sinking Fund	1,750,000
	$23,250,000
Second Mortgage—matures in 1903; amount of mortgage, $25,000,000. Outstanding (including the plain bonds of 1882—$3,294,000—provided for by this mortgage)	12,500,000
Total debt—interest 7 per cent, currency	$35,750,000

The financial results of the eight years since consolidation are shown by the following condensed table:

	Miles.	Gross earnings.	Operating expenses.	Per cent.	Net earnings.
		$	$		$
1870	1,018	13,509,236	8,368,821	61.95	5,140,415
1871	1,074	14,898,449	9,779,806	65.64	5,118,643
1872	1,186	17,699,935	11,839,526	66.90	5,860 409
1873	1,175	19,414,509	13,746,598	70.90	5,667,911
1874	1,175	17,146,131	11,152,371	65.04	5,993,760
1875	1,175	14,434,199	10,581,501	72.96	3,902 698
1876	1,177	13,949,177	9,574,836	68.64	4,374,341
1877	1,177	13,505,159	8,963,966	66.37	4,541,193

	Interest, leases and dividends guaranteed stock.	Dividends. Amount.	Rate.	Surplus.
1870	$1,828,897	$2,752,360	8	$559,158
1871	2,121,164	2,874,855	8	123,124
1872	2,201,459	3,446,096	8	192,854
1873	2,654,560	1,978,040	4	1,035,311
1874	3,008,193	1,607,661	3¼	1,377,906
1875	2,810,294	989,330	2	103,074
1876	2,759,989	1,607,661	3¼	6,691
1877	2,775,657	989,330	2	30,483

As the gross earnings for the years 1877 and 1870 are almost exactly alike, some comparisons of the two years are furnished, as showing the changes which have occurred within the comparatively brief period of eight years.

	1877.	1870.
Miles road operated	1,177	1,013
Gross earnings	$13,505,159	$13,509,236
Operating expenses and taxes	8,963,966	8,868,821
Net earnings	$4,541,193	$5,140,415
Work done—		
Number tons freight moved one mile	1,080,005,561	574,035,571
Rate per ton per mile	Cent, .864	Cent, 1.504
Number of passengers moved one mile	138,116,618	160,500,114
Rate per passenger per mile	Cents, 2.326	Cents, 2.612
Freight train mileage	5,674,685	4,306,110
Passenger train mileage	2,363,504	2,320,477

The following condensed tables show the freight and passenger business for the entire eight years, 1870-1877:

FREIGHT.

	Tons.	Average miles hauled.	Tons 1 mile.
1870	2,978,725	192 7	574,035,571
1871	3,784,525	193.9	733,670,696
1872	4,442,092	208 2	924,844,140
1873	5,176,661	203.6	1,058,927 189
1874	5,221,267	191.4	999,342,081
1875	5,022,490	187.8	943,286,161
1876	5,635,167	201.2	1,133,834,828
1877	5,518,398	195.9	1,080,005,561

	Revenue.	Receipt per ton per mile. Cent.	Cost per ton per mile. Cent.	Profit p. ton p. m. Cent.
1870	$8,746,126	1.504	.932	.572
1871	10,341,218	1.391	.913	.478
1872	12,824,862	1.374	.920	.454
1873	14,192,899	1.335	.946	.389
1874	11,918,350	1.180	.767	.413
1875	9,689,038	1.010	.737	.273
1876	9,405,629	.817	.561	.256
1877	9,476,603	.864	.573	.201

PASSENGERS.

	Passengers.	Average distance.	Passengers one mile.
1870	2,065,440	77	160,500,114
1871	2,046,428	70	142,684,243
1872	2 212,754	74	162 308,495
1873	2,845,163	63	179,363,173
1874	3,096,263	56	173,224,572
1875	3,170,234	52	164,950,861
1876	3,119,923	56	175,510,501
1877	2,742,295	50	138,116,618

	Revenue.	Receipts per passenger per mile. Cent.	Cost per passenger per mile. Cent.	Profit per passenger per mile. Cent.
1870	$4,192,960	2.612	1.618	.994
1871	4,006,724	2 808	1.843	.965
1872	4,218,543	2.599	1.739	.860
1873	4,569,780	2.542	1.802	.740
1874	4,249,022	2.452	1.595	.857
1875	3,922,798	2.378	1.735	.643
1876	3 664,148	2.090	1.438	.652
1877	3,203,200	2.319	1.539	.780

As compared with 1876, the tonnage moved shows a slight decrease—2.16 per cent—fully accounted for by the ten days' stoppage of freight trains, in July, resulting from the great strike. A slight improvement, however, in the average rate per ton per mile, resulted in an increase of earnings from freight of $70,979.

The passenger business shows a large falling off—about one-eighth less both in number of passengers carried and earnings. In this respect the experience of this company is not exceptional, the severe general depression having seriously effected the passenger business of railroads.

OPERATING EXPENSES.

Show the very considerable decrease of $610,869, which is $166,852 more than the decrease in earnings, notwithstanding the very large amount of steel rails—15,080 tons (160 miles)—purchased and laid in 1877, and with the roadway equipment and property fully maintained.

It is believed that a further reduction in expenses of at least half a million dollars—equal to one per cent upon the capital stock—will be effected in 1878.

CONCLUDING REMARKS.

The year opened with the road cut in twain by the fall of the Ashtabula Bridge. Of the 92 killed in that accident, 83 have been settled for. Of the 64 injured, 56 have been settled for. This absorbed $453,800 of the earnings; other payments on account of this accident swelled the sum to $495,722 42, which is almost exactly one per cent upon the capital stock.

The great strike occurred in the latter part of July, and all freight traffic was stopped for a period of ten days.

This company was so fortunate as to have no property destroyed; and after a frank discussion of some minor grievances, and the adjustment of them, the harmonious relations which had always existed were restored.

It is impossible to estimate the amount of earnings absolutely lost by the strike. Our competitors being in the same situation at the same time, the movement of freight was to some extent simply deferred, not positively lost.

Notwithstanding these adverse and exceptional circumstances, the road earned 3½ per cent upon the capital stock. The stockholders received, however, but 2 per cent, as the Ashtabula accident had to be met from current revenue—requiring one per cent—and the annual contribution to the Sinking Fund—$250,000—likewise paid from current revenue, absorbed the other half per cent.

The year 1878 opens with promise of much better results.

The increase in gross earnings first quarter, is	$531,800
The decrease in expenses, first quarter is	253,000
Making an increase in net earnings of	$784,800

The fixed charges against net earnings for 1878 will be as follows:

Interest on L. S. & M. S. R'y debt, 35,750,000 at 7 per cent	$2,502,500
Interest on D. M. & T. R'y debt, 924,000 at 7 per cent	64,680
Interest on K. & W. P. R'y debt, 600,000 at 7 and 8 per cent	44,000
Dividend on Guaranteed Stock, $533,500 at 10 per cent	53,350
Rental four branch roads—(two estimated)	265,000
	$2,929,530
Less interest and dividends on assets—estimated	200,000
	$2,729,530
Last year	2,775,657
Estimated reduction	46,127

To the General Manager, Mr. John Newell; the General Superintendent, Mr. Charles Paine; and the Chief Engineer, Mr. L. H. Clarke; and their assistants, much credit is due for the efficiency and sound economy with which the road has been worked.

The number of engines on the road December 31, 1877, was 495. Miles run by engines, 10,352,055. Cost of repairs per mile run, 5.12.

The cars are classified as follows: first class passenger, 145, second class and smoking 9, emigrant 26, railroad postal 17, baggage 64, paymasters' 2, express freight 6, box, 5,178, stock, 1,827, oil 262, platform 1,682, coal 1,896, caboose 245, derrick 9 and dumper 148.

Tons of through and way east bound freight, 3,718,449; do. west bound, 1,794,949—total freight movement, 5,513,398. Tons carried one mile east, 747,274,720; do. west, 332,780,841—total, 1,080,065,561.

Number of through passengers carried: first-class, 47,682: second class, 9 260; emigrant, 8,178—total, 60,120. Way passengers: first-class, 2,660,258; second-class, 14,601; emigrant, 7,816—total, 2,682,175. Total through and way, 2,742,295. Passengers carried westward, 1,883,228; do. eastward, 1,360,067. Miles traveled by through passengers, 32,464,800; do way passengers, 105,651,818—total mileage of passenger, 138,116,618.

Repairs and renewals, included in operating expenses:

	Tons.	Miles.
Steel rail	15,080	160.17
Re-rolled iron rail	786	8.34
Repaired iron rail	4,186	44.40
Total	20,052	212.91
Cross-ties renewed, 574,056, equal to		214.70
Track ballasted with stone and gravel		168.50

A statement of the earnings of this road, monthly, for a series of years will be found on page 523 of this week's issue; also a full description of the bonded debt—amount outstanding, rate of interest, and when and where payable, and the date of maturity of the principal—will be found on page 529.

CONDENSED BALANCE SHEET, Dec. 31, 1877.

Capital stock, common		$49,466,500 00
Capital stock, preferred		533,500 00
Total stock		$50,000,000 00

General Superintendent.—CHARLES PAYNE.

Canadian Pacific Railway.

A special despatch to the World, dated Ottawa, Ont., May 7th, says that Mr. Mackenzie, the Premier, has laid before Parliament his policy with reference to the construction of the Canadian Pacific Railway, and then adds:

Since the inception of the undertaking in 1872 $15,000,000 has been spent in surveys and on contracts. The surveyors have traversed 47,000 miles and 12,000 miles have been actually covered by instrumental surveys. Forty lives have been lost, chiefly in the fastnesses of the Rocky Mountains and from exposure. The estimate of the cost of the undertaking is as follows:

Lake Nipissing to Lake Superior	$23,000,000
Lake Superior to Red River	14,700,000
Red River to Rocky Mountains	26 000,000
Rocky Mountains to Pacific	35,000,000
Pembina branch	1,300,000
Total	$100,000,000

Mr. Mackenzie estimates that the Canadian Pacific will be over 500 miles shorter than any of the transcontinental routes in the United States. The road will not be completed for seven years at least.

Great Western Railway of Canada.

DIRECTORS' REPORT.

The half year's accounts to January 31, 1878, having been duly audited, are now presented to the Proprietors in the usual form, the figures being reduced to a uniform gold basis.

The half-year's results exhibit a considerable improvement upon those of the corresponding half year to January 31, 1877:

	1877.	1878.
Gross receipts	£101,628	£467,237
Cash working expenses, exclusive of credits to reserve funds (being at the rate of 63.19 per cent, as compared with 78.11 per cent for the corresponding period)	313,715	295,274
	£87,913	£171,963
Cash lost on working leased lines, interest on bonds, debenture stock, &c	95,688	98,795
Deficiency	£7,775	£78,168

As compared with the corresponding half-year of 1877, the net amounts charged to revenue account, and credited to the various reserve funds, are as follow:

	1877.	1878.
Ferry steamers fund	£3,137	£3,725
Locomotive fund	6,718	9,815
Car fund	3,974	4,903
Rail and bridge fund	10,607	4,544
Insurance fund	552	552
Depreciation fund	860	...
	£25,848	£23,540

The net revenue surplus is therefore £49,628, as compared with a revenue deficit to January 31, 1877, of £33,628, showing an improvement, in the working of the half year, of £83,251. From the available surplus of £49,629 there has to be deducted the debit balance of revenue account on July 31, 1876, amounting to £3,197. The payment of the dividend on the 5 per cent preference stock, for the entire year to January 31, 1878, will absorb £25,288, leaving a balance of £21,144, from which the directors recommend a dividend on the ordinary shares at the rate of five-eighths per cent per annum, amounting to £18,667, the surplus, £2,478, being carried forward to the next half-year. This satisfactory result is due in part to the exceptional mildness of the late winter, and in part to care and economy of management; but mainly to the circumstance that during most of the half year the freight rates were maintained at a profitable standard, while the tonnage was heavier than usual. In December, however, the through rates from Chicago to the East, over which this company has no control, were again reduced by the through trunk lines to the low tariff prevailing in the previous winter, and much of the benefit expected to have been derived from the late abundant harvest, and the exceptional demand for breadstuffs in Europe, was thus sacrificed. Lately more profitable rates have ruled.

The gross receipts on the main line and branches compare with those of the corresponding half-year as follows:

Increase in—	
Through freight earnings	£76,295
Through live stock earnings	644
Local freight earnings	10,871
	£87,810
Decrease in—	
Through passenger earnings	£20,731
Local passenger earnings	1,054
Local live stock earnings	375
Mails, express freight, and rents	41
	22,201
Total increase	£65,609

The freight traffic of the half year contributed 65 per cent of the total earnings, compared with 54 per cent in the corresponding half-year. The increase in freight tonnage amounted to 79,708 tons, of which 50,101 were through and 29,602 local. The passenger traffic shows a decrease in receipts of £21,785, the number of passengers being 27,790 less than in the corresponding half-year. A similar diminution has been experienced by all connecting and neighboring lines, and is attributable partly to a comparison with the Centenial Exhibition Traffic of 1876, and partly to the continued depression of trade throughout the United States.

The revenue account shows a large reduction in the percentage of cash working expenses as compared with the corresponding period, the figures being 63.19 per cent as against 78.11 per cent. This result is the more satisfactory as owing to the disproportion between the east and west bound through freight traffic, a greatly increased empty car mileage has been necessary; the tonnage of east bound through freight having increased, while that of west bound freight has decreased. The cash working expenses per train mile have been reduced from 8s. 8½d. to 8s. 3½d. The improved working of the line is chiefly due to the care and energy of the General Manager, and to the efficient manner in which the heads of departments have seconded his efforts. The comparative immunity from accident is attributable to the excellent condition of the roadway, and to the vigilance of the staff generally. The following table is in the customary form:

Half-years ended—	Earnings per train mile. s. d.	Cash working expenses including reserve and other funds. Per train mile. s. d.	Per ct. of gross receipts.
January 31, 1875	6 8¼	4 11¼	74.98
July 31, 1875	4 11¼	4 6	90.82
January 31, 1876	5 7	3 11½	70.99
July 31, 1876	4 10¼	3 6¼	78.63
January 31, 1877	4 9	3 8¼	78.11
July 31, 1877	4 9½	3 6¼	74.41
January 31, 1878	5 2½	3 3½	63.19

The assimilation of the value of gold and American currency has been beneficial to the operations of the company, the conversions effected during the half year having been at an average rate of 102.70 against 109.21 in the corresponding half year.

The charges to the reserve funds are made on the basis explained in previous reports and approved by the shareholders. In the last report, the directors stated that the credits to the funds had been suspended for the half year to 31st July, 1877, on the understanding that the amounts so held back would be made good out of the revenue of future half years. The revenue of the present half year, to 31st January, 1878, having to bear a charge belonging to the previous half year of £15,840 10s. 6d. on account of the revenue deficiency and the arrears of dividend on the 5 per cent preference stock for the half year ended 31st July, 1877, it has not been thought equitable to burden it also with any portion of the amount of the credits to the reserve funds suspended last half year, and it is hoped that this course will be approved by the shareholders. The movement of the funds for the half year is as follows:

	Balance July 31, 1877.	Debit or credit during half-yr.	Balance Jan. 31, 1878.
Ferry steamers renewal fund	£11,822	£3,725	£15,547
Locomotive renewal fund	111,129	9,815	120,944
Car renewal fund	39,394	4,903	44,297
Rail and bridge renewal fund	18,892	4,544	23,536
Insurance fund	552	552	1,104
Leased line suspense account	Dr.41,460.	Dr.5,292	Dr. 46,751
	£140,430	£18,248	£158,678

The working of the leased lines, excluding the interest on the London, Huron, and Bruce bonds, but including transfers to reserve funds, shows a loss of £8,233, as compared with £12,627 in the corresponding half year, or an improvement of £4,394. The increase in the "leased lines suspense account" was explained, in the last half year's report, to arise from additional expenditure being found necessary for the renewal of bridges on the London and Port Stanley railway, the charge of which to revenue will be spread over the remaining term of the lease. A further outlay has been authorized for the renewal in steel of the iron rails on that portion of the Welland railway leased by this company, which will, in like manner, be charged to revenue in equal half-yearly proportions.

The charges against capital account during the half year amounted to £471,012, consisting principally of discount on shares and debenture stock issued during the half year. The account shows a debit balance at 31st January of £63,163, but the remaining instalments on the new shares and 5 per cent debenture stock since received have replaced this account in credit.

The directors announced, in the last half year's report, the arrangments adopted for replacing terminable bonds of the company by the issue of 31,714 new shares and three and five years' 7 per cent bonds, which had been created to a maximum limit of £500,000. The directors closed the issue of 7 per cent bonds on the 15th October, 1877 (the creation of the unallotted balance of £280,600 having been cancelled), and in a circular dated the 14th January, 1878, applications were invited for £250,000 5 per cent perpetual debenture stock at the price of 80 per cent, part of a total creation of £571,161 10s. The issue has been wholly subscribed for and allotted.

DETROIT AND MILWAUKEE RAILROAD.

The arrangement with the bondholders which has been long pending, and is referred to in the last two half years' reports, now approaches a satisfactory termination. The agreement, which has been finally entered into with the London Bondholders' Committee, the directors consider beneficial to all the interests concerned. This agreement is printed in the Appendix (A), and although its terms are within the powers already granted by the proprietors at the special general meeting held on the 26th April, 1877, as well as at former meetings, the directors deem it desirable that the present arrangement should be formally confirmed at the special general meeting.

BRANTFORD, NORFOLK AND PORT BURWELL RAILWAY.

This branch line is now being worked as part

of the Great Western system. An accident to a bridge over the Grand River somewhat retarded the opening of the line for regular traffic.

GALT AND GUELPH RAILWAY.

Arrangements have been concluded, which will be ratified by an act before the Ontario Legislature, for removing the impediments hitherto existing to working this railway of 15½ miles as a part of the Great Western system. The controversy between this company and the Galt and Guelph Company has caused many years of litigation. By the compromise arrived at the Great Western are to pay the sum of $12,000, in consideration of which the Galt and Guelph Company surrender the whole of the shares, and satisfy all outstanding liabilities. The necessity of keeping separate accounts for the earnings of this line will then cease. The shareholders will be asked to sanction this arrangement.

It is proposed to make the dividend on the ordinary shares and preference stock payable on the 8th May.

On behalf of the Board of Directors,
HUGH C. E. CHILDERS, President.
London, 16th April, 1878.

Memoranda Concerning Government Bonds.

Messrs. Fisk & Hatch have issued a fourth edition of their "Memoranda Concerning Government Bonds," which can be obtained on application at their office, No. 5 Nassau street. We select the following in relation to the probable calls for refunding:

The 6 per cent bonds (except those which will become absolutely payable at specific dates), will be called in and redeemed in the following order, and probably within about the periods named, viz:

1. Five twenties of 1865 (now being called in); in from three to twelve months.
2. Five-twenties of 1867; in from one to four years.
3. Five-twenties of 1868; in from to three to five years.
4. Sixes of 1881 (second and third series); after all the five-twenties have been redeemed; or in from five to eight years.

Unforseen events may cause the actual results to materially vary from any estimates that can now be made; but the foregoing are the suggestions of our best judgment from the indications of the present and the experience of the past. It is more difficult to conjecture in what order the two classes of 5 per cent bonds, viz., the 10 40s and the 5s of 1881, may be paid off, as there is no legal requirement now existing to govern the action of the Treasury Department in that respect. The custom heretofore established, and so far invariably pursued in the redemption of bonds, the redemption of which had become optional with the Government, of redeeming them in the order in which the option matures, would point to the 10.40s as the first of the 5 per cent bonds likely to be called in. It is also difficult to estimate when the Government will be in a position to commence the redemption of either of the issues of 5 per cent bonds.

It is not improbable that by the time the 6 per cent bonds have all been redeemed, if not before, the revival of business and returning confidence in the stability and productiveness of the legitimate enterprises of commerce, manufactures, transportation and building may once more attract the now timid and idle capital of the country into these channels to such an extent that it will be impracticable for the Government to borrow money to any considerable amount at a lower rate of interest than 5 per cent.

We think therefore that the holders of 5 per cent bonds may safely calculate upon the continuance of their investment undisturbed for a long term of years, and that in estimating the relative desirability of the various issues of Government bonds for new purchases investors may assume that neither the 5s of 1881 nor the 10.40s are likely to be redeemed in less than from ten to fifteen years. From all the indications now available, as guides to judgment or conjecture, we would class the several issues, for desirability of investment, at their relative prices at this date as follows, viz:

First—5s of 1881 and 6s of 1881.
Second—10-40s.
Third—4½ per cent bonds.
Fourth—4 per cent.
Fifth—5-20 of 1865.
Sixth—5-20 of 1867.
Seventh—5-20s of 1868.

The currency 6s having fixed periods to run of seventeen to twenty-one years, with no option on the part of the Government to call them in before maturity, are for this reason especially desirable for long investment for estates, trust funds and banking purposes.

Erie Railway Receivership Ended.

A few days since Mr. Hugh J. Jewett, as Receiver of the Erie Railway Company, submitted a petition to Judge Donohue, in the Supreme Court, in reference to his accounting as such Receiver in connection with the People's suit and the suit of the Farmers' Loan and Trust Company against the Erie Railway Company.

He states in the petition that in the People's suit it was made to appear that there could be no surplus left, inasmuch as the current net revenues would not meet the interest on all the bonds, besides containing matters not within the mortgages and so connected that they cannot well be severed. An accounting, therefore, in that suit, he says, has not been had. In the suit of the Farmers' Loan and Trust Company he says he has accounted from month to month; that in this suit the decree directing the sale of the road under foreclosure was entered on the 24th of last September; that the sale under such decree took place on the 24th of April, inst.; that the report of the sale was confirmed on the following day, and that two days later a conveyance of all the property sold in the foreclosure proceeding was made to the new company; and that, at the time of such conveyance, his indebtedness as Receiver amounted to $1,083,783 95.

He asked to have his accounts confirmed as Receiver, subject to a special accounting in regard to some items, and to be empowered to transfer all matters in his hands to the new corporation, subject to the rights of the people of the State in the Attorney-General's suit, and to the payment of the indebtedness of the Receivership.

On the 7th inst. Judge Donohue granted an order confirming Mr. Jewett's accounts, and authorizing the transfer of the old company's assets to the new corporation. Mr. Jewett is discharged from further liability and duty as Receiver, except as concerns the discharge of his indebtedness as such Receiver, and the defending and prosecuting of the suits against or by him in that capacity.

☞ The annual meeting of the stockholders of the Philadelphia, Newtown and New York Railroad Company was held in Philadelphia on the 6th inst. The report of the board of directors states that there has been a steady and favorable increase of traffic over the line since it was opened to travel. The road now lacks but six miles of being a complete direct route to New York, and it is contemplated to fill this gap at an early date. This distance lies between Newtown and Somerset Junction, the Mercer and Somerset Railroad passing the latter place.

The Iron Trade.

The iron trade just now is looked to with much interest by our people whose prosperity is so closely interlinked with the prosperity of that trade. With a view of gathering some further facts concerning the trade, a representative of this paper made a tour among some of the leading mills in Western Pennsylvania, Eastern Ohio and West Virginia a few days ago, and gleaned some interesting information. In general the impression seemed to prevail that the dark cloud which has enveloped the trade for years was about breaking, and nearly all the manufacturers prophesied that the dawn of better times was near at hand. Speaking of the trade in our own State and in Pittsburg, it is considered to be much better than it was one year ago, so far as the demand is concerned. With the manufacturers generally the only cause of complaint is, perhaps, that under the influence of a sharp competition, prices have been cut so close that there is scarcely any margin for profit. This drawback, however, it is thought, will soon be removed, as with the increase in demand will come better prices.—*Pittsburg Gazette.*

☞ Several hundred tons of steel rails have been laid on the Shore Line division of the New York, New Haven and Hartford Railroad in the past few weeks. A piece between Saltonstall Lake, New Haven, and Branford was laid with these rails not long since, and very recently a portion of the road near East Lyme has been equipped. In all about 1100 tons of steel will be used this spring, which will make the Shore Line division completely equipped, and this done, the entire Consolidated road from New York to Springfield and New London will be laid in these rails.

☞ The Portsmouth Tribune says that Manager Chapman, of the Scioto Valley Railway, has sold, through Messrs. Winslow, Lanier & Co., of New York, $500,000 Scioto Valley Railroad bonds. This places the road in first-class shape in every respect. Messrs. Winslow, Lanier & Co. have entire control of the sale of the bonds. One of their firm recently went over the road, and they were not slow to see that it was destined soon to be one of the best paying roads in the country.

☞ A party of officers of the New York Central Railroad passed over the Atlantic and Great Western Railroad on the 6th inst., for the purpose, it is said, of examining its condition, with a view to ultimate purchase or lease by the New York Central. Direct connection has recently been made with the New York Central from Salamanca.

☞ Phillips, Nimick & Co., of the Sligo Iron Works, have just received at their works one of Riehle' Bros. latest improved Standard Machines of 40,000 lbs. capacity; also the U. S. Cotton Tie Co., of Youngstown, have ordered a fine Riehle' machine of 20,000 lbs. capacity, to test band iron, etc.

☞ The grading of the Pittsburg Southern Railroad is now in progress between Banksville and Castle Shannon. The contract requires that the grading be completed by the 7th of June, between the two points named.

☞ The Philadelphia and Reading Railroad shipped 171,000 tons of anthracite coal during the week ending May 4th.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

A cipher (0) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Interest paid by United States, $37,896,384 50; interest repaid by transportation of mails, &c., $9,162,852 34; balance of interest paid by United States, $28,733,492 16.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

Chicago and Northwestern Railway.

The following is a comparative statement of the earnings of the Chicago and Northwestern Railway Company for the fourth week in April:

1878	$358,897 39
1877	258,070 50
Increase, 39.07 per cent.....	$100,826 89

The earnings for the month of April were as follows:

1878	$1,108,369 39
1877	867,603 31
Increase, 27.75 per cent.....	$240,766 08

The earnings for eleven months of the fiscal year, from June 1 to April 30, were as follows:

1877-'78	$12,205,997 72
1876-'77	11,138,100 95
Increase, 9.59 per cent.....	$1,067,886 77

☞ At the annual meeting of the stockholders of the Kansas Pacific Railway Company, held in Lawrence, Kansas, on the 2d inst., the following gentlemen were elected directors for the ensuing year: John D. Perry, Robert E. Carr, D. M. Edgerton, T. F. Oakes, Theodore G. Meier, S. M. Edgell and Dwight Tredway of St. Louis; Jay Gould, A. H. Holmes and Sidney Dillon of New York, and Fred. L. Ames of Boston.

American Railroad Journal.

Saturday, May 11, 1878.

Financial and Commercial Affairs.

Nearly all the influences in operation during the week have tended to depress loan and discount rates in the open market. The offerings of capital have been considerably in excess of the comparatively moderate wants of borrowers. The rapidity with which the Syndicate refunding negotiations were progressing, in connection with the public indebtedness, tended to strengthen confidence. The advices from Europe have been viewed as of a more pacific tenor, and have had a favorable bearing on current financial movements. The activity in the Produce trade, especially in the movement of Breadstuffs toward the seaboard, has been regarded as decidedly encouraging. The remarkably favorable crop reports from nearly all sections have had full weight in shaping public sentiment. Call loans have been quoted here at from 3@7, with 3½@5 per cent as the basis of the principal negotiations, and very choice to strictly prime mercantile credits were rated at 4½@6½, the best grades passing readily at 5@6 per cent per annum. The demand for aid from responsible sources has not been urgent, in any prominent instance. The City bank exhibit of last week indicated a reduction in the loan and discount average of $365,100, and in the item of circulation of $23,500. The average of deposits was cut down $1,801,000. The legal tender reserve was enlarged $1,501,500; and the specie average reduced $2,538,200. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $16,718,700, against $17,500,150 the

preceding week, and $17,608,550 the week ending April 20th (the latter the highest aggregate yet reached this year.) The City bank exchanges in currency reached $439,525,545, or a daily average of $73,254,257.

The U. S. Controller of the Currency has issued a circular calling for a statement showing the conditions of the national banks at the close of business on Wednesday, 1st of May.

The outstanding amount of legal tender notes is $346,681,016. The National bank circulation is now $321,626,059 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,964,000.

On Wednesday, the outstanding circulation of United States Treasury notes and fractional currency was $363,486,431, as follows: United States notes, new issue, $19,775,497; series of 1869, $152,188,417; series of 1874, $39,555,288; series of 1875, $134,397,914; series of 1878, $793,900; total United States notes, $346,681,016; fractional currency, $16,805,414 62.

More demand has been reported for Government Securities, almost wholly on home investment account, with the favorite issues quoted stronger in price, on lighter offerings. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107⅜@107¾; do. coupon, 107⅜@107¾; 5-20s, 1865, new, registered, 103⅞@104; do. coupon, 103⅞@104; do. 1867, registered, 106⅝@106¾; do. coupon, 106⅝@106¾; do. 1868, registered, 108⅞@—; do. coupon, 109@—; ten-forties, registered, 105⅞@106⅛; do. coupon, 105⅞@106⅛; five per cents, 1881, registered, 104⅝@104¾; do. coupon, 104⅛@104⅝; 4½ per cents, 1891, registered, 103¼@103⅜; do. coupon, 103¼@103⅜; 4 per cents, 1907, reg., 100⅝@100¾; do. coupon, 100⅝@100¾; sixes, currency, 119@119½.

On Tuesday, the Syndicate anticipated the July option, to take $5,000,000 U. S. 4½ per cent bonds, making the aggregate of this Loan taken since April 11th (inclusive) $25,000,000, thus since the latter date placing at the disposal of the United States Treasury, $25,000,000 of gold for redemption and resumption purposes, and reducing the annual interest on specified amount of bonds from 6 to 4 a 4½ per cent. As the 4½ per cent bonds are being now marketed at the rate of more than $1,000,000 per day it is deemed probable that the whole $50,000,000 will be disposed of before the 1st of July.

The reported subscriptions to the new popular four per cent Government loan have been, thus far, nearly eleven millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $347,821,850, and $13,448,000 as security for public deposits.

The income of the Government from internal revenues last week was about 2¼ millions, and from Customs last week about 2¾ millions.

A fairly active inquiry prevailed for State bonds, chiefly on investment account, and prices have been quoted generally firm. Railway Mortgages have been more sought after, on investment account, and the favorite loans have been quoted stronger. And in the line of Railway and Miscellaneous share property business has been to a fair aggregate, but values have been quite variable, leaving off, however, more firmly. The very free movement in Produce from the interior was deemed advantageous to the carrying interest. The more pacific tenor of the foreign advices, however, was not considered favorable to the export call for American food supplies.

Gold was in comparatively moderate request, and without important alteration as to price. The extremes during the week have been 100⅜@100½, closing on Wednesday at 100½ as against 100½ on Wednesday of the preceding week. The specie outflow last week reached $465,300—making the total exports of specie hence since January 1, $7,584,532 against $7,168,764 the same time in the preceding year. The imports of specie at this port last week were to the amount of $525,662 (chiefly from Hamburgh and Havre) and since January 1st have been $11,029,638 as against $6,560,863 same time in the preceding year. The Customs demand for gold in the local market last week reached $1,778,528 or an average of $296,421 per day.

Less inquiry has been reported for Foreign Exchange which has been quoted easier as to price. Bankers' sixty day bills on London closed on Wednesday at $4 85¾@$4 86½; sight bills on London at $4 88¼@$4 89 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,316,273 as against $6,188,155 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,182,944 of Dry Goods, and $4,133,329 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $6,830,957, against $5,955,726 same week in 1877; and since Jan. 1 have been $120,338,912 against $92,321,731 same time last year.

A moderate business has been reported in Metals which have been generally quoted about steady as to values. American Pig Iron sold to an important aggregate within the previous range. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18@$19; No. 2 do. at $17@$18. Forge $16@$17. New Iron Rails at works $32@$36. Old Rails $19@$19 50. Wrought Scrap $21@$22. Steel Rails, on the basis of $42@$45. Ingot Copper for prompt delivery has been inactive on the basis of 16¾@17cts. for early delivery.

A fairly active movement has been reported in Produce and Merchandise, but values have been quoted weaker and irregular in most instances. Breadstuffs have been in fair request, especially Wheat, Corn, and Oats for early delivery, but at easier figures. Provisions have been less sought after and further depressed in price. Cotton has been comparatively slow of sale, on a slightly reduced basis as to rates: Naval Stores and Petroleum have been in moderate demand, and quoted weaker in price. Foreign merchandise has been inactive at drooping rates.

On Monday, the arrivals of Grain at this port embraced the very large aggregate of 726,950 bushels wheat, 634,100 bushels corn, 69,500 bushels oats, 51,100 bushels rye, and 10,100 bushels of barley, besides 22,129 barrels of flour. The quantity of grain on the Erie Canal May 3 amounted to 1,930,963 bushels wheat, 1,647,319 bushels corn, 233,666 bushels oats, 39,899 bushels rye, 28,197 bushels peas, and 11,700 bushels malt.

Ocean freights have been more active and generally quoted firmer, especially in the Grain interest, on berth and charter. Liverpool steamer rates at the close for Grain, quoted at 8d. Flour, at 2s. 6d.@2s.9d. Provisions, 30s.@35s.; Leather, 45s.@50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, ⅛d. per lb. Liverpool, by sail, Cotton, ⅛d. Grain at 7@7⅛d.; Flour, 2s.@2s. 3d.; Measurement Goods, 15s. Tobacco 25s.; Oil Cake at 22s. 6d. Grain rates on charter hence for Cork and orders left off at 6s.@6s. 3d.; for the Continent Grain at 5s. 6d.@6s. 6d. and from Baltimore for Cork and orders, 6s. 3d.@6s. 6d. and from Philadelphia at 6s.@6s. 3d.; from Boston at 5s. 6d.@5s. 9d. and from Portland at 5s. 9d @6s. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom (next crop) at 55.s.@62s. 6d. Refined Petroleum hence for Liverpool at 3s. 4½d.@3s. 6d; for Bristol at 3s. 10½d. Cork and orders, 4s.@4s. 3d.; for the Continent, 3s. 3d.@3s. 9d, for the Baltic at 4s.@4s. 7d. and Java at 30@32ct. and Japan 37½@42½cts. and for French ports (crude) at 3s. 9d.@4s. 6d. Gibraltar and orders at 4s. 3d.@5s. 6d.; do. in cases, from Phila. to Italian ports, at 22@26ct. and Adriatic 28@32cts. Cotton by sail from New Orleans to Liverpool 5-16.d; from Galveston, at 7-16d.; Ky, Tobacco from New York to Spain at 35s. and to Bordeaux at 35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 9d.@6s. and for Trieste, Resin, 5s. from Charleston or Savannah at 3s. 9d. and 5s@5s. 9d. Lumber from New York to Montevideo at $14 and 5 per cent primeage. Savannah, Brunswick or Union Island to the River Platte, $18@19. Deals from Calais to Liverpool at 62s.@65s. St. John to Liverpool at 65s.@70s., and Charleston or Savannah to the United Kingdom at 100@110s. and Florida to the United Kingdom, Continent or Mediterranean, 110s.@120s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Through Provision freight room by steam from the West for Liverpool quoted at the close at 45@50ct. per 100lbs. as to routes.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Railways in New Zealand.

Mr. Carruthers, engineer-in-chief for railways in New Zealand, reports that at the close of June, 1877, there were 860 miles of railway opened for traffic in that colony, and 274 miles in progress, which are expected to be completed in 1877-78. In comparing this with the other colonies we find that Victoria comes next in its length of lines, having at the end of last year 702 miles open for traffic, and 259 miles more in progress, while New South Wales had only 509 miles opened, and 180 miles in course of formation. By adopting a gauge of 3 feet 6 inches the New Zealand government has not only been able to construct its lines with greater speed than the railways made in Victoria and New South Wales, which have wide gauges, but it has also been enabled to make them at considerably less cost. In New Zealand the expenditure on the 860 miles of railway in operation has been £6,129,920, or an average of something over £7,277 per mile, while in New South Wales the average is £15,699, or more than double; in Victoria £21,354; in South Australia, £8,480; and in Queensland, £10,633 per mile.

Seaboard and Roanoke Railroad.

At the annual meeting of the Seaboard and Roanoke Railroad Company, held at Portsmouth, Va., on the 7th inst., the following board of directors was elected: John M. Robinson, Moncure Robinson, Nalbbo Frazier, Enoch Pratt, David A. Barnes, Richard Dixon and Wm. L. Savage. John M. Robinson was re-elected president. The report showed an improvement in travel and freight over the previous year. With two new and magnificent steamers on the Bay Line from Baltimore to Norfolk, connecting with the Seaboard and Roanoke railroad, business has largely increased.

Baltimore and Hanover Railroad.

The first annual meeting of the Baltimore and Hanover Railroad Company was held at Hampstead, Carroll county, Md., on the 7th inst. The following were elected directors for the ensuing year: A. W. Eichelberger, S. Keefer, L. F. Melsheimer, of Hanover, Pa.; C. W. Slagle, W. H. Vickery, of Baltimore city; Wm. H. Hoffman, of Baltimore county; C. C. Wooden, of Carroll county, Md. The board then elected A. W. Eichelberger President, L. F. Melsheimer Secretary, and Robt. Wirt Treasurer. The grading of seven miles is nearly complete, and the balance is to be let out shortly.

☞ In the case of the Kansas and Denver Pacific against the Union Pacific Railroad Company to compel the latter to prorate, Judge E. S. Dundy, in the United State Court, at Omaha, on the 8th inst., decided adversely to the plaintiffs. He held that the Denver Pacific was a branch of the Union Pacific; also, that the building and operating expenses west of Cheyenne, being greater than on the east end of the road, entitled the Union Pacific to a greater rate per mile on business received at Cheyenne than on through business, and that the Union Pacific did not discriminate against other roads in applying this rule.

Chicago, Milwaukee and Minneapolis Railway Company.

The purchasers of the West Wisconsin Railway, which was sold by auction at Madison, Wis., on the 1st of March, transferred their individual interests on the 30th of April to a stock company organized under the provisions of chapter 119, laws of 1872, being a general statute relative to the organization of railroad companies, the present company being organized under that section which refers to companies formed "for the purpose of maintaining and operating railroads heretofore constructed."

The new company is known as the "Chicago, Milwaukee and Minneapolis Railway Company," and is chartered with a capital stock of $5,000,000, consisting of 50,000 shares at $100 per share, 40,000 of the shares being common and 10,000 preferred stock. The directors are: W. H. Ferry, Lake Forest, Ills.; James H. Howe, Kenosha, Wis.; Philetus Sawyer, Oshkosh, Wis.; George B. Smith, Madison, Wis.; E. W. Winter, Hudson, Wis.; C. D. W. Young, Hudson, Wis.; John C. Spooner, Hudson, Wis.; James W. Ferry, Chicago, Ills.; H. H. Weakley, Hudson, Wis.; Wm. H. Ferry, Jr., Lake Forest, Ills.; J. B. Redfield, Chicago, Ills.; R. Egerton, New York. The officers are: President, W. H. Ferry; Secretary, H. H. Weakley; Treasurer, R. P. Flower; Assistant Treasurer, J. B. Redfield; General Superintendent, E. W. Winter; Auditor, C. D. W. Young; Land Commissioner, H. H. Weakley; General Solicitor, J. C. Spooner.

The road runs from Elroy to Hudson, Wis., and has a large freight patronage, which will render it a profitable road, under the careful management which the directors state they will immediately inaugurate.

Atchison, Topeka and Santa Fe Railroad.

About six months ago the Tribune, in making the announcement that Mr. W. B. Strong, the General Superintendent of the Chicago, Burlington and Quincy Railroad, had been appointed Vice President and General Manager of the Atchison, Topeka and Santa Fe Railroad, stated that the appointment had more significance than was generally supposed, and that it was indicative of a forward movement toward a second transcontinental line, and that the owners of the Atchison, Topeka and Santa Fe Railroad, mostly New England capitalists, were fully able to carry out the project without Government subsidies, as asked by Col. Thomas A. Scott.

The correctness of the Tribune's information is now borne out by the steps taken since then by the new management, and which leave no more room for doubt that the road will be speedily extended to a connection with the present terminus of the Southern Pacific at or near Fort Yuma. The managers of the road have decided to build 111 miles of new road at once. The present terminus of the Atchison, Topeka and Santa Fe Railroad is at Pueblo. The new extension will commence at La Junta, a point 62 miles east of Pueblo, from whence it will run to Trindad, 80 miles southwest of La Junta; thence through Raton Pass to Clifton or Red River, which is 31 miles from Trinidad and 15 miles south of the New Mexico and Colorado boundary line, into New Mexico, or 111 miles from La Junta. From this point onward the road will be known as the New Mexico and Southern Pacific Railroad, for which a charter has lately been secured, and of which Mr. W. B. Strong is the President. The charter exempts this company from all taxation for twelve years, and gives it the right to charge 10 cents per mile per passenger and 15 cents per ton per mile on freight until the company earns 10 per cent upon its investment. After that time the Legislature will have the right to fix the rates for the company. The money has been raised not only to build the road to Clifton, but also to Las Vegas, an important point 114 miles south of Clifton. The new road will be completed as far as Trinidad by December 1, 1878, and probably before. There will be a tunnel in Raton Pass about three-fifths of a mile long, which will take eight or nine months to complete, and which will prevent the company from reaching Clifton much before April 1, 1879. After reaching Clifton the road will be extended south through Fort Union to Las Vegas as fast as circumstances will permit. It will be optional with the company as to time and speed for completing the work, as the money for 225 miles is in hand. The Atchison, Topeka and Santa Fe Railroad, as it is to day, lacks only about 900 miles of a connection with the Southern Pacific Railroad, while Scott's line lacks over 1300 miles—Fort Yuma being a common point to both—with about 400 miles less distance to build now, of which 225 miles are already provided for, which will reduce the gap between the Atchison, Topeka and Santa Fe to less than 700 miles, or about half that Scott has to build.—*Chicago Tribune.*

Pittsburg, Cincinnati & St. Louis Railway.

The following is an approximate statement of the earnings, expenses, etc., of this company for the first quarter of this year:

Gross earnings (including interest received on equipment), January 1 to April 1, 1878	$793,637
Expenses (including interest on car trust cars and rent of Monongahela extension) for same period	456,458
	$337,184

The interest on the bonds for these three months is:

$3,000,000 Steubenville and Indiana Railroad 6 per cent	$45,000
$775 000 Steubenville and Indiana Railroad 7 per cent	13,562
$6,222,000 Pittsburg, Cincinnati and St. Louis Railway 7 per ct.	108,885
	167,447
Surplus	$169,737

The above statement shows that the Pittsburg, Cincinnati and St. Louis Railway Company is doing very well. There is a good prospect of the improvement in net earnings being maintained throughout the year.

☞ The track of the Canadian Pacific is now laid and engines running from Winnipeg to Selkirk, a distance of 21½ miles, and from Selkirk eastward, on section 14 of the main line, 50 miles. This gives 71½ miles, all told, in working order within Manitoba. At the eastern end of the line, Purcell & Ryan have pushed their work to a very advanced point, and expect to have the road built 113 miles westward from Thunder Bay this fall.

☞ The earnings of the Central Pacific Railroad for the month of April, 1878, were $1,510,000, against $1,438,659 for the month of April, 1877, and $1,427,034 for the month of April, 1876. For the first four months of 1878, the earnings were $4,833,410, against $4,799,819 for the first four months of 1877, and $4,623,259 for the first four months of 1876.

☞ At the annual meeting of the stockholders of the Wheeling, Pittsburg and Baltimore Railroad Company, held in Washington, Pa., on the 6th inst., the following gentlemen were elected directors: J. B. Washington, W. S. Bissell, W. W. Smith, Wm. Workman, S. B. Hayes, Wm. Keyser and A. Maddison. At a meeting of the board of directors, subsequently held, the following officees were re-elected: J. B. Washington, president; W. W. Smith, secretary, and W. H. Ijams, treasurer.

Redemption of 5-20 Bonds.

The Secretary of the Treasury issued on the 6th of May, the fifty-seventh call for the redemption of 5 20 bonds, consols of 1865. The call is for $5,000,000, of which $3,000,000 are coupon and $2,000,000 registered bonds. The principal and interest will be paid at the Treasury on and after the 6th day of August next, and the interest will cease on that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1, 1865, namely: $50, Nos. 53,001 to 56,000, both inclusive; $100, Nos. 90,001 to 95,006, both inclusive; $500, Nos. 63,001 to 67,000, both inclusive; $1,000, Nos. 114,401 to 120,900, both inclusive. Total coupons, $3,000,000.

Registered bonds, redeemable at the pleasure of the United States after the first day of July, 1870, as follows: $50, Nos. 1,901 to 1,950, both inclusive; $100, Nos. 15,201 to 15,700, both inclusive; $500, Nos. 9,201 to 9,350, both inclusive; $1,000, Nos. 80,101 to 80,900, both inclusive; $5,000, Nos. 8,301 to 8,450, both inclusive; $10,000, Nos. 15,508 to 15,780, both inclusive. Total registered, $2,000,000. Aggregate, $5,000,000.

☞ A bill was introduced into the House of Representatives at Washington by Mr. Schleicher of Texas, and referred to the Committee on Railways and Canals, authorizing the Secretary of War to contract with the Corpus Christi, San Diego and Rio Grande Railroad Company for the construction of that railroad, which is to be 145 miles in length. Six thousand dollars per mile is to be paid, and the bill requires the company to give as security for the reimbursement of the money to the Government first mortgage bonds, bearing 6 per cent interest, and running for 20 years. A sinking fund is to be formed, and 50 per cent of the amount of service performed by the Government in telegraphing and transportation is to be retained for the payment of the bonds.

☞ The Secretary of the Treasury invites subscriptions to the four per cent loan upon the same terms as was offered to the public in July, 1877, namely: "Subscribers, upon a deposit of two per cent, will be allowed 90 days to complete payment. At the expiration of the 90 days the bonds will be issued upon receipt of 98 per cent of the principal and interest accrued to that date, and one fourth of one per cent commission on all subscriptions for $1000 and over will be allowed.

☞ A narrow gauge railroad is now projected between Warren and Bradford, in the McKean county oil region. The manufacturers of oil-well material in Titusville and Oil City are apprehensive, unless this road is built, their trade will be attracted away to Buffalo.

☞ The extension of the western branch of the Milwaukee, Lake Shore and Western Railroad from New London to Clintonville will be completed in the early part of summer.

Atchison, Topeka and Santa Fe Railroad.

The land sales for the first four months of this and the preceding year is shown in the annexed statement:

	1877.	1878.
January	$10,100 48	$39,854 59
February	22,511 78	66,611 58
March	27,050 06	125,956 51
April	19,773 91	184,430 71
Total, 4 months	$79,436 24	$416 853 39

The cash receipts during the same four months were as follows:

	1877.	1878.
January	$17,240 06	$28,875 83
February	16,778 20	34,462 19
March	26,107 21	67,209 58
April	30,840 27	83,766 86
Total, 4 months	$90,965 74	$214,314 46

The earnings of the road during the four months, (March and April, 1878, estimated) were:

	1877.	1878.
January	$184,863 68	$174,598 48
February	136,350 12	184,884 93
March	189,129 94	806 000 00
April	200,681 34	290,500 00
	$661,025 03	$955,983 41

☞ The Louisiana Supreme Court has decided the great bond case in favor of the New Orleans Pacific Railroad, declaring the $2,000,000 issue to be valid, and ordering the Auditor to issue $250,000 immediately, in compliance with the conditions. When all the present valid debt is funded, including $506,351 Consolidated Planters' Associated bonds, the debt will be only $12,089,128, leaving more than enough room for the $2,000,000 for the railroad before the limit of $15,000,000 is reached.

☞ In the Circuit Court of Richmond, Va. on the 1st inst., Messrs. Fred. Faulkner, of that city, and L. F. Donally, of Charleston, West Va., through counsel, entered suits against the Richmond, Fredericksburg and Potomac Railroad Company for damages, in the sum of $50,000 each, for injuries received at the time of the accident on that road, on the 24th of February last, by which Mr. Faulkner lost his left leg and Mr. Donally both legs.

☞ The following gentlemen have been elected directors of the Flushing, North Shore and Central Railroad Company of Long Island: Morris Franklin, John W. Lawrence, Adolph Poppenhusen, Charles Knoblauch, Isaac Sherwood, Henry Clement, Herman Funke, Elizur B. Hinsdale, John D. Locke, Samuel B. Parsons, Edward E. Sprague, Carl Victor, Frederick A. Potts.

☞ The report of the Delaware Western Railroad, which was presented at the annual meeting of the stockholders held at Wilmington, Delaware, on the 6th inst., shows the gross earnings for the year 1877 to have been $45,310, and operating expenses $35,314, a net gain over 1876 of $1,416. The company is now clear of debt with a small balance on hand.

☞ The Pensacola and Louisville Railroad was sold on the 6th inst. under foreclosure, and was purchaeed by J. F. Sullivan, holder of the first mortgage, which amounts to $600,000. Mr Sullivan is President of the Pensacola Railroad Company, to which the franchise and property of the old company have been transferred. The price paid was $50,000 for the road, and from 10 to 25 cents per acre for the land owned by the company.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of April, were:

ENTERED FOR CONSUMPTION.

	1877.	1878.
Manufactures of wool	$547,958	$506,362
" cotton	921,902	942,912
" silk	1,327,165	1,403,402
" flax	705,616	716,364
Miscellaneous dry goods	437,370	420,223

Total entered at port	$32,687,404	$30,731,633

☞ It is proposed to extend the New Jersey Southern Railroad to the West End at Long Branch. The ground has already been surveyed for a portion of the distance.

Chicago, Milwaukee and St. Paul Railway.

The Chicago, Milwaukee and St. Paul Railway Company have obtained control of the Milwaukee and Portage Railroad through the purchase of lands owned by that corporation. A majority of the stock and bonds of the Dubuque and South western Railroad has also been purchased. This latter purchase gives the Chicago, Milwaukee and St. Paul Railway Company a direct line from Milwaukee to Cedar Rapids, Iowa, via the Western Union, the Sabula, Ackley and Dakota, and the Dubuque and Southwestern Railroads. All of these routes are important, and their control will add largely to the traffic of the Chicago Milwaukee and St. Paul Railway Company.

☞ The following gentlemen have been elected directors of the Atlantic and Pacific Telegraph Company: Edwin D. Morgan, Augustus Schell, Hamilton McK. Twombly, Norvin Green, James H. Banker, Chauncey M. Depew, R. H. Rochester, Harrison Durkee, Thomas T. Eckert, William J. Syms, John H. Mortimer, George G. Sampson, Sidney Dillon, Elisha Atkins and Henry M. Taber. President, Thomas T. Eckhart; Vice President, H. McK. Twombly.

☞ The earnings of the Chicago, Milwaukee and St. Paul Railway the fourth week in April were $233,000, against $156,822 last year, an increase of $76,678. For the month of April the total earnings were $785,000, against $514,783 last year, an increase of $270,217.

☞ The Fitchburg, Massachusetts, Railroad Company has announced an increase of its capital stock from $4,000,000 to $4,500,000, by the issue to each shareholder at par of one new share for every eight shares at present held. They are to be allotted June 1st, and paid for by June 30th.

☞ The following have been elected officers of the Pemberton and Hightstown Railroad: President, Nathaniel S. Rue; Vice President, James W. Allen; Secretary, James L. Rue; Treasurer, Collen B. Meirs.

☞ A company has been formed to continue the work commenced by the late Henry Meiggs, of building a railroad and tunnel to facilitate the extraction of ore from the Cerro del Pasco silver mines in Peru and its removal to the seaboard.

☞ Track is now being laid on the Longview and Sabine Railroad from Longview, Texas, southward, and a section of ten miles is ready for inspection by the State Engineer. Work on the road is to be pushed forward.

☞ Phinehas Adams has been elected President, and Charles H. Bartlett Clerk of the Manchester and North Weare Railroad Company. The directors are: Phinehas Adams, Charles E. Balch, George Foster, Clinton W. Stanley, Benjamin A. Kimball, Charles Chase and Jesse Gault.

☞ H. G. Sickel has been elected President of the Philadelphia, Newtown and New York Railroad Company. The directors are H. G. Sickel, J. H. Kronse, Smith Harper, Silas Cary, Joseph Johnson, H. V. Sickel and Alfred Blaker.

☞ A belt railroad line is to be constructed at Memphis, Tenn., for the transportation of cotton.

Steel Rails.

It has been suggested that railway companies should avail themselves of the present low price of steel rails in order to get in a large stock of them for future use; but we believe many companies have already done this, and to their cost, since steel is as low as ever, and they are out of pocket to the extent of the interest on the purchase money. There *will* come a time again when steel rails will be quite double their present value, but the question is *when* that will happen.—*Herapath.*

☞ The annual report of the Directors of the Atchison, Topeka and Santa Fe Railroad Company shows the gross earnings for the year, including those from leased lines, to be $2,679,106 51; operating expenses, including taxes, $1,459,502 94; net earnings, $1,219,603 57; net gain over the previous year, $31,359 78.

☞ The Directors of the Baltimore and Ohio Railroad Co. have unanimously confirmed the nomination of William M. Clements as Master of Transportation of their road.

☞ John B. Carson has been appointed General Manager of the Hannibal and St. Joseph Railroad, and W. H. McDoll General Freight Agent.

To Railroad Companies and Large Land Owners.

THE UNDERSIGNED IS PREPARED TO treat with owners of large tracts of land who are desirous of selling and settling the same with a good class of Canadians, and are willing to make it worth his while to work up the business for them.

GEORGE C. DEW,
LAND AGENT, SARNIA, CANADA.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, May 7, 1878.

THE ANNUAL MEETING OF THE SHAREholders of the Illinois Central Railroad Company, for the election of Directors and the transaction of other business, will be held at the office of the company in the City of Chicago, on WEDNESDAY, the 29th day of May inst., at 12 o'clock M.

The transfer-books of the company will be closed after the 13th inst. until the 1st day of June next.

L. A. CATLIN, Secretary.

OFFICE OF THE PLUMAS NATIONAL QUARTZ MINING COMPANY OF CALIFORNIA,
54 Broad Street, New York, May 1, 1878.

THE DIVIDEND FOR THE MONTH OF APRIL of EIGHT CENTS per share upon the capital stock of the Plumas National Quartz Mining Company, has this day been declared, payable in Gold Coin on and after the 13th inst., at the office of the Transfer Secretary, No. 77 Cedar-st., Room No. 15. Transfer-books will close on the 6th and reopen on the 15th inst. By order of the board.

A. P. MARSHALL, Transfer Secretary.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending April 27th, the total anthracite production, as reported by the several carrying companies, amounted to 170,599 tons, against 473,603 tons in corresponding week last year, a decrease of 302,554 tons. The total amount of anthracite mined for the coal year is 8,597,072 tons, against 5,068,425 tons for same period last year, a decrease of 1,471,353 tons. The quantity of bituminous coal sent to market for the week amounted to 55,840 tons, against 69,748 tons in corresponding week last year, a decrease of 13,908 tons. The total amount of bituminous mined for the year is 640,028 tons, against 872,410 tons for corresponding period last year, a decrease of 232,382 tons. The total tonnage of all kinds of coal for the week is 226,349 tons, against 542,811 tons in corresponding week last year, a decrease of 316 462 tons. The total tonnage of all kinds of coal for the coal year is 4,237,100 tons, against 5,940,835 to same date last year, a decrease of 1,703,735 tons. The receipts at Perth Amboy for the week ending on April 25th were 8,961 tons, the shipments 15,588 tons, leaving a stock on hand of 62,195 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of April was 100,493 tons, of which 78,670 tons were coal, and 21,823 tons coke. The total carried for the year is 1,473 ,743 tons, of which 1,150,015 tons were coal and 323,728 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad carried 77,000 tons of coal last week to Port Richmond, whilst 27,500 tons were shipped thence, leaving the stock on hand at Port Richmond last Saturday about 106,300 tons.—*Phila. Ledger, May 6.*

☞ The Report of the Great Western Railway Company of Canada for the six months ending January 31, 1877, printed on another page, was presented at the special general meeting of the shareholders in London, England, on the 30th ult., when the agreement for the acquisition of the Detroit and Milwaukee Railroad was confirmed.

☞ The gross earnings of the Burlington, Cedar Rapids and Northern Railway Company for the week ending April 30, 1878, were $35,166 95; same week last year, $18,950 31—increase, $16,216 64. The earnings for the month of April were $115,276 92; same month last year, $72,434 52—increase, $42,842 40.

☞ The directors of the Vineland Railroad Company of New Jersey, elected on the 6th inst., are: Jay Gould, Thomas I. Sheridan, Thomas G. Rigney, Louis H. Taylor, James P. Mead, Joshua Cowley, James F. Bingham. Gay Gould was elected President, and James F. Bingham Secretary and Treasurer.

☞ The Cumberland, Md., Alleganian learns from private sources that work has been resumed on the Salisbury railroad recently. This is a broad gauge road running from Salisbury to the Pittsburg division of the Baltimore and Ohio road at Myersdale, Pa.

☞ Hon. B. T. Biggs has been elected President, and Robert Craven Treasurer of the Queen Anne and Kent Railroad Company. The directors are: Jacob Tome, Joseph Bringhurst, T. Morris Perot, B. T. Biggs, Edward Larkins, Wm. Crawford and Jacob Hinkley.

☞ The Norwalk, Ohio, Street Railroad Company has been incorporated with a capital stock of $5,000, by C. W. Owen and others.

☞ The $2,000,000 additional bond bill for the completion of the Southern Railroad was voted on in Cincinnati on the 3d inst. and defeated by a majority of 219 in a total vote of over 22,000.

☞ The earnings of the Philadelphia and Erie Railroad for the month of March, 1878, were $188 510 95, the expenses $137,716 67, and the net earnings $50,794 28.

The Steam Horse.

There is now on exhibition at No. 206 Walnut Place, Philadelphia, what is claimed by the inventor to be one of the most valuable improvements in motive power yet discovered. It is known as the "steam horse," is simple in construction, and in a point of usefulness can perform the work of six strong draft horses. The motive power is confined to that portion of the machine representing the hind legs of a horse. The imitation is close, comprising a leverage corresponding to the pastern, hock and stifle joints of a horse. These are propelled by machinery answering to the shaft and driving rods of a locomotive. In the place of the forelegs two wheels are supplied to the machine which serve to guide it in any desired direction by means of a tiller operated from the car or wagon. The uneveness of the ground or obstruction which may be found in the streets are provided for by means of joints in the driving rods enabling the driver to raise the feet sufficiently high to step over the obstruction. The inventor who is a Philadelphian, has been engaged since 1869 in perfecting the "horse." Its weight is about four thousand pounds, and has a motive power equal to six mules. In point of speed, the inventor says it can be run at a rate far beyond that ordinarily reached by horses, and it can be attached to road wagons, street cars, canal boats, or applied to any use where horses are employed.

Susquehanna Canal Co.

At the annual meeting of the Susquehanna Canal Company, held in Baltimore on the 13th inst., the following officers were elected: President, G. A. Nicolls; Managers, George W. Dobbin, Thomas Wilson, William P. Jenks, B. Andrews Knight, Enoch Pratt, Jacob Tome, R. K. Hawley, John N. Hutchison, J. P. Lippincott, Ira C. Canfield, Franklin B. Gowen and A. E. Borie. Treasurer, Robert D. Brown.

It has been agreed between the Philadelphia and Reading Railroad Company and the board of public works to arrange for paying to the State of Maryland the annuity of $60,000, past due and to accrue, by the issue of scrip; certificates aggregating $300,000 to be placed in escrow until the Legislature meets again and remedies defects in the bill authorizing interest bearing scrip payments, which bill was passed at the late session, but failed to obtain approval on account of technical omissions.

Madeira and Mamore Railroad.

It was but a few weeks back when a cablegram from London announced that litigation had been commenced, which threatened the success of the Madeira and Mamore railroad, for the construction of which the Messrs. Collins, of this city, are the contractors. Since that time letters have been received here, by private parties, which stated that the money was so tied up that the Collinses would be unable to proceed with their work for the want of money. In conversation with Mr. Phillip Collins, he said:

"We received a telegram from Mr. Judah P. Benjamin, at London, yesterday, stating that our position was impregnable. In addition to this, the Master of the Rolls, before whom the matter was argued, stated that the contractors must be paid for any outlay which they make. He has not given a decision on this point, but merely announced it. His final decision will be made in a few days. We consulted the most eminent counsel in London before we went into the thing, and we were assured that it was all right, else we would not have touched it."

The trouble complained of is that the money was appropriated for the purpose of constructing a railroad in Brazil by the Bolivian Government, and that the money was paid into the Bank of England to be used when wanted. Since the Messrs. Collins have had the contract, and shown such energy in pushing the work forward, the previous contractors, who have done nothing, have entered suit and endeavored to keep them out of the money. The bondholders, one of whom was recently in this city, are, according to Mr. Collins, perfectly satisfied with what has been done and the prospects of the completion of the road. The money has been in litigation for some time, and now the prospects are that the contractors will be paid for the outlay for every dollar they have made and will make. The announcement of the Master of the Rolls, while not a final decision, is accepted as an indication of what his determination will be—that the money, having been placed in the Bank of England for the purposes of the construction of a railroad, cannot be used for any other purpose. The first installment of money, will, it is expected, be received in a few days.—*Phila. Record.*

Pittsburgh, Titusville and Buffalo Railroad.

The receipts from operations of this road for the year ending December 31, 1877, were as follows:

Received from transportation		$494,135 67
Received from passengers		174,068 69
Received from express, mail, etc.		18,873 82
		$687,078 18
Expenses—		
Conducting transp.	$117,369 04	
Motive power	102,400 84	
Maintenance of way and cars	187,560 86	
General expenses	20,578 84	
		427,909 08
Net earnings		$259,164 10
To which is added the credit balance December 31, 1876		131,177 29
		$390,341 30
From which has been paid:		
Interest on all bonds		261,450 00
Balance to credit of profit and loss December 31, 1877		$128,891 30

At the time when the road was sold and the new company organized the road and cars were in bad condition. Many of the rails were much worn, some of the cross ties rotten, and many of the cars entirely unfit for use. According to the report, all the serious defects have been remedied—the cars have been renewed, the road reditched, ballasted and repaired with new rails; the engines and bridges put in good order, and new track scales built. The business of this year for Jan-

uary and February shows an increase in net earnings of $4,747 71 over the corresponding month of last year.

Pittsburg, Wheeling and Kentucky R. R.

At the annual meeting of the stockholders of the Pittsburg, Wheeling and Kentucky Railroad Company, held in Wheeling, West Va., on the 28th of March, the following gentlemen were elected directors: C. D. Hubbard, M. Reilly, H. G. Lazear, Wm. Thaw, Thos. D. Messler and John McLure. President, C. D. Hubbard; Secretary, J. M. Belleville; Treasurer, W. H. Barnes; Asst. Secretary, J. M. Harding. The Report of the President, which was presented, says:

At a general meeting of the stockholders of this company, held on the 28th day of September, 1876, the board of directors were authorized and empowered to issue bonds to the amount of $200,000, bearing interest at the rate of seven per cent per annum, and to dispose of the same on the best terms they could obtain; and to secure the payment of the bonds so to be issued the board of directors were further authorized and empowered to make, execute, and deliver to such trustee or trustees, as the president of this company may select, a mortgage of the railroad constructed and to be constructed of this company from the Pittsburgh, Cincinnati and St. Louis Railway, at the east end of the Steubenville bridge, to the city of Wheeling, and of their estate, real and personal, now owned and hereafter to be acquired, and of the corporate franchises of the company.

In pursuance of the above recited authority the board of directors issued bonds to the amount of $200,000, being 200 bonds of the amount of $1,000 each, bearing date October 6th, 1877, and payable in thirty years from the first day of November, 1877, and have executed a mortgage of like date of October 6th, 1877, to secure the payment of said bonds and the interest thereon to Thos. D. Messler and Wm. P. Hubbard, Trustees, who have accepted the trust, on all the real and personal property of the company, now owned or hereafter to be acquired, and of the corporate franchises of the same. The said mortgage further provides that on or before the 1st day of November, 1880, the sum of $2,000 shall be paid over to the trustees as the first installment of a sinking fund for the redemption of the bonds, and annually thereafter, on or before the 1st day of November of each year, a like amount of $2,000 for the same purpose.

Said bonds were negotiated at ninety cents on the dollar, netting to the company $180,000, $100,000 being taken by the Pennsylvania Company, payable in iron rails and other materials needed in the construction of the road, $50,000 by Ohio county, West Va., and the remainder by other parties. The proceeds of these bonds have been expended in the construction and completion of the railroad ready for the rolling stock, purchasing sites for and erecting depots, and paying unsettled rights of way.

Herewith is also presented the report of Chief Engineer M. J. Becker, made to the directors at their meeting on the 18th instant, showing the entire cost of the road to this day, and the estimated amount of a small portion of work yet necessary for the completion of the road to be $190,235 22, or an excess of $10,235 22 over the proceeds of the bonds. In this amount is included the purchase of additional depot grounds, the payment of unsettled rights of way and other expenditures as set forth in said report, not provided for in the original estimates. This excess is a debt on the part of this company which it is hoped will be paid by the lessee, and taken out of the first earnings of the road.

At a general meeting of the stockholders of this company on the 9th day of August, 1877, held and called for that purpose, a form of lease of the Pittsburgh, Wheeling and Kentucky Railroad Company to the Pittsburgh, Cincinnati and St. Louis Railway Company, adopted at a previous meeting of the directors, and recommended for the approval of the stockholders, was presented by the president, read and examined, and, on motion, the following resolution was adopted:

Resolved, That the lease this day presented, proposed between the Pittsburgh, Cincinnati and St. Louis Railway Company and this company, be approved and ratified as of this date to take effect from the date of the completion of the road ready for operation, and that the president and secretary be and are hereby authorized to execute the same on behalf of this company, and to take such steps as the Board may deem necessary to carry out the same.

As soon as it was ascertained that the whole amount of the bonds could be negotiated, a meeting of the directors was called on the 3d of July, 1877, for the purpose of carrying into effect the proposed arrangement with the Pennsylvania Company for the completion of the railroad; said plan of arrangement is herewith presented, and preliminary thereto Abram Wilson, who had done good service as a member of the Board, resigned his position, and Wm. Thaw, of Pittsburgh, was elected to fill the vacancy, and Thos. D. Messler, of Pittsburgh, was elected to fill the vacancy already existing in the Board, by reason of Mr. D. C. List declining to serve.

On the 18th of July, John McLure, as Vice President, and M. J. Becker, as Chief Engineer, were directed to take the necessary steps to prepare the roadway, secure ties, and complete the road as early as practicable. Specifications were prepared, and bids solicited for completing the road bed, track laying and ballasting. Bids were received from twenty-one different parties, and at a meeting of the directors, held on the 21st August, 1877, the contract for grading, tracklaying and ballasting was awarded to C. Mackin & Co., of Pittsburgh, as the lowest responsible bidders who could give adequate security for the faithful performance of the contract. Work was commenced on the road soon after, and prosecuted with some degree of energy and success, and on the 25th of February, 1878, a train of cars ran over the road from Wheeling to its point of connection with the Pittsburgh, Cincinnati and St. Louis Railway, near the east end of the Steubenville bridge, and trains of cars have continued to run over the road, between said points, each day since, except Sundays thereby fixing the said 25th day of February as the date at which the lease to the Pittsburgh, Cincinnati and St. Louis Railway Company should take effect, and the completion of the railroad, according to the terms of the agreements made between the counties of Ohio and Brooke for the transfer of their stock, &c., to the parties who may furnish the means for completing the road.

The opening of the road has been of too recent date to give any data in regard to its earnings, but all the indications go to show that those who invested in the bonds of the company, and by consequence in its stock, will not be disappointed in their investment.

Railways in Victoria.

On Dec. 31, 1876, there were 702 miles open for traffic, since then 259 miles more have been completed and opened for business. The gauge is a uniform one of 5 feet 3 inches. These railways comprise the Northeastern, a line from Melbourne to Woodenga, 187 miles; the Northern or main line, from Melbourne to Echuca, 156 miles; the Eastern or Gippsland lines, and the Western to Starwell, 176 miles, and with connecting lines of the several roads. These railways are owned and managed by the government. The approximate average cost per mile is about £15,440. During the six months, July 1st to Dec. 31st, 1876, 1,582,057 passengers, and 477,422 tons of goods were conveyed, and the gross receipts were, from passenger traffic £204,696, from goods £347,264, in all, £551,961. Hon. John Woods is the Commissioner of roads and railways, P. P. Labertouche Esq., Acting Secretary, and Mr. S. Mirls, Acting Locomotive Overseer.

Cincinnati and Muskingum Valley Railway.

The earnings of this road for the years ending December 31, 1876 and 1877, were:

	1876.	1877.
From passengers	$101,794 28	$100,535 15
" freight	206,033 24	251,556 99
" express goods	3,424 06	5,000 00
" mails	9,887 97	8,470 97
" miscellaneous	1,269 45	1,210 75
	$322,359 10	$366,773 86
Expenses, viz:		
Conducting transp.	$72,297 37	$76 451 08
Motive power	89,460 63	97,475 68
Maintenance of road	124,192 12	21,635 94
Maintenance of cars	26,244 42	26,860 93
General expenses, including taxes	17,548 89	18,464 28
	$329,743 43	$340,887 91
Net earnings, 1877		$25,885 95
Deficit, 1876	$7,874 33	
Deducting this amount from the interest for the year on the bonds of your company		105,000 00
Gives a loss to the lessee, for 1877, of		$79,114 05
The loss in 1876 was		112,384 33
Decrease		$33,270 28
The amount advanced by the Lessee for account of deficiency in earnings sufficient to meet expenses and interest on the bonds of your company to December 31, 1876, was		$382,343 76
Add the loss above shown for 1877		79,114 05
Total loss		$461,457 81
Add amount expended by the Lessee for betterments	$5,453 85	
Your company is also indebted to the Lessee for earnings received by you in the *interim* between the date of the lease, January 1, 1878, and the time the road was actually delivered, May 1, 1878, amounting to	3,812 70	
		9,266 05
Total		$470,723 86
From which should be deducted:		
Coupons unpaid, due July 1, 1877, from bonds held by Pennsylvania Railroad Co	$26,320	
Coupons unpaid, due January 1, 1878, from bonds held by Pennsylvania Railroad Co	26,320	
		52,640 00
Making a total indebtedness to Pittsburg, Cincinnati and St. Louis Railway Co., December 31, 1877		$418,083 86

The road is 148.4 miles in length, extending from Dresden Junction, on the Pittsburg, Cincinnati and St. Louis Railway to Morrow, on the Little Miami Railroad.

The equipment of the road January, 1878, consisted of 14 locomotives, 7 passenger coaches, 2 combination, 4 baggage, 52 box, 39 stock, 14 platform, 224 gondola, 26 hopper, 1 tool, and 4 caboose cars.

Tons of local freight carried in 1877, 168,026; foreign freight, 78,577—total, 246,603, against 192,788 in 1876, an increase of 53,815. Total

mileage of freight, 14,752,093. Av. rate per ton per mile, 1.705 cents.

Number of local passengers carried in 1877, 181,504; foreign, 3,265—total, 184,769, against 186,632 in 1876, a decrease of 1,863. Total mileage of passengers, 3,767,011. Av. rate per passenger per mile, 2,669 cents.

Secretary and Treasurer.—C. G. WAITE.

French Railways.

At the close of 1876 there were 12,725 miles of line in operation in France. At the close of 1877 the corresponding extent of line in operation had risen to 13,148⅛ miles. It follows that 423⅛ miles of new line were opened in France in the course of 1877. Of the new line opened last year, 127⅛ miles were brought into operation by the Paris, Lyons and Mediterranean. The Western and the Southern were also rather considerably extended last year. The aggregate receipts of all the French lines amounted last year to £33,687,984, as compared with £34,328,904 in 1876, showing a decrease of £640,920 last year. Having regard to the additional mileage brought into operation last year, the average receipts per mile declined in 1877 to the extent of 4.12 per cent, as compared with 1876.

Delaware and Hudson Canal.

At the annual meeting of the stockholders of the Delaware and Hudson Canal Co., held in this city on the 14th inst., the following gentlemen were elected managers for the ensuing year: Abiel A. Low, Robert Lenox Kennedy, James M. Halsted, LeGrand B. Cannon, James R. Taylor, Thomas Dickson, John Jacob Astor, Thomas Cornell, J. Pierpont Morgan, Geo. Cabot Ward, Robert S. Hone, James Roosevelt, Levi P. Morton.

At a meeting of the Board of Managers held on the same day the following officers were chosen: President, Thomas Dickson, Scranton, Pa.; Assistant President, Robert M. Olyphant, New York City; General Manager, Coe F. Young, Honesdale, Pa.; Treasurer, James C. Hartt, New York City; Secretary, George L. Haight, New York City.

The report of the company for the year ending December 31, 1877, was presented from which we make the following extract:

PROFIT AND LOSS ACCOUNT OF DELAWARE AND HUDSON CANAL COMPANY FOR YEAR ENDING DECEMBER 31, 1877:

Dr.

To coal on hand December 31, 1876, 240,822 tons	$698,758 15
To mining coal	2,077,870 31
To coal transportation and repairs	488,073 28
To freight of coal and canal expenses	759,348 61
To Rondout expenses	136,634 80
To freight paid other lines	422,745 58
To harbor and yard expenses	63,503 96
To taxes	174,051 69
To salaries, rent and miscellaneous and law expenses	159,214 54
To interest	1,157 351 97
To loss on leased lines	605,366 84
Total	$6,743,039 73

Cr.

By sales of coal to December 31, 1877	$4,638,871 94
By canal tolls	44,313 14
By net earnings, Pennsylvania Railroad	248,274 89
By interest on investments	294,811 83
By miscellaneous profits	28,900 84
By coal on hand December 31, 1877, 123,778 tons	341,036 00
By balance	1,147,332 09
Total	$6,743,039 73

In reply to questions put to him by the stockholders Mr. Dickson said that an advance of $1 had taken place in the price of coal since the last report; that the earnings of the company for the quarter ending March 31 showed a net gain of $93,000; that mining for the year was only reduced 35,000 tons, and the sales of coal reduced 70,000 tons. The sales for the year were expected to run from 2,000,000 to 2,400,000 tons.

He also called attention to the laying of the third rail by the New York, Lake Erie and Western Railroad from Binghamton, which would add to the transportation facilities of his road.

The company of Boston capitalists building the railroad from Mechanicsville, on the Rensselaer and Saratoga Railroad, to the Hoosic Tunnel, expect to obtain a new route through from Boston to the West by way of Schenectady and Binghamton, and the managers of the Delaware and Hudson reasonably hope that the time is not distant when this road will be a source of revenue to the company, and afford increased facilities for the distribution of coal.

The interest paying debt, Mr. Dickson stated, had been increased only $275,000 in the last 18 months, the reason for the increase being that mortgages had been taken up and a funded debt substituted.

The committee appointed at the last annual meeting of stockholders had examined the property and assets of the company, and had reported an aggregate of value showing a surplus of over $4,000,000.

☞ The gross earnings of the Great Western Railway of Canada in March, 1878, were $329,500, the expenses $268,100, and the net earnings $61,400. In March, 1877, the earnings were $305,900, the expenses $268,800, and the net earnings $37,100—showing an increase in earnings of $23,600, a decrease in expenses of $700 and an increase in net earnings of $24,300.

Mr. Jewett's Services Recognized.

A meeting of the Board of Directors of the New York, Lake Erie and Western Railroad Company was held at No. 54 Exchange Place in this City, on Saturday, April 27; present, Messrs. Morgan, Jewett, Welsh, Wells, Stebbins, Johnston, Butler, Grant, Pierson, Phelps, Parker, Dana, Ramsdell, and Sloan. Mr. Cortland Parker offered the following resolutions, which were unanimously adopted:

Resolved, That this board tenders to Hon. Hugh J. Jewett its gratitude and sincere thanks for his able, wise, and energetic administration of the property and affairs of the Erie Railway Company, both as President and Receiver.

Resolved, That we extend to him the emphatic assurance of our entire respect and confidence, and we denounce as utterly false, malicious, and defamatory the various loose, vague, and general charges of mismanagement and misconduct that have been brought against him in the course of the litigation in opposition to the scheme of reconstruction, and in various newspapers published in London.

Pittsburgh Southern Railroad.

The Directors of the Pittsburgh Southern Railroad Company, at a meeting, on the 7th inst., elected Josiah Reamer Vice President; J. H. Miller, General Freight and Passenger Agent; and M. K. Salsbury Secretary and Treasurer. An order was made directing the immediate location of the road from its present terminus at Thomas to Washington, a distance of ten miles, the work of construction thereon to commence at once.

The Board also directed their general agent at Washington, F. G. Kammerer, to proceed with the construction of the main line southward from Peter's Creek to the National Pike, a distance of fifteen miles and complete the same at the earliest possible time. It is expected that the trains on this road will be running through to Washington and southward as far as the National Pike by the first of August next.—*Pittsburg Chronicle.*

☞ The Chambersburg (Pa.) papers state that the Mount Alto Railroad Company have completed arrangements for extending their road to Waynesboro', Pa., and have already commenced work. From the Mount Alto Railroad to Waynesboro' is seven and a half miles, through Alto Dale and Quincy. The Mount Alto Railroad now runs from the Furnace to the Cumberland Valley Railroad, with which it connects, three miles east of Chambersburg. The Hagerstown Mail claims that this extension is the work of Philadelphia, designed to head the scheme connecting Waynesboro' with the Western Maryland Railroad.

☞ The Massachusetts Board of Railroad Commissioners have issued the certificate preliminary to the granting of a charter for the Spencer Railroad Company, which is to construct a road from the village of Spencer to the Spencer depot on the Boston and Albany Railroad. The road will be two miles in length, and, as in the case of the North Brookfield road, will doubtless be operated by the Boston and Albany corporation. Of the five hundred shares at par one half have been taken by the town and the remainder by citizens of the same. Twenty per cent of the capital stock has been paid in.

☞ A considerable increase is taking place in the traffic of the Port Dover Railway since the completion of the Stratford and Huron Railway to Listowel.
